Detailed Contents

About the Author	xvii
Preface	xix
Acknowledgments	xxi
1 Language and Language Development	1
The Nature of Language and Language Development	2
What Are the Major Milestones of Language Development?	2
Understanding the Range of Human Languages	3
What Are the Elements of Language?	5
<i>Syntactic Rules</i>	5
<i>Morphological Rules</i>	6
<i>Phonological Rules</i>	7
TEXT BOX 1.1 DIVERSITY OF HUMAN LANGUAGES: AMERICAN SIGN LANGUAGE	8
<i>Semantic Rules</i>	9
Why Are Some Human Languages So Similar?	9
<i>The First Language</i>	11
TEXT BOX 1.2 RESEARCH DISCOVERY: NICARAGUAN SIGN LANGUAGE	12
Theories of Language Development	13
What Is the Behaviorist Approach to Language Development?	13
What Is the Generative Approach to Language Development?	14
What Is the Statistical Learning Approach?	15
TEXT BOX 1.3 EXTRAORDINARY INDIVIDUALS: FERAL CHILDREN	16
What Is the Social-Interactionist Approach?	17
Methods Used in the Study of Language Development	17
What Observational Methods Are Used to Study Language Development?	18
<i>Baby Biographies</i>	18
<i>Gesell's Normative Studies</i>	18
<i>Peabody Picture Vocabulary Test</i>	19
<i>MacArthur-Bates Communicative Development Inventory</i>	20
<i>Child Language Data Exchange System</i>	20
What Experimental Methods Are Used to Assess Children's Cognition?	20
<i>Head-Turn Technique</i>	20

