

Table of contents

Acknowledgements	10
1.0 Introduction	11
1.1 Geographic position and topography	13
1.2 Climate	15
1.3 Geology and soils	23
1.4 Material and methods	27
Maps	27
Field trips	28
Technique of surveying	28
Tabulation of Data	28
Nomenclature	31
Instructions to phytosociologic tables	31
Vegetation maps	33
Herbarium specimens	34
Vegetation transects	34
2.0 Taxonomy	35
2.1 The genus <i>Limonium</i> in Sardinia and Crete	35
2.2 Introduction	35
Short taxonomic history	35
Chromosomal information	35
Breeding system	35
Requirements on substrate	36
2.3 The Sardinian species of <i>Limonium</i>	36
Paleogeographic history	36
Distribution of the species	38
Key to the species of <i>Limonium</i> in Sardinia	40
Description of the species	44
New taxa	66
Discussion	70
The <i>Limonium articulatum</i> -group	71
The <i>Limonium acutifolium</i> -group	72
The <i>Limonium retrameum</i> -group	74
The <i>Limonium virgatum</i> -group	75
2.4. The Cretan species of <i>Limonium</i> .	78
Introduction	78
Key to the species of <i>Limonium</i> in Crete and adjacent islets	79
Description of the species	81
New taxa	91
Summary on the Cretan species of <i>Limonium</i>	98
3.0 Vegetation on coastal rocks	99
3.1 Crithmo-Limonietaea	99
General description	99
Habitat and ecological requirements	99
Life strategies	100
Synsystematics: Historic and present developments	100
Synsystematic structure of the Crithmo-Limonietaea	101
Preliminary list of plant communities in the class Crithmo-Limonietaea of the eastern and central Mediterranean	101
Geological and topographical differences between Sardinia and Crete, restricted to reefs and cliffs	106

	The class Crithmo-Limonietea in Crete and Sardinia	106
3.2	Results of the investigation on the Crithmo-Limonietea in Crete	110
	Anthemido-Limonietum graeci	112
	Crithmo-Limonietum virgati	114
	Limonio graeci-Arthrocnemetum macrostachyi	116
	Salsolo aegaeae-Limonietum ocymifolii	118
3.3	Results of the investigation of the Crithmo-Limonietea in Sardinia	120
	Crithmo-Limonietum sulcitani	123
	Crithmo-Limonietum retiramei	124
	Crithmo-Limonietum tigliani	125
	Crithmo-Limonietum tenuifolii	126
	Crithmo-Limonietum acutifolii	127
	Crithmo-Limonietum bosani	128
	Crithmo-Spergularienion macrorhizae	129
	Crithmo-Limonietum viniolae	129
	Crithmo-Limonietum contortiramei	130
	Crithmo-Limonietum articulati	131
	Crithmo-Limonietum cuniculari	133
	Crithmo-Limonietum gallurensae	134
	The community of <i>Limonium coralliforme</i>	135
	Further communities marginally recorded	135
3.4	Summary on the Crithmo-Limonietea in Sardinia and Crete	135
4.0	Coastal vegetation on sandy substrates	137
4.1	Introduction	137
4.1.1	Origin of dunes	137
4.1.2	Main dune types	138
4.1.3	Dune sequence	139
4.1.4	Major types of dune systems	140
	Spit dunes	140
	Foreland dunes	141
	Bay dune system	141
	Cliff top dune system	141
	Hindshore dune system	142
4.2	<i>Cakiletea maritimae</i>	143
4.2.1	General description	143
	Distribution	143
	Ecological requirements	143
	Geological and topographical differences regarding drift lines in Sardinia and Crete	143
	Synsystematics	144
4.2.2	Results of the <i>Cakiletea maritimae</i> in Crete	144
	Euphorbietalia and Euphorbion peplis	144
	Salsolo (kali)-Cakiletum aegypticae	145
	Phytosociological table - <i>Cakiletea maritimae</i> in Crete	146
4.2.3	Results of the <i>Cakiletea maritimae</i> in Sardinia	148
	Phytosociological table - <i>Cakiletea maritimae</i> in Sardinia	149
	Euphorbietalia and Euphorbion peplis	150
	Salsolo (kali)-Cakiletum aegypticae	150
	Salsolo-Cakiletum aegypticae <i>Tamarix africana</i> -variant	151
	Thero-Suaedetalia and Thero-Suaedion	152
	Cakilo-Atriplicetum tornabenei	152
	Cakilo-Atriplicetum tornabenei salsoletosum sodae	153
	Suaedo maritimae-Salsoletum sodae	154

