Introduction	1
Part I: Introducing Behavioral Economics: The Science of Making Real-World Choices	7
Chapter 1: Decoding Behavioral Economics	9
Chapter 2: Getting Real about Assumptions	19
Chapter 3: Neuroeconomics: Exploring the Brain for Economic Analysis	41
Chapter 4: Why Incentives and Markets Matter, but Money Isn't Everything.....	65
Part II: Understanding Choice	89
Chapter 5: Exploring the Limits to Free Choice.....	91
Chapter 6: Quick and Simple Heuristics and Real-World Decision Making.....	107
Chapter 7: How the Framing of Choices Affects Decision Making.....	131
Chapter 8: How Norms, Peers, History, and Culture Influence Choice.....	153
Chapter 9: Why Gender, Children, and Age Matter for Economic Analysis.....	167
Part III: Growing the Economic Pie: The Economic Importance of Ethics, Well-Being, and Culture	181
Chapter 10: Why Smart People Pay Taxes, Recycle, and Even Break the Law	183
Chapter 11: Labor Supply in the Real World.....	197
Chapter 12: The Black Box of the Firm: Human Relationships and Productivity.....	215
Chapter 13: The Good Economy: How Ethical Behavior Can Grow the Economy	229
Chapter 14: Why Institutions Matter.....	243
Part IV: When Bubbles and Busts and Inefficiencies Are Possible: Some Behavioral Insights into the Strange World of Economic Reality	257
Chapter 15: Deciphering Behavioral Finance.....	259
Chapter 16: Looking into Recessions and Depressions	275
Chapter 17: The Art and Science of Happiness: Can You Be Happy without More Money?	291

<i>Part V: The Part of Tens</i>	309
Chapter 18: Ten (Or So) Key Public Policy Implications of Behavioral Economics	311
Chapter 19: Ten (Or So) Experiments in Behavioral Economics	321
Chapter 20: Ten Decision-Making Lessons from Behavioral Economics	333

What You're Not to Read	2
Foolish Assumptions	3
How This Book Is Organized	3
Part I: Introducing Behavioral Economics: The Science of Making Real-World Choices	4
Part II: Understanding Choice	4
Part III: Growing the Economic Pie: The Economic Importance of Ethics, Well-Being, and Culture	4
Part IV: When Bubbles and Busts and Inefficiencies Are Possible: Some Behavioral Insights into the Strange World of Economic Reality	5
Part V: The Part of Tens	5
Icons Used in This Book	6
Where to Go from Here	6

<i>Part I: Introducing Behavioral Economics: The Science of Making Real-World Choices</i>	7
--	----------

Chapter 1: Decoding Behavioral Economics	9
Making Wise Assumptions	9
Why reality matters	10
Why incentives matter — even in behavioral economics	10
Making Sense of Choice	11
Maximizing versus satisficing	11
The effect of emotions	12
The avoidance of loss	12
How options are framed	12
Paternalism versus free choice	13
The role of social context in decision making	14
Relative positioning	14
Growing the Economic Pie	15
Deciphering Bubbles and Busts	15
Inefficient markets and investment behavior	16
Emotions, intuition, animal spirits, and business cycles	16
Understanding Happiness: Money Isn't Everything	17

Chapter 2: Getting Real about Assumptions	19
Defining an Economic Model.....	20
Explaining economic phenomena.....	21
Making simplifying assumptions.....	21
Discovering the irrelevance of facts.....	22
Understanding the role of math in model building	23
Considering cause and effect	26
Watching out for spurious correlations.....	26
Contemplating Conventional Economic Assumptions and Real-World Alternatives	27
Conventional assumption #1: People’s preferences are stable and consistent	27
Conventional assumption #2: People are solitary decision makers	28
Conventional assumption #3: How people form preferences doesn’t matter	28
Conventional assumption #4: People have the same preferences	29
Conventional assumption #5: People are all maximizers	30
Conventional assumption #6: People have perfect knowledge.....	32
Conventional assumption #7: People have unbounded computational capabilities	33
Conventional assumption #8: People have willpower	34
Conventional assumption #9: People are capable of acting upon their preferences.....	35
Understanding Rational Economic Behavior	36
You can do no wrong: Errors and biases in decision making.....	37
Selfishness and the smart society	38
Getting to Know the Behavioral Economics Actor.....	39
 Chapter 3: Neuroeconomics: Exploring the Brain for Economic Analysis.	 41
Where Neuroeconomics Fits in the Behavioral Economics Perspective	43
The Brain and Economics.....	45
The evolution of the human brain.....	45
The division of labor in the human brain	48
The Emotional Brain	49
Descartes’ error: The somatic marker hypothesis.....	49
Phineas Gage and the social and emotional side of rational decision making.....	50
How Emotions Affect Decision Making	53
Fear and decision making	53
Happiness and decision making	54
The Limits of the Human Brain and Homo Economicus	54
The brain is not a calculating machine.....	55
The brain is a scarce resource.....	55

