Advanced Thermal Treatment of Wastes for Fuels, Chemicals and Materials Recovery	1
<i>Chunfei Wu and Paul T. Williams</i>	
1 Introduction	1
2 Pyrolysis	2
2.1 Bio-oil Production	5
2.1.1 Upgrading of Bio-oil	7
2.2 Pyrolysis Oils from Other Wastes	10
2.3 Pyrolysis Chars	13
2.4 Pyrolysis Gases	14
2.5 Material Recovery from Wastes	15
2.6 Reactors for Pyrolysis	18
2.6.1 Fixed-bed/batch Pyrolysis	18
2.6.2 Screw Kiln Pyrolysis	19
2.6.3 Fluidised Bed Pyrolysis	20
2.7 Examples of Semi-commercial and Commercial Pyrolysis Systems	21
3 Gasification	25
3.1 Introduction to Gasification	25
3.2 Influence of Gasification Conditions	28
3.2.1 Influence of Gasification Temperature	28
3.2.2 Introduction of Catalyst in Gasification	29
3.3 Gasification Reactors	30
3.3.1 Fixed-bed Gasification	30
3.3.2 Fluidised-bed Gasification	32
3.3.3 Entrained-flow Gasification	33
3.3.4 Other Novel Gasifiers	33

Issues in Environmental Science and Technology, 37
Waste as a Resource
Edited by R.E. Hester and R.M. Harrison