4.2.4	Discussion and summary of the <i>Cakiletea maritima</i> in Crete and Sardinia	155
4.3	Ammophiletea	156
4.3.1	General description	156
	Distribution of the Ammophiletea	156
	Synsystematics	156
	Synsystematic structure of the Ammophiletea	157
4.3.2	Introduction to the basic units within the Ammophiletalia	158
	<i>Agropyro juncei</i> - <i>Sporoboletum pungentis</i>	158
	<i>Cypero mucronati</i> - <i>Agropyretum juncei</i>	160
	<i>Medicagini marinae</i> - <i>Ammophiletum australis</i>	160
4.3.3	Results of the Ammophiletalia in Crete	161
	<i>Agropyro juncei</i> - <i>Sporoboletum pungentis</i>	162
	<i>Cypero mucronati</i> - <i>Agropyretum juncei</i>	162
	<i>Cypero-Agropyretum juncei centaureetosum pumilionis</i>	164
	<i>Sileno succulentae</i> - <i>Elymetum farcti</i>	165
	<i>Medicagini marinae</i> - <i>Ammophiletum australis</i>	165
	<i>Medicagini-Ammophiletum australis centaureetosum pumilionis</i>	166
	<i>Medicagini marinae</i> - <i>Triplachnion nitentis</i>	166
	<i>Limonio graeci</i> - <i>Triplachnium nitentis</i>	168
	<i>Sileno pinetori</i> - <i>Triplachnium nitentis</i>	169
4.3.4	The spectrum of vegetation based on <i>Centaurea spinosa</i>	169
	Phytosociological table - <i>Centaurea spinosa</i> communities	171
	<i>Cypero-Agropyretum juncei centaureetosum spinosae</i>	172
	<i>Medicagini-Ammophiletum australis centaureetosum spinosae</i>	172
	<i>Coridothymo capitati</i> - <i>Centaureetum spinosae</i>	173
	<i>Centaureo spinosae-Limonietum sinuati</i>	174
4.3.5	Results of the Ammophiletalia in Sardinia	175
	<i>Agropyro juncei</i> - <i>Sporoboletum pungentis</i>	175
	<i>Atriplici halimi</i> - <i>Agropyretum juncei</i>	176
	<i>Cypero mucronati</i> - <i>Agropyretum juncei</i>	177
	<i>Medicagini marinae</i> - <i>Ammophiletum arundinaceae</i>	179
	Spatial vegetation sequence of the beach at Porto Pino	182
	Spatial vegetation sequence of the beach at S. Teodoro	183
4.3.6	Discussion and summary of the Ammophiletalia	184
4.3.7	<i>Helichryso</i> - <i>Crucianelletalia</i>	186
	Introduction	186
	<i>Medicagini marinae</i> - <i>Ammophiletum arundinaceae</i>	187
	<i>Medicagini-Ammophiletum arundinaceae helichrysetosum</i>	188
	<i>Medicagini-Ammophiletum arundinaceae armerietosum</i>	188
	<i>Crucianelletum maritima</i>	188
	<i>Scrophulario ramosissimae</i> - <i>Crucianelletum maritima</i>	190
	<i>Pycnocomo rutifolii</i> - <i>Crucianelletum maritima</i>	192
	<i>Crucianello-Armerietum pungentis</i>	193
	Spatial vegetation sequence of the beach at Valledoria	195
	<i>Andryalo</i> - <i>Helichrysetum italicum</i>	196
	Spatial vegetation sequence of the sea cliff at Cala Piscina	198
	Spatial vegetation sequence of the sea cliff at Porto Leccio	199
	<i>Helichryso-Ephedretum distachyae</i>	200
4.3.8	Discussion and summary of the <i>Helichryso</i> - <i>Crucianelletalia</i>	201

5.0	Synsystematic summary of the syntaxa discussed	205
6.0	Human influence on coastal environment and its consequences on vegetation	208
6.1	Introduction	208
6.2	Damage caused by neophytes on the natural vegetation	209
6.3	Damage through afforestation of large and desert-like sand dune areas	209
6.4	Damage on coastal wetland and salt marsh areas	210
6.5	Damage on vegetation as a consequence of tourism	212
7.0	Vegetation maps	217
7.1	Introduction	217
8.0	Summary	242
9.0	Appendix	244
9.1	Locations of the phytosociologic relevés	244
10.0	Bibliography	255
