Preface to the second edition	ix
Preface to the first edition	xi
Section 1: A framework for success	1
1 How the book is organized, and why	3
1.1 Getting started with writing for international publication	3
1.2 Publishing in the international literature	4
1.3 What do you need to know to select your target journal?	6
1.4 Aims of this book	7
1.5 How the book is structured	8
2 Research article structures	11
2.1 Conventional article structures: AIMRaD (Abstract, Introduction, Materials and methods, Results, and Discussion) and its variations	11
3 Reviewers' criteria for evaluating manuscripts	17
3.1 Titles as content signposts	18
Section 2: When and how to write each article section	21
4 Results as a "story": the key driver of an article	23
5 Results: turning data into knowledge	25
5.1 Figure, table, or text?	26
5.2 Designing figures	26
5.3 Designing tables	29
5.4 Figure legends and table titles	31
6 Writing about results	33
6.1 Structure of Results sections	33
6.2 Functions of Results sentences	34
6.3 Verb tense in Results sections	34

7 The Methods section	37
7.1 Purpose of the Methods section	37
7.2 Organizing Methods sections	38
7.3 Use of passive and active verbs	39
8 The Introduction	43
8.1 Argument stages towards a compelling Introduction	43
8.2 Stage 1: Locating your project within an existing field of scientific research	43
8.3 Using references in Stages 2 and 3	47
8.4 Avoiding plagiarism when using others' work	50
8.5 Indicating the gap or research niche	51
8.6 Stage 4: The statement of purpose or main activity	52
8.7 Stages 5 and 6: Highlighting benefit and mapping the article	52
8.8 Suggested process for drafting an Introduction	53
8.9 Editing for logical flow	54
9 The Discussion section	59
9.1 Important structural issues	59
9.2 Information elements to highlight the key messages	60
9.3 Negotiating the strength of claims	62
10 The title	65
10.1 Strategy 1: Provide as much relevant information as possible, but be concise	65
10.2 Strategy 2: Use keywords prominently	65
10.3 Strategy 3: Choose strategically: noun phrase, statement, or question?	66
10.4 Strategy 4: Avoid ambiguity in noun phrases	67
11 The Abstract	69
11.1 Why Abstracts are so important	69
11.2 Selecting additional keywords	69
11.3 Abstracts: typical information elements	69
12 Writing review articles	73
12.1 What editors want to publish	75
12.2 The "take-home-message" of a review	75
12.3 The structure of review articles	83
12.4 Visual elements in review articles: tables, figures, and boxes	84
12.5 Checklist for review article manuscripts	86
12.6 Submission and revision of review articles	86
Section 3: Getting your manuscript published	89
13 Submitting a manuscript	91
13.1 Five practices of successful authors	91
13.2 Understanding the peer-review process	92
13.3 Understanding the editor's role	93
13.4 The contributor's covering letter	93
13.5 Understanding the reviewer's role	94
13.6 Understanding the editor's role (continued)	97

14 How to respond to editors and reviewers	99	vii
14.1 Rules of thumb	99	
14.2 <i>How to deal with manuscript rejection</i>	99	
14.3 How to deal with “conditional acceptance” or “revise and resubmit”	101	
15 A process for preparing a manuscript	109	
15.1 Initial preparation steps	109	
15.2 Editing procedures	110	
15.3 A pre-review checklist	113	
Section 4: Developing your writing and publication skills further	115	
16 Skill-development strategies for groups and individuals	117	
16.1 Journal clubs	117	
16.2 Writing groups	118	
16.3 <i>Selecting feedback strategies for different purposes</i>	118	
16.4 Becoming a reviewer	120	
16.5 Training for responding to reviewers	121	
17 Developing discipline-specific English skills	123	
17.1 Introduction	123	
17.2 Error types and editor expectations of language use	123	
17.3 Strategic (and acceptable!) language re-use: sentence templates	125	
17.4 More about noun phrases	128	
17.5 Concordancing: a tool for developing your discipline-specific English	129	
17.6 Using the English articles (a/an, the) appropriately in science writing	133	
17.7 Using “which” and “that”	136	
18 Writing funding proposals	139	
18.1 Introduction	139	
18.2 A process for preparing and submitting a funding proposal	140	
18.3 Easy mistakes to make	143	
Section 5: Provided example articles	145	
19 PEA1: Kaiser et al. (2003)	147	
20 PEA2: Britton-Simmons and Abbott (2008)	159	
21 PEA3: Ganci et al. (2012)	171	
Answer pages	185	
Appendix: Measures of journal impact and quality	213	
A.1 Journal impact	213	
A.2 Using indices of journal quality	214	
References	217	
Index	219
