| Foreword from the Series Editor <i>by Jim Gray</i> | v                  |
| Foreword <i>by Stephen G. Eick</i>                 | vii                |
| Color Plates                                       | following page 194 |
| • Introduction                                     | 1                  |
| <i>Usama Fayyad and Georges G. Grinstein</i>       |                    |

## Part II **Data Visualization**

|   |     |
|---|-----|
| • 1 Introduction to Data Visualization                        | 21  |
| <i>Georges G. Grinstein and Matthew O. Ward</i>               |     |
| 2 A Survey of Visualizations for High-Dimensional Data Mining | 47  |
| <i>Patrick E. Hoffman and Georges G. Grinstein</i>            |     |
| • 3 Evaluation of Visualization Systems                       | 83  |
| <i>Ronald M. Pickett and Georges G. Grinstein</i>             |     |
| 4 The Data Visualization Environment                          | 87  |
| <i>Mike Foster and Alexander G. Gee</i>                       |     |
| 5 Visualizing Massive Multivariate Time-Series Data           | 95  |
| <i>Dennis DeCoste</i>   |     |
| 6 Portable Document Indexes                                   | 99  |
| <i>John Light</i>   |     |
| • 7 Character-Based Data Visualization for Data Mining        | 103 |
| <i>Michel Pilote and Madeleine Fillion</i>                    |     |

**Part III KDD and Model Visualization**

- |           |   |     |
|-----------|---|-----|
| <b>8</b>  | Visualization in the Knowledge Discovery Process<br><i>Ken Collier, Muralidhar Medidi, and Donald Sautter</i>   | 121 |
| <b>9</b>  | What Can Visualization Do for Data Mining?<br><i>Andreas Wierse</i>   | 123 |
| <b>10</b> | Multidimensional Information Visualizations<br>for Data Mining<br><i>Patrick E. Hoffman and Georges G. Grinstein</i>  | 125 |
| <b>11</b> | Benchmark Development for the Evaluation<br>of Visualization for Data Mining<br><i>Georges G. Grinstein, Patrick E. Hoffman,<br/>Ronald M. Pickett, and Sharon J. Laskowski</i> | 129 |
| <b>12</b> | Data Visualization for Decision Support Activities<br><i>Henry S. Gertzman</i>  | 177 |
| <b>13</b> | A Visualization-Driven Approach for Strategic<br>Knowledge Discovery<br><i>David Law Yuh Foong</i>  | 181 |
| <b>14</b> | A Visual Metaphor for Knowledge Discovery: An Integrated<br>Approach to Visualizing the Task, Data, and Results<br><i>Peter Docherty and Allan Beck</i>                         | 191 |
| <b>15</b> | Visualizing Data Mining Models<br><i>Kurt Thearling, Barry Becker, Dennis DeCoste,<br/>William D. Mawby, Michel Pilote, and Dan Sommerfield</i>                                 | 205 |
| <b>16</b> | Model Visualization<br><i>Wesley Johnston</i>   | 223 |
| <b>17</b> | Issues in Time-Series and Categorical Data Exploration<br><i>Nancy Grady, Raymond Flanery, Jr., June Donato,<br/>and Jack Schryver</i>  | 229 |
| <b>18</b> | Visualizing the Simple Bayesian Classifier<br><i>Barry Becker, Ron Kohavi, and Dan Sommerfield</i>  | 237 |

- 19 Visualizing Data Mining Results with Domain Generalization Graphs** 251  
*Robert J. Hilderman, Liangchun Li, and Howard J. Hamilton*
- 20 An Adaptive Interface Approach for Real-Time Data Exploration** 271  
*Martin R. Stytz and Sheila B. Banks*

### Part III Integrating KDD and Visualization in Exploration Environments

- 21 Discovering New Relationships: A Brief Overview of Data Mining and Knowledge Discovery** 277  
*Philip J. Rhodes*
- 22 A Taxonomy for Integrating Data Mining and Data Visualization** 291  
*Thomas H. Hinke and Timothy S. Newman*
- 23 Integrating Data Mining and Visualization Processes** 299  
*Nancy Grady, Loretta Auvil, Allan Beck, Peter R. Bono, and Claudio J. Meneses*
- 24 Multidimensional Education: Visual and Algorithmic Data Mining Domains and Symbiosis** 305  
*Ted W. Mihalisin*
- 25 Robust Beta Mining** 309  
*R. Douglas Martin and Tim Simin*
- 26 Use of the Manifold Concept in Model Visualization** 313  
*William D. Mawby*
- 27 Data Warfare and Multidimensional Education** 315  
*Ted W. Mihalisin*
- 28 Document Mining and Visualization** 345  
*Alexander G. Gee and John Light*
- 29 Research Issues in the Analysis and Visualization of Massive Data Sets** 355  
*Claudio J. Meneses and Georges G. Grinstein*
