

Contents

Preface	vi
1 Introduction	1
2 Mathematical Foundations	11
3 Research Design	24
4 Data Collection	44
5 Data Management	62
6 Multivariate Techniques Used in Network Analysis	89
7 Visualization	100
8 Testing Hypotheses	125
9 Characterizing Whole Networks	149
10 Centrality	163
11 Subgroups	181
12 Equivalence	206
13 Analyzing Two-Mode Data	231
14 Large Networks	249
15 Ego Networks	262
References	284
Index	291