Habituation Paradigm 21
Preferential Looking Paradigm 22

Summary 22

2 The Biological Basis of Language

27

Historical Studies of Brain and Language 28

What Is the Localization Hypothesis? 28

TEXT BOX 2.1 EXTRAORDINARY INDIVIDUALS: PHINEAS GAGE 29

Did Aphasia Studies Support the Localization Hypothesis? 30

Broca's Aphasia 30

Wernicke's Aphasia 30

What Is Meant by the Lateralization of Language? 31

Wada Testing 32

Electrical Brain Stimulation 32

Split-Brain Patients 32

Divided Visual Field Paradigm 33

Dichotic Listening Paradigm 34

Mapping the Brain 34

What Techniques Are Used to Image the Brain? 34

X-Ray Imaging 35

Computed Axial Tomography Scan 35

Positron-Emission Tomography Scan 35

Magnetic Resonance Imaging 36

Functional Magnetic Resonance Imaging 36

Electroencephalography 37

What Types of Aphasia Have Been Identified? 37

Expressive Aphasia 38

Receptive Aphasia 38

Pure Aphasia 40

What Has Brain Imaging Revealed About Language Development? 40

Planum Temporale 41

Genetics and Language 41

TEXT BOX 2.2 RESEARCH DISCOVERY: IMAGING THE BRAINS OF BIMODAL BILINGUALS 42

Is Language in Our DNA? 43

Specific Language Impairment 43

FOXP2 44

When Did Human Language Emerge? 44

How Did Language Evolve? 47

Communication in Nonhuman Primates and Other Animals 48

Is Human Language Different From Communication in Other Animals? 48

Can Nonhuman Animals Learn Human Language? 49

Gua 49

Washoe 49

Nim Chimpsky 50

Koko 50
Kanzi 50
Dolphin Studies 51

TEXT BOX 2.3 EXTRAORDINARY INDIVIDUALS: ALEX, THE AFRICAN GRAY PARROT 52

Summary and Theoretical Implications 52

3

The First Twenty-Four Months

57

The Infant at Birth 58

Imitation 59

TEXT BOX 3.1 EXTRAORDINARY INDIVIDUALS: INFANTS CAN ADD AND SUBTRACT? 61

Hearing 62

Categorical Perception 63

Auditory Adaptation 65

When Does Learning Begin? 66

Types of Memory 67

The Earliest Memories 68

What Role Do Adults Play in Infants' Language Development? 69

Infant-Directed Speech (Motherese) 70

Motherese Across Cultures 71

Motherese in Signed Languages 72

First Communications 72

When Do Infants Begin Communicating? 72

Social Smile 72

Babbling 73

First Gestures 74

TEXT BOX 3.2 DIVERSITY OF HUMAN LANGUAGES: BABY SIGN LANGUAGE 75

When Do Children Produce Their First Words? 76

The First Ten Words 76

The First Fifty Words 76

The Emergence of Words 77

How Do Children Build Their Lexicons? 77

The Word Spurt 77

Fast Mapping 78

The Original Word Game 79

TEXT BOX 3.3 EXTRAORDINARY INDIVIDUALS: HELEN KELLER 80

What Strategies Do Children Use When Learning New Words? 81

Whole Object Bias 81

Mutual Exclusivity Principle 81

Taxonomic Bias 81

How Do Children Differ in Word Learning? 81

Late Talkers 81

Pronunciation Problems 82

Summary and Theoretical Implications 83

4 Grammatical Development

87

Beginnings of Grammar 88

When Do Infants Begin to Show Signs of Grammar? 88

Bootstrapping 90

TEXT BOX 4.1 DIVERSITY OF HUMAN LANGUAGES: CODE-SWITCHING 90

Holophrases 91

Two-Word Utterances 91

Utterance of Three or More Words 92

TEXT BOX 4.2 DIVERSITY OF HUMAN LANGUAGES: NOUN CLASSES IN FULANI 94

How Is Syntactic Development Measured? 95

Mean Length Utterance 95

Index of Productive Syntax 98

How Do Children Acquire Morphemes? 99

Learning Rules 99

TEXT BOX 4.3 RESEARCH DISCOVERY: TODDLERS LEARN GRAMMATICAL RULES 100

Syntactic Bootstrapping 102

The Production of Complex Sentences 103

How Do Children Master Complex Sentences? 103

Negative Sentences 103

Questions 104

Passive Sentences 104

Coordinated Clauses 105

Complement Clauses 106

How Do Children Use Pronouns? 106

Grammatical Development in Special Populations 107

How Are Language Ability and Cognitive Ability Related? 107

Chatterbox Syndrome 108

Down Syndrome 108

Fragile X 110

Specific Language Impairment 110

Williams Syndrome 111

How Does Grammar Develop in Deaf Children? 111

How Does Grammar Develop With Only One Hemisphere? 113

Summary and Theoretical Implications 113

5 The Lexicon

117

The Mental Lexicon 118

What Information Is Contained in a Lexical Entry? 118

Irregular Verbs 119

Idioms 120

How Are Ambiguous Words Represented in the Mental Lexicon? 121

TEXT BOX 5.1 EXTRAORDINARY INDIVIDUALS: NATIONAL SPELLING BEE WINNERS 124

What Part of Memory Contains the Mental Lexicon? 125

TEXT BOX 5.2 RESEARCH DISCOVERY: SPERLING'S (1960) DISCOVERY OF VISUAL SENSORY MEMORY 126

Lexical Access 127

Are Words Recognized One Letter or Phoneme at a Time? 127

Perceiving Words 127

What Factors Influence Word Processing? 128

The Role of Phonology 130

Morphological Complexity 132

Imageability 133

Age of Acquisition 133

TEXT BOX 5.3 DIVERSITY OF HUMAN LANGUAGES: THE CHINESE WRITING SYSTEM 134

Theoretical Approaches to Lexical Access 135

What Is the Logogen Model? 135

What Is the Cohort Model? 136

How Are Semantic Networks Organized? 137

Semantic Priming 139

Summary and Theoretical Implications 143

6 Social Aspects of Language Development

149

Development of Communication 150

When Do Conversations Begin? 150

Turn-Taking 151

What Is Private Speech? 153

Private Speech 153

Speech Acts 153

How Do Children Handle Communication Failures? 154

When Do Children Master the Art of Conversation? 155

Gricean Maxims 155

Theory of Mind 156

What Is Theory of Mind? 156

How Is Theory of Mind Measured? 157

False Belief Tests 157

TEXT BOX 6.1 RESEARCH DISCOVERY: THE MIND OF THE CHIMPANZEE 158

Does Theory of Mind Always Develop? 159

Autism 159

TEXT BOX 6.2 EXTRAORDINARY INDIVIDUALS: KIM PECK (1951–2009) 160

Asperger's Syndrome 159

Agenesis of the Corpus Callosum 161

Varying Language Across Social Setting	161
How Do Children Acquire the Politeness Register?	162
<i>Polite Requests</i>	162
<i>Development of Polite Requests</i>	162
<i>Cultural Differences</i>	163
What Is Genderlect?	164
TEXT BOX 6.3 DIVERSITY OF HUMAN LANGUAGES: GENDER DIALECTS IN YANYUWA	166
How Do Children Learn Other Social Registers?	167
<i>Slang and Jargon</i>	168
Literal and Nonliteral Language	170
How Do Children Learn to Comprehend Indirect Meaning?	170
How Do Children Develop a Sense of Humor?	170
How Do Children Learn to Understand and Tell Stories?	172
Summary and Theoretical Implications	173

