

Contents

I. Upper Extremity

1. Anatomy and Function in the Upper Extremity.....	1
2. The Brachial Plexus.....	31
3. Posterior Subscapular Approach to the Brachial Plexus	61
4. Brachial Plexus Injury Types	69
5. Thoracic Outlet Syndrome	91
6. Spinal Accessory Nerve.....	95
7. Suprascapular Nerve	101
8. Axillary Nerve.....	107
9. Musculocutaneous Nerve.....	115
10. Radial Nerve	123
11. Median Nerve	139
12. Ulnar Nerve	155

II. Lower Extremity

13. Anatomy and Function in the Lower Extremity.....	165
14. Ilioinguinal, Iliohypogastric, and Genitofemoral Nerves and Lateral Cutaneous Nerve of the Thigh	185
15. Femoral Nerve.....	191
16. Sciatic Nerve.....	199
17. Peroneal Nerve.....	215
18. Tibial Nerve	221
19. Sural Nerve.....	229

III. Surgical Techniques

20. Surgical Techniques for Nerve Tumors	235
21. External and Internal Neurolysis	241
22. Epineurial Suture, Split, and Graft Repair.....	247
23. Nerve Action Potential Recording	255
24. Nerve Transfers.....	259
