<b>PART I BASIC TERMINOLOGY, CONCEPTS, AND CHALLENGES</b>	<b>1</b>
<b>1 Executive Summary and Book Overview</b>	<b>3</b>
<i>Ahmed Seffah and Homa Javahery</i>	
1.1 Motivation	3
1.2 A Few Definitions	4
1.3 Challenges	5
1.4 Specific Objectives	5
1.5 Audience	6
1.6 Overview	6
References	9
<b>2 Multiple User Interfaces: Cross-Platform Applications and Context-Aware Interfaces</b>	<b>11</b>
<i>Ahmed Seffah and Homa Javahery</i>	
2.1 MUI: Characterization and Evolution	11
2.1.1 <i>Interaction Styles</i>	13
2.1.2 <i>Fundamental Characteristics</i>	15
2.1.3 <i>Vertical versus Horizontal Usability</i>	16
2.1.4 <i>Related Work</i>	16
2.2 Fertile Topics for Research Exploration	18
2.2.1 <i>Context-Aware Development</i>	18
2.2.2 <i>Model-Based Development</i>	20

2.2.3	<i>Pattern-Driven Development</i>	22
2.2.4	<i>Device-Independent Development</i>	23
2.3	Concluding Remarks	24
	Acknowledgements	25
	References	25
<b>PART II ADAPTATION AND CONTEXT-AWARE USER INTERFACES</b>		<b>27</b>
<b>3</b>	<b>A Reference Framework for the Development of Plastic User Interfaces</b>	<b>29</b>
	<i>David Thevenin, Joëlle Coutaz, and Gaëlle Calvary</i>	
3.1	Introduction	29
3.2	Terminology: Context of Use, Plastic UI and Multi-Target UI	30
3.2.1	<i>Context of Use and Target</i>	30
3.2.2	<i>Multi-Target User Interfaces and Plastic User Interfaces</i>	31
3.2.3	<i>Terminology: Summary</i>	32
3.3	The “Plastic UI Snowflake”	32
3.3.1	<i>Target Sensitivity</i>	33
3.3.2	<i>Classes of Software Tools</i>	33
3.3.3	<i>Actors in Charge of Adaptation</i>	34
3.3.4	<i>Computation of Multi-Target and Plastic User Interfaces</i>	35
3.3.5	<i>User Interface Software Components</i>	35
3.3.6	<i>User Interface Migration</i>	37
3.4	The Process Reference Framework for Multi-Target and Plastic UIs	37
3.4.1	<i>General Description</i>	38
3.4.2	<i>The Process Reference Framework in the Design Phase</i>	39
3.4.3	<i>Instantiations of the Process Reference Framework</i>	41
3.5	ARTStudio: An Application of the Process Reference Framework	43
3.5.1	<i>The EDF Home Heating Control System</i>	43
3.5.2	<i>ARTStudio</i>	43
3.6	Conclusion	49
	Acknowledgement	49
	References	49
<b>4</b>	<b>Temporal Aspects of Multi-Platform Interaction</b>	<b>53</b>
	<i>David England and Min Du</i>	
4.1	Introduction	53
4.2	Temporal Contexts of Multiple Platforms	55
4.2.1	<i>Fitts’ Law and the Control:Display Ratio</i>	55
4.2.2	<i>Computation Speed of the Platform</i>	56
4.2.3	<i>Support for Task Switching on Platforms</i>	56
4.3	Modelling Temporal Contexts	57
4.3.1	<i>Action Selection Pattern</i>	58
4.3.2	<i>Progress Monitoring Pattern</i>	59

4.3.3	<i>Task Management Pattern</i>	61
4.3.4	<i>Platform Interaction Pattern</i>	62
4.4	The Temporal Constraint Engine	63
4.5	Discussion	64
4.6	Conclusions	65
