<i>List of Figures</i>	viii
<i>Preface</i>	xi
1. Databases in Historical Research	1
1.1 The Processes of Historical Research	2
1.2 Databases in Historical Research	5
1.3 Types of Historical Databases	10
Case Study A: Investigating Regional Economies: The Gloucester Portbooks Database (Peter Wakelin and David Hussey)	14
2. Database Concepts and Terminology	22
2.1 Database Concepts	22
2.2 Evolution of Database Systems	25
2.3 Features of Database Systems	33
2.4 Conclusion	39
Case Study B: The Register of Music in London Newspapers, 1660–1800 (Catherine Harbor)	40
3. Database Management Software	47
3.1 Flat File Managers	49
3.2 Database Management Systems	50
3.3 Textual Information Management Systems	53
3.4 Integrated Systems	61
3.5 Multimedia and Hypermedia	62
3.6 Conclusion	67
Case Study C: Hypermedia Database Management Systems: Microcosm as a Research Tool (Frank Colson)	69
4. The Database Project Life-Cycle	73
4.1 Project Management	73
4.2 Project Planning	76
4.3 Source Analysis	80
4.4 Database Design	82

4.5	Database Implementation	84
4.6	Data Entry and Validation	85
4.7	Database Administration	94
4.8	Conclusion	97
	Case Study D: Creating a Machine-Readable Version of the 1881 Census of England and Wales (Matthew Woollard)	98
5.	<i>Database Design and Implementation</i>	102
5.1	Approaches to Database Design	102
5.2	Entity-Relationship Modelling	103
5.3	Relational Data Analysis	119
5.4	Creating a Database	130
5.5	Conclusion	137
	Case Study E: Indicators of Regional Economic Disparity: The Geography of Economic Distress in Britain before 1914 (David Gilbert and Humphrey Southall)	140
6.	<i>Information Retrieval</i>	147
6.1	Query-by-Example	147
6.2	SQL	153
6.3	Querying a Textbase	166
6.4	Reports	176
6.5	Conclusion	184
	Case Study F: Analysing Social Structure and Political Behaviour using Poll and Rate Books: The Westminster Historical Database (Edmund Green)	185
7.	<i>Source-Oriented Database Systems</i>	188
7.1	Source-Oriented Data Processing	190
7.2	Multimedia and Hypermedia Databases	198
7.3	Object-Oriented Databases	203
7.4	Artificial Intelligence, Expert Systems and Knowledge Bases	208
7.5	Conclusion	217
	Case Study G: Community Reconstruction and the Viana Do Castelo Database (Jean Colson)	218
8.	<i>Coding and Record Linkage</i>	222
8.1	Coding	222

8.2 Record Linkage	234
8.3 Conclusion	252
Case Study H: Researching the Population History of England (Kevin Schürer)	253
9. <i>Conclusion: Databases and the Future of Historical Computing</i>	257
<i>Notes and References</i>	261
<i>Glossary</i>	283
<i>Bibliography</i>	297
<i>Index</i>	320