7

Life With More Than One Language

177

Bilingual Children	179
How Do Bilingual Children Differ From Monolingual Children?	179
<i>Language Milestones</i>	179
<i>Perceptual Abilities</i>	180
<i>Vocabulary Size</i>	181
<i>Language Mixing</i>	183
<i>Code-Switching</i>	183
TEXT BOX 7.1 DIVERSITY OF HUMAN LANGUAGES: PIDGINS AND CREOLES	186
Are There Cognitive Benefits When Children Are Bilingual?	187
<i>Attentional Processing</i>	187
<i>Language Skills</i>	188
What Brain Changes Are Associated With Bilingualism?	189
Learning Second Languages	190
What Teaching Methods Are Used in Language Classes?	190
Do All Countries Have Bilingual Education?	191
How Does First Language Influence Second Language Acquisition?	192
Life With Two or More Languages	194
What Factors Predict Proficiency?	194
TEXT BOX 7.2 EXTRAORDINARY INDIVIDUALS: EMIL KREBS: AN EXTRAORDINARY POLYGLOT	195
How Are Multiple Languages Stored in Memory?	197
TEXT BOX 7.3 RESEARCH DISCOVERY: BILINGUAL PROBLEM SOLVING	198
Can One Forget One's First Language?	200
Summary and Theoretical Implications	201

The Sapir–Whorf Hypothesis 206

What Were the Origins of the Sapir–Whorf Hypothesis? 206

The Role of Vocabulary 207

The Case of Hopi 208

TEXT BOX 8.1 DIVERSITY OF HUMAN LANGUAGES: ARE EUPHEMISMS EVIDENCE FOR LINGUISTIC RELATIVITY? 210

How Did Researchers Test the Sapir–Whorf Hypothesis? 211

Color Words 211

Processing Color 213

Counterfactuals 214

What Are the Methodological Challenges in Testing the Sapir–Whorf Hypothesis? 215