What Brain Sciences Confirm for the Behavioral Economist.....	57
People prefer the present to the future.....	57
People's aversion to loss affects their decision making.....	58
What people feel isn't always what they experience	58
People care about keeping up with — and beating — the Joneses.....	60
People's brains evolve over their lifetimes	61
People value fairness.....	62
People like to trust and be trusted.....	63

Chapter 4: Why Incentives and Markets Matter, but Money Isn't Everything. 65

The Role of Economic Incentives for Economic Behavior	66
Why money is all that matters in conventional economics	67
Opportunity costs for <i>Homo economicus</i>	69
Decision Making and Opportunity Costs.....	71
Using up your mind: Bounded rationality	71
Considering costs other than money: Psychological costs	72
Reducing opportunity costs in the real world: Satisficing behavior.....	73
Weighing the opportunity cost of altruism	75
Supply and Demand and Behavioral Economics	75
Introducing the bandwagon effect.....	76
Investigating the snob effect	77
Interjecting morals and ethics	78
Introducing sociology to supply and demand	79
Economic Psychology: How Thoughts and Feelings Impact Decisions.....	84
Loss aversion: How framing, ownership, and control affect economic behavior.....	85
How the fear of uncertainty influences decisions	85
The warm glow: Why people sacrifice money for fairness or justice.....	87
Forfeiting money for status	88

Part II: Understanding Choice 89

Chapter 5: Exploring the Limits to Free Choice. 91

Free Choice in Economic Decision Making	92
What conventional economics says.....	92
What behavioral economics says	93
Revealed Preferences: When Choices Reveal Your Inner Self	94
The narrative about preferences	95
False preferences versus true preferences	96
The limits of revealed preferences and free choice	98

The Illusion of Free Choice.....	99
Advertising and preference distortions.....	99
Self-control and free choice.....	101
Defaults as a determinant of choice.....	102
Herding, the bandwagon effect, and free choice:	
Are followers irrational?.....	103
Constraining Choice versus Freedom of Choice.....	104
Information.....	104
Education.....	105
Consumer rights.....	105

Chapter 6: Quick and Simple Heuristics and Real-World Decision Making 107

A Bird's-Eye View of Smart Decision Making	
in Conventional Economics.....	108
Decision-making norms in conventional economics:	
The human calculating machine.....	109
The optimizing decision-making machine	
in conventional economics.....	110
Core conventional benchmarks for rational choice:	
To dream an impossible dream.....	111
The limits of conventional rationality.....	112
Rethinking Bounded Rationality and the Limits of the Mind.....	113
Bounded rationality and satisficing: Rationality within reason.....	114
The two blades of the decision-making scissors:	
Ecological rationality.....	114
Prospect Theory: Describing Average Decision-Making Behavior.....	116
Introducing prospect theory: Real-world decision making	
under uncertainty.....	117
Thinking about prospect theory and conventional norms.....	118
Exploring emotions as a hot bed of irrationality.....	118
The fundamentals of prospect theory: Understanding the	
value function.....	119
Unveiling Some Implications of Loss Aversion.....	122
Loss aversion and the certainty effect.....	122
Risk seeking in losses.....	123
The endowment effect: Explaining attachment to possessions.....	124
Uncovering Errors and Biases in Decision Making.....	125
Overconfidence.....	125
Herd behavior.....	125
Confirmation bias.....	126
Anchoring.....	126
Generalizing.....	127
Less Is Best in Decision-Making: Fast and Frugal Heuristics.....	127
Exploring the superiority of heuristics.....	128
Understanding human rationality: New benchmarks	
built on human capabilities.....	130

