Part I The Natural and the Social	
1 Doing what comes naturally: four metanarratives on what metaphors are for <i>Philip Mirowski</i>	3
2 So what's an economic metaphor? <i>Arjo Klamer and Thomas C. Leonard</i>	20
Part II Physical metaphors and mathematical formalization	
3 Newton and the social sciences, with special reference to economics, or, the case of the missing paradigm <i>I. Bernard Cohen</i>	55
4 From virtual velocities to economic action: the very slow arrivals of linear programming and locational equilibrium <i>Ivor Grattan-Guinness</i>	91
5 Qualitative dynamics in economics and fluid mechanics: a comparison of recent applications <i>Randall Bausor</i>	109
6 Rigor and practicality: rival ideals of quantification in nineteenth-century economics <i>Theodore M. Porter</i>	128

Part III Uneasy boundaries between man and machine

- 7 Economic man, economic machine: images of circulation in the Victorian money market 173
Timothy L. Alborn
- 8 The moment of Richard Jennings: the production of Jevons's marginalist economic agent 197
Michael V. White
- 9 Economics and evolution: Alfred James Lotka and the economy of nature 231
Sharon E. Kingsland

Part IV Organic metaphors and their stimuli

- 10 Fire, motion, and productivity: the proto-energetics of nature and economy in François Quesnay 249
Paul P. Christensen
- 11 Organism as a metaphor in German economic thought 289
Michael Hutter
- 12 The greyhound and the mastiff: Darwinian themes in Mill and Marshall 322
Margaret Schabas
- 13 Organization and the division of labor: biological metaphors at work in Alfred Marshall's *Principles of Economics* 336
Camille Limoges and Claude Ménard
- 14 The role of biological analogies in the theory of the firm 360
Neil B. Niman
- 15 Does evolutionary theory give comfort or inspiration to economics? 384
Alexander Rosenberg
- 16 Hayek, evolution, and spontaneous order 408
Geoffrey M. Hodgson

Part V Negotiating over Nature

- 17 The realms of the Natural 451
Philip Mirowski

18	The place of economics in the hierarchy of the sciences: Section F from Whewell to Edgeworth <i>James P. Henderson</i>	484
19	The kinds of order in society <i>James Bernard Murphy</i>	536
20	Feminist accounting theory as a critique of what's "natural" in economics <i>David Chioni Moore</i>	583
