1	Introduction	1
1.1	Introduction	1
1.2	Capital Budgeting	3
1.3	Capital Budgeting and Strategic Decision Making	4
1.4	Corporate Governance and Financial Management	5
1.5	Capital Budgeting and Corporate Governance	5
1.6	Capital Budgeting, Regulation, Capital Markets and Accounting Practices	6
1.6.1	Capital Budgeting and Regulation	6
1.6.2	Capital Budgeting and Capital Markets	7
1.6.3	Capital Budgeting and Accounting Practices	7
1.7	Agency Costs	8
1.8	Limitations of Existing Capital Budgeting Literature and Its Practices	10
1.9	Objective of the Research	10
1.10	Research Design and Methodology	11
1.11	Justification and Significance of the Study	12
1.12	Contribution to Knowledge: Capital Market Research Approach to Capital Budgeting	13
1.13	Outline of the Research	13
2	Literature Review	15
2.1	Introduction	15
2.2	Capital Budgeting	15
2.2.1	Significance of Capital Budgeting in Corporate Financial Management	18
2.3	Capital Budgeting Methods and Models	20
2.3.1	Accounting Rate of Return	21
2.3.2	Payback Period	21
2.3.3	Internal Rate of Return	22
2.3.4	Profitability Index or Benefit-Cost Ratio	22
2.3.5	Net Present Value	23

2.4	Corporate Governance	23
2.5	Relationship Between Capital Budgeting and Corporate Governance	26
2.6	Different Theories to Conceptualise and Incorporate Capital Budgeting and Corporate Governance in Strategic Management Framework	27
	2.6.1 Stakeholder Theory	27
	2.6.2 Stewardship Theory	30
	2.6.3 Resource Dependent Theory	31
	2.6.4 Agency Theory and Agency Cost	31
2.7	Capital Budgeting, Corporate Governance and Agency Cost	33
2.8	Capital Budgeting, Accounting Practices, Capital Markets and Regulations	35
	2.8.1 Capital Budgeting and Accounting Practices	35
	2.8.2 Capital Budgeting, and Capital Markets and Regulations	37
2.9	Limitations of Existing Literature and Motivation for This Study	37
2.10	Conclusion	43
3	Conceptual Framework for Investment Appraisal, and Capital Markets Research in Accounting and the Methodology	45
3.1	Introduction	45
3.2	Conceptual Framework	45
3.3	Decision-Model Approach	49
3.4	Research Methods	50
	3.4.1 Experimental Research	50
	3.4.2 Exploratory Research	50
	3.4.3 Explanatory Research	50
	3.4.4 Descriptive Research	50
	3.4.5 Methods of Case Study Research	51
	3.4.6 Adopted Method in this Study	51
3.5	Investment Appraisal: Discounted Cash Flow Analysis	52
	3.5.1 Discounted Cash Flow	52
	3.5.2 Definition of Discounted Cash Flow (DCF)	53
3.6	Accounting Information and Decision Making	53
	3.6.1 Choice of Discount Rate	54
	3.6.2 The Cost of Equity	57
	3.6.3 Decision Criteria	58
3.7	Computer Program for DCF Analysis	60
3.8	Data Sources for DCF Analysis	60
3.9	Optimisation Methods	61
	3.9.1 Introduction	61
	3.9.2 Different Optimisation Methods	61
	3.9.3 Choice of Optimisation Modelling Technique Used in the Study	68

3.10	Identification, Conceptualisation and Measurement of Variables, Parameters and Factors in the Model and Framework	71
3.11	Conclusion	73
4	Discounted Cash Flow for Tom.com	75
4.1	Introduction	75
4.2	Risk Management and Corporate Governance	76
4.2.1	Risk Management in Capital Budgeting	78
4.3	Core Ratios	78
4.4	Market Ratios	80
4.5	Disadvantages of Multiples (Ratios)	82
4.6	Cash Flow	82
4.7	Application of Ratios to Tom.com	83
4.7.1	Ratio Results	83
4.7.2	Tom.com Cash Flow	84
4.8	Corporate Governance and Discounted Cash Flow (DCF)	85
4.8.1	Cash Flow Risk as an Investment Appraisal Metric	88
4.8.2	Incorporating Risk in Cash Flow Using Sensitivity Analysis	88
4.8.3	Application to Tom.com	89
4.9	Capital Markets and DCF	92
4.9.1	Application to Tom.com	94
4.9.2	Results and Remarks	94
4.10	Accounting Standards and DCF	94
4.10.1	Application to Tom.com	97
4.10.2	Results and Remarks	98
4.11	Regulatory Environment Consideration and DCF (Hong Kong) ...	98
4.11.1	Accounting, Disclosure and Auditing Regulations	98
4.11.2	Regulation on Market Manipulation	99
4.11.3	Anti-Takeover Regulation	99
4.11.4	Application to Tom.com	100
4.11.5	Results and Remarks	101
4.12	Stakeholder Interest: Summary of Selected Accounting and Finance Metrics	101
4.12.1	Agency Costs	101
4.12.2	Executive Compensation	103
4.12.3	Application to Tom.com	103
4.12.4	Results and Remarks	103
4.13	Corporate Governance, Capital Investments and Real Options ...	104
4.14	Conclusion	105
5	Optimisation Model for World Airways	107
5.1	Introduction	107
5.2	Capital Budgeting, Capital Markets and Optimization Models in the Airline Industry	108
5.3	World Airways Case Study	109