Chapter 7: How the Framing of Choices Affects Decision Making	131
The Framing Effect	131
Framing and the economic schools of thought	132
The effect of framing on preferences and choices	133
Appreciating the objective unimportance of frames:	
The errors and biases approach	133
Understanding frames as heuristics.....	134
Framing in Pictures: The Possibility of Cognitive Illusions.....	134
Framing the Mona Lisa.....	135
Distorting the line illusion	135
Framing faces	136
Framing automobiles: Surface beauty versus substance	137
The letter illusion.....	138
We're All Framed: Framing and Decision Making.....	139
Framing and loss aversion: The classic	
Asian disease experiment	140
When money isn't everything	142
Saving a penny to lose a bundle: Framing prices	
through relative positioning.....	143
Frames as Defaults: How Anchors Sway the Course	
of Decision Making.....	144
Changing default options and choices	144
Revisiting choice architecture	146
Framing is important, but so are income and prices	147
The Inescapable Frame and Rational Decision Making	148
Understanding frames as an information-generating machine.....	148
Repairing frames and rational decision making	148
Introducing product labels into the framing arsenal	149
Market Failure and the Framing Effect.....	149
Chapter 8: How Norms, Peers, History, and Culture Influence Choice	153
Making Decisions in a Bubble, the Conventional Economics Way	154
Making decisions as if other people don't matter	155
Making decisions as if history doesn't matter	155
Making decisions as if society doesn't matter	157
Introducing Social Norms to Decision Making.....	157
Looking at some norms.....	158
Identifying how trust impacts economic development	161
Seeing how discriminating norms can lead to	
a slow economy.....	162
Studying the role of education in the formation of norms	
and the shaping of preferences.....	163
The carrot and the stick: Exploring the enforcement	
of social norms	163

Peer Pressure: Seeing How Peers Affect Decision Making	164
How History and Culture Affect Choice.....	165
Rooting choice in history.....	165
Culture club: How culture affects the formation of preferences and choices	166

Chapter 9: Why Gender, Children, and Age Matter for Economic Analysis. 167

How Gender Affects Choice.....	167
Not tonight, honey: Conventional choice theory	168
Household bargaining power and women's rights	169
Understanding household choices when women have a voice.....	171
Exploring population growth when women's preferences count	172
Understanding why women go on welfare even if they want to work.....	174
Identifying why women are more risk averse than men.....	175
Exploring women's altruistic preferences	176
Examining labor market discrimination.....	177
The Role of Children in Economic Decision Making	179
News Flash! Preferences Change with Age.....	179

Part III: Growing the Economic Pie: The Economic Importance of Ethics, Well-Being, and Culture..... 181

Chapter 10: Why Smart People Pay Taxes, Recycle, and Even Break the Law 183

Why Most People Pay Taxes: The Big Stick versus the Warm Glows...	183
How the big stick induces tax payments	184
The niceness effect	185
Social norms and taxes	186
A sense of fairness and tax compliance	186
Different Perspectives on Reducing Pollution	187
Exploring the economics of pollution control	187
Thinking about the green corporation.....	188
Understanding the links between green consumption and green production	189
Studying social norms and the greening of the world	189
Understanding the mix of economic and non-economic variables in determining green production	190
Crime and Punishment	190
The calculating criminal	191
Addiction and criminal behavior	193
The role of identity and social networks in determining criminal behavior	193
Why most people don't commit crimes even when crime pays	194

Chapter 11: Labor Supply in the Real World	197
An Introduction to Labor Supply.....	197
Decoding the reality of labor supply.....	197
Mapping out changes to labor supply.....	198
Uncovering what people do when they aren't working.....	201
Labor Supply When People Prefer Leisure: The Conventional	
Economics Perspective.....	202
The income-leisure trade-off: Bribing people to work	203
Why economics predicts that more income reduces	
labor supply: Work as an inferior good.....	206
How to increase the labor supply when people dislike work:	
Using the big stick.....	207
How Economic Necessity, Norms, and Love of Work	
Determine Labor Supply	207
How target income affects labor supply.....	208
Why increasing income doesn't reduce labor supply.....	209
Labor supply when market employment is a superior good	210
Social welfare programs and labor supply.....	210
Norms, anchors, default retirement age, and labor supply	213
Chapter 12: The Black Box of the Firm:	
Human Relationships and Productivity	215
Survival of the Fittest, the Firm, and Contemporary	
Economic Theory.....	216
Doing the best we can: From slave to free labor	
to the big boss	216
Determining industrial relations through market forces.....	217
Maximizing profits and minimizing costs	
in the calculating firm.....	218
Understanding why the behavioral firm wins out	221
When People Don't Behave According to Conventional Economics:	
X-inefficiency	221
Types of x-inefficiency.....	221
When product markets aren't competitive enough	222
Increasing inefficiency, managerial slack,	
and the art of lobbying	223
Preferences, managerial slack, and x-inefficiency	223
How low wages produce x-inefficiency and high wages	
contribute to x-efficiency	224
Efficiency wages: Connecting wages, effort, and productivity....	226
Exploring fairness and gift exchange inside the firm	227
Understanding the relationship between conventional,	
x-efficiency, and efficiency wage theories.....	227
Chapter 13: The Good Economy: How Ethical Behavior	
Can Grow the Economy	229
Ethical Behavior: An Introduction.....	229
The Conventional Perspective on Ethical Behavior and the Economy....	231

