

Content

Preface	5
Manfred Schwerin	
A workflow to investigate the additional usage of protein-protein-interaction data for the classification of oestrogen receptor status in breast cancer based on gene expression	7
Clemens Harder, Georg Füllen and Dirk Repsilber	
BiomvRCNS: Copy number variation study and segmentation for multivariate biological data	11
Yang Du, Eduard Murani, Siriluck Ponsuksili and Klaus Wimmers	
Untersuchung der Grundlagen zur bovinen Vertebro-spinalen Dysplasie (VSD) in der Holsteinpopulation	15
Andreas Kromik, Reiner Ulrich, Marian Kusenda, Veronika Stein, Andrea Tipold, Maren Hellige, Peter Dziallas, Tom Goldammer, Wolfgang Baumgärtner, Jürgen Rehage, Rosemarie Weikard und Christa Kühn	
Metabolomic data processed in a network approach reveals pathways with functional implications in cattle growth	19
Philipp Widmann, Antonio Reverter, Rosemarie Weikard, Karsten Suhre, Harald Hammon, Elke Albrecht and Christa Kuehn	
Combining whole-genome expression and quantitative trait loci data to identify candidate genes for osteochondrosis in pigs	23
Noppawan Rangkasenee, Eduard Murani, Siriluck Ponsuksili and Klaus Wimmers	
<i>UBE3B</i> and <i>TRIP12</i> polymorphisms and transcript abundance are associated with water holding capacity of porcine <i>m. longissimus dorsi</i>	27
Huynh Thi Phuong Loan, Eduard Murani, Steffen Maak, Siriluck Ponsuksili, Klaus Wimmers	

Induction of an early post-LH stage in cultured bovine granulosa cells by increasing the plating density	31
Anja Baufeld and Jens Vanselow	
Insulin signaling of glucose uptake during late pregnancy and early lactation in skeletal muscle of high yielding dairy cows with different fat mobilization	35
Sarah K. Spachmann, Ulrike Kautzsch, Christine Schäff, Sabina Börner, Sandra Hacke, Björn Kuhla, Monika Röntgen and Harald M. Hammon	
Investigation of the genetic predisposition for behavioral traits in cattle	39
Juliane Friedrich, Bodo Brand, Katharina L. Graunke, Jan Langbein, Siriluck Ponsuksili and Manfred Schwerin	
Neuroendocrine modulation of immune functions by repeated anticipation in domestic pigs	43
Jana Brietzke, Steffi Mahnhardt, Ellen Kanitz, Margret Tuchscherer, Winfried Otten, Peter C. Schön, Armin Tuchscherer, Gerhard Manteuffel and Ulrike Gimsa	
Toll-like receptors in rainbow trout (<i>Oncorhynchus mykiss</i>): Structure of TLR2 and regulation of factors contributing to TLR signaling during infection	47
Andreas Brietzke, Alexander Rebl, Bernd Köllner and Hans-Martin Seyfert