5.4	The Impact of Corporate Governance and Other Capital Market Factors on Investment Appraisal and Optimisation Models	110
5.4.1	Corporate Governance	110
5.4.2	Capital Markets	110
5.4.3	Risk Management in Investment Appraisal	114
5.4.4	Regulatory Consideration and Capital Markets	115
5.4.5	Accounting Standards	116
5.5	MOLP Application to World Airways	117
5.5.1	Defining the Decision Variables	117
5.5.2	The Formulation of the Capital Budgeting Problem: The Levary and Seitz Model	119
5.5.3	Results of the Levary and Seitz Model	125
5.5.4	Modified Base/Levary and Seitz Model	135
5.5.5	Results of the Modified Model with the Agency Costs	142
5.6	Validation and Plausibility of the Model and Results	150
5.6.1	Validation of the Model and the Results	150
5.6.2	Plausibility of Results and Consistency with the Theory	150
5.6.3	General Model Applications	151
5.7	Conclusion	151
5.7.1	Base Model	151
5.7.2	Base Model and Sensitivity Analysis	151
5.7.3	Base Model Modified with Agency Costs	152
5.7.4	Modified Model and Sensitivity Analysis	152
6	Discussion and Implications	155
6.1	Introduction	155
6.2	Use of Cash Flow in Investment Decisions	156
6.3	Research Results: Tom.com	156
6.3.1	Multiple Ratio Results	156
6.3.2	Tom.com Ratio Limitations	157
6.3.3	Cash Flow Results	157
6.3.4	NPV Results	158
6.3.5	Regulatory Environment Consideration and DCF in Hong Kong	159
6.3.6	Corporate Governance and Cash Flow	159
6.3.7	Accounting Practices and Cash Flow	161
6.3.8	Cash Flow and Risk Management	162
6.3.9	Capital Markets and Cash Flow	163
6.3.10	Agency Theory, Stakeholder Theory and Cash Flow	163
6.4	Research Results: World Airways	164
6.4.1	Base Model Results Interpretation	164
6.4.2	World Airways Shadow Prices	165
6.4.3	Reduced Cost (Opportunity Cost)	165
6.4.4	Impact of Debt Equity Ratio on Objective Function: PV	165

6.4.5	Implications for the Theory and Practical Applications	167
6.5	Conclusion	169
7	Summary, Findings and Conclusion	173
7.1	Introduction	173
7.1.1	Investment Appraisal	174
7.2	A New Integrated Framework for Modelling and Analysing Capital Budgeting Issues	175
7.2.1	Corporate Governance and Agency Costs	176
7.2.2	Financial Management	177
7.2.3	Modelling and Integration	177
7.2.4	Accounting Practices	178
7.2.5	Capital Budgeting and Capital Markets Responses	179
7.3	Summary of Findings	179
7.3.1	Discounted Cash Flow	179
7.3.2	Optimisation	180
7.3.3	Implications	180
7.4	Limitations and Future Research	181
7.5	Conclusion	181
Appendix 1	Consolidated Cash Flow Statement	183
Appendix 2	Solutions of the Base Model Before Incorporating Agency Costs (AC = 0)	189
Appendix 3	Solutions of the Base Model Before Incorporating Agency Costs (AC = 0), After Adjusting for Shadow Price #1	193
Appendix 4	Solutions of the Base Model Before Incorporating Agency Costs (AC = 0), After Adjusting For Shadow Price #2	197
Appendix 5	Solutions of the Base Model Before Incorporating Agency Costs (AC = 0), After Adjusting for Shadow Price #3	201
Appendix 6	Solutions of the Base Model Before Incorporating Agency Costs (AC = 0)	205
Appendix 7	Solutions of the Modified Base Model After Incorporating Agency Costs (AC = 1.20), Before Adjusting for Any Shadow Price	209
Appendix 8	Solutions of the Modified Base Model After Incorporating Agency Costs (AC = 1.20), After Adjusting for Shadow Prices #1	213
Appendix 9	Solutions of the Modified Base Model After Incorporating Agency Costs (AC = 1.20), After Adjusting for Shadow Prices #2	217

Appendix 10	Solutions of the Modified Base Model After Incorporating Agency Costs ($AC = 1.20$), After Adjusting for Shadow Prices #3	221
Appendix 11	Tom.com Financial Statements	225