- The Good Company..... 233
- The Compatibility between Ethics and Profits 236
 - Examining x-efficiency and the socially responsible firm..... 236
 - How ethical consumers sustain and grow ethical production 239

Chapter 14: Why Institutions Matter 243

- What Behavioral Economics Has to Say about Institutions..... 244
 - The decision-making context 245
 - The theory of the firm 245
- The New Institutional Economics..... 246
- Institutions and Wealth Creation..... 250
 - Governance..... 251
 - Culture..... 255

Part IV: When Bubbles and Busts and Inefficiencies Are Possible: Some Behavioral Insights into the Strange World of Economic Reality 257

Chapter 15: Deciphering Behavioral Finance 259

- What Behavioral Finance Is..... 259
- The Efficient Asset Market Models and Their Limits..... 260
 - The efficient market hypothesis 261
 - The random walk hypothesis 262
- Irrational Exuberance: Smells Like Animal Spirit 264
- Bubbles and Busts: A Preface to Inefficient Markets 266
 - The Dutch tulip bulb bubble 266
 - Contemporary bubbles: Evidence of inefficient markets 268
 - The causes of financial bubbles..... 271

Chapter 16: Looking into Recessions and Depressions 275

- Introducing Psychology in Business Cycle Narratives 276
 - Grasping the meaning of macroeconomics, recessions, and depressions 276
 - Understanding animal spirits 279
 - Deconstructing business cycles: The tango between psychology and “real” factors 284
- Economic Psychology and Government Policy..... 285
- How Fairness, Reciprocity, and Punishment Influence Wages, Effort, and the Business Cycle..... 286
 - How efficiency wages cause sticky wages and involuntary unemployment 287
 - Why businesspeople don’t like to cut wages over the business cycle..... 287
 - Insights on money illusion: Tricking workers into cutting their wages..... 288

Why high wages don't necessarily cause higher unemployment	289
How unemployment undermines confidence and destroys productivity	289
Chapter 17: The Art and Science of Happiness: Can You Be Happy without More Money?	291
Happiness and Conventional Economics	291
How happiness is measured.....	292
The art of being happy.....	292
Why conventional economics assumes that money makes you happy	294
Diminishing returns for income and wealth.....	295
What increasing per-capita income ignores.....	295
Happiness and Behavioral Economics.....	296
What makes us happy: The individual versus the expert	297
Why money alone can't make you happy (at least if you're well off)	298
The new empirics of the happiness debate.....	301
What money can't buy (at least not easily).....	303
How Government Policy Affects Happiness.....	306

***Part V: The Part of Tens*** 309

Chapter 18: Ten (Or So) Key Public Policy Implications of Behavioral Economics	311
Consumer Rights and Protection and the Framing of Information	312
Product Labeling and Consumer Choice	312
Financial Markets and Information Deceit	313
Saving for the Future.....	313
Organ Donations.....	314
Weakness of Will and Self-Control.....	315
Labor Market Regulation and Economic Efficiency	316
Big Brother and Behavioral Economics: Does Government Know Best?	316
Crime, Punishment, and Identity.....	317
Population Growth and the Empowerment of Women.....	318
Tax Compliance: The Carrot Is as Important as the Stick.....	319
Trust and Economic Efficiency in an Imperfect World	319
Chapter 19: Ten (Or So) Experiments in Behavioral Economics . . .	321
The Ultimatum Game: Fairness and Punishment	321
The Dictator Game: Being Fair Because It's the Right Thing to Do.....	323
Fair Wage Experiments: Adventures into Labor Market Dynamics	324
Public Goods Games: Sacrificing for the Public Good	325
The Dark Side of Humanity: It Isn't All about Lovingkindness	327

The Endowment Effect: How Ownership Affects Behavior	327
Market Games: Markets Work Even When They're "Irrational"	329
Bubble Experiments: How Smart People Produce Economic Bubbles.....	330
Experiments on Bounded Rationality	331

**Chapter 20: Ten Decision-Making Lessons
from Behavioral Economics 333**

Be Wary of Overconfidence.....	333
You Can't Believe Everything You Read.....	334
Avoid Situations That Require More Self-Control Than You Can Muster.....	335
Don't Blindly Follow the Herd.....	336
You Can't Trust Everyone	336
Invest Simply.....	337
Pay Attention to Sample Size	337
Read the Fine Print	338
Being Nice Pays.....	338
Educate Yourself.....	339

***Index* 341**
