Introduction 17

PART I

Sharpening Research in Applied Linguistics: the Role of Semantic Web Apps

Chapter 1. Applying Linguistics

Introduction	23
1. The Work of Applied Linguistics	24
2. Key Aspects of Applied Linguistics	28
2.1. The Quality of Openness	28
2.2. Interdisciplinary Collaboration	30
2.3. Real-world enquiry in Applied Linguistics	31
3. Computers in Applied Linguistics	33
Conclusions	35

Chapter 2. The Semantic Web

Introduction	37
1. The Need for a Semantic Web	38
2. The Evolution of the Web	40
3. Main Components of the Semantic Web	44
3.1. Natural Language Processing	44
3.1.1. NLP and the Levels of Language	46
3.2. Machine Learning	49
3.3. Intelligent Applications	50
Conclusions	51

Chapter 3. Semantic Web Apps: Text Mining

Introduction	53
1. The New Era of Semantic Web Apps	54
2. Main Purpose of Use	56
2.1. Ontologies	58
2.2. Semantic Searches	59
3. Semantic Web Apps: Operational Effectiveness	61
3.1. The Complexity of Meaning-Text Correspondence	62
4. Semantic Web Apps: Text Mining	64
4.1. Information Extraction	65
4.2. Word Clustering	66
4.3. Text Categorization	68
4.4. Text Summarization	69
4.5. Sentiment Analysis	69
Conclusions	72

PART II
Mediated Discursive Practices on the Semantic Web

Chapter 4. Setting Up Research Enquiry

Introduction	77
1. The Web-as-Corpus Approach	78
2. The Choice of the Semantic-Web App Approach	79
3. The Research Framework	82
3.1. The Research Method	83
3.2. The Research Methodology	84
3.3. The Theoretical-Epistemological Perspective	85
4. Research Procedure	87
4.1. Phase One: Orientation and Overview	87
4.1.1. Selection of Strands of Applied Linguistics	88
4.1.2. Refinement of Research Questions	90
4.1.3. Selection of Semantic Web Apps	90
4.2. Phase Two: Focused Exploration	92
4.3. Phase Three: Verification	92
5. Rigour of the Study	93
Conclusions	94

**Chapter 5. Enhancing Consumer Health Vocabulary:
The Case of Ontology-based Searches**

Introduction	97
1. Theoretical Background	100
2. Research Issue	103
2.1. Research Methodology	104
2.2. Research Tools	105
2.3. Research Method and Procedure	107
3. Findings for NMLPlus Simulations	108
3.1. Verbal Semiotic Findings	108
3.2. Visual Semiotic Findings	112
3.3. Spatial Semiotic Findings	112
4. Data Triangulation	113
5. Implications for Mediated Practice	118

**Chapter 6. Developing L2 Readers' Comprehension Strategies:
The Case of the Text Clouding Approach**

Introduction	123
1. Theoretical Background	126
2. Research Issue	129
2.1. Research Methodology	131
2.2. Research Tools	132
2.3. Research Method and Procedure	133

3. Findings on Text Clouds	134
3.1. Findings on Cloud Generation, Representation and Interpretation	134
3.2. Text Cloud Appreciation	140
4. Data Triangulation	141
5. Implications for Mediated Practice	143

**Chapter 7. Attitude Detection in Hotel Reviews:
The Case of Sentiment Analyzers**

Introduction	145
1. Theoretical Background	148
2. Research Issue	151
2.1. Research Methodology	154
2.2. Research Tools	156
2.3. Research Method and Procedure	157
3. Findings on Hotel Reviews	158
3.1. Findings on Negative/Positive Appraisal in Hotel Reviews	158
3.2. Findings on Customer Attitudes	159
3.3. Findings on Attitude in the Hotel Homepage	163
4. Data Triangulation	164
5. Implications for Mediated Practice	166

Chapter 8. Reflections on Mediated Discursive Practices	169
1. The Discursive Practice Approach	171
2. Future Research Work	172