Recent Evidence for Language’s Effect on Thinking 216

How Does Language Influence Thinking About Time and Space? 216

Direction of Writing 216

Conceptualizing Time 217

How Does Language Influence Thinking About Gender? 219

TEXT BOX 8.2 RESEARCH DISCOVERY: SPATIAL DIRECTION IN TZELTAL 219

How Does Language Influence Thinking About Numbers? 221

Conceptual and Lexical Development 222

How Do Children Learn About Color? 223

How Do Children Learn About Numbers? 225

TEXT BOX 8.3 RESEARCH DISCOVERY: LANGUAGE, NUMBERS, AND THE BRAIN 227

How Do Children Learn Words About Space? 227

How Do Children Learn Words About Time? 228

Summary and Theoretical Implications 229

9 Planning Speech: From Thought to Articulation

Spoonerisms and Other Speech Errors 234

What Are the Different Types of Speech Errors? 235

Substitutions and Malapropisms 235

Exchange Errors 236

Shifts, Additions, and Deletions 236

Anticipations, Perseverations, and Blends 237

How Are Dysfluencies Different From Speech Errors? 238

Silences 238

Filled Pauses 238

TEXT BOX 9.1 EXTRAORDINARY INDIVIDUALS: FAST TALKERS 239

Repairs 239

Do Researchers Study Naturally Occurring Speech Errors? 240

Observations of Children’s Speech Errors 240

<i>Observations of Signing Errors</i>	240
<i>Methodological Issues</i>	241
Models of Speech Planning	241
What Stages of Processing Occur During Speech Planning?	241
<i>Fromkin's Model of Speech Errors</i>	242
<i>Garrett's Model of Speech Errors</i>	242
<i>Dell's Model of Speech Errors</i>	243
What Have Laboratory Studies of Speech Production Revealed?	243
TEXT BOX 9.2 EXTRAORDINARY INDIVIDUALS: VENTRILOQUISTS	244
<i>Lexical Bias Effect</i>	245
<i>Preventing Errors</i>	245
<i>Verb Agreement Errors</i>	246
What Are the Units of Speech Planning?	246
<i>The Role of Clauses in Speech Planning</i>	246
<i>The Role of Syllables in Speech Planning</i>	247
How Are Gestures Related to Speech?	247
TEXT BOX 9.3 DIVERSITY OF HUMAN LANGUAGES: GESTURES AROUND THE WORLD	247
<i>McNeill's Approach to Gestures</i>	249
<i>Evidence That Gesturing Facilitates Communication</i>	250
Problems Affecting Speech	251
What Are the Most Common Problems Affecting Speech?	252
<i>Speaking Problems Affecting Children</i>	252
<i>Stuttering</i>	253
<i>Apraxia and Dysarthria</i>	254
<i>Cleft Palate</i>	255
<i>Cluttering</i>	255
What Are Some Common Treatments for Speech Disorders?	256
Summary and Theoretical Implications	256

10 Language Comprehension

261

syntactic Parsing	262
What Is Syntactic Parsing?	262
TEXT BOX 10.1 RESEARCH DISCOVERY: DO WE LISTEN WITH OUR EYES AND OUR EARS?	267
How Is Syntactic Ambiguity Resolved?	267
<i>Syntactic Reanalysis</i>	270
<i>The Role of Verb Information</i>	270
Are There Individual Differences in Sentence Processing?	271
<i>Working Memory Capacity</i>	271
Semantic Interpretation	272
How Is Meaning Interpreted?	272
How Are Pronouns Comprehended?	274
<i>Information About Gender</i>	276

TEXT BOX 10.2 EXTRAORDINARY INDIVIDUALS: THE AMAZING WATSON 278

How Do We Remember What We Comprehend? 279

Development of Comprehension 280

TEXT BOX 10.3 EXTRAORDINARY INDIVIDUALS: A MAN WITH AN INCREDIBLE MEMORY 281

How Do Children Process Passive Sentences? 281

How Do Children Use Contextual Referential Information During Comprehension? 283

Summary and Theoretical Implications 285

11 Language During the School Years 289

Learning to Read 290

What Is Phonological Awareness? 290

Awareness of Syllables 291

Children's Word Games 291

How Do Children Learn to Read? 293

Learning to Read Outside of the United States 294

How Are Social Factors Related to Learning to Read? 295

The Matthew Effect 296

Cultural Differences 298

Dyslexia 300

What Is Dyslexia? 300

What Are the Different Types of Dyslexia? 301

Prevalence of Developmental Dyslexia 302

TEXT BOX 11.1 EXTRAORDINARY INDIVIDUALS: MANY SUCCESSFUL PEOPLE HAVE DYSLLEXIA 303

Causes of Developmental Dyslexia 303

Is There a Cure for Dyslexia? 305

TEXT BOX 11.2 DIVERSITY OF HUMAN LANGUAGES: WRITING SYSTEMS ACROSS LANGUAGES 306

Other Learning-Related Disorders 308

What Is Attention Deficit Disorder? 308

TEXT BOX 11.3 RESEARCH DISCOVERY: SPEED-READING: FACT OR MYTH? 309

Causes of Attention Deficit Disorder and Attention

Deficit/Hyperactivity Disorder 310

Treatments for Attention Deficit Disorder and Attention

Deficit/Hyperactivity Disorder 310

What Is Dysgraphia? 310

What Is Dyscalculia? 311

What Is Conduct Disorder? 312

Summary and Theoretical Implications 313

Normal Aging 318

What Is Gerontology? 318

Centenarians 319

What Occurs During Normal Aging? 321

Sensory Processing 322

Language Processing 323

Working Memory 324

What Are Some Methodological Issues Involved in Aging Research? 326

Diseases Affecting Older Adults 327

What Is Dementia? 328

What Is Alzheimer's Disease? 329

Problems With Cognition, Memory, and Language 329

TEXT BOX 12.1 RESEARCH DISCOVERY: TEENAGE LANGUAGE USE PREDICTS ALZHEIMER'S LATER IN LIFE 330

What Is Parkinson's Disease? 331

Problems With Language 331

TEXT BOX 12.2 EXTRAORDINARY INDIVIDUALS: MICHAEL J. FOX 332

What Is Multiple Sclerosis? 333

Problems With Speech and Language 333

What Is Huntington's Disease? 334

TEXT BOX 12.3 EXTRAORDINARY INDIVIDUALS: WOODY GUTHRIE (1912–1967) 334

Problems With Cognition and Language 335

Negative Attitudes About Aging 335

What Is Ageism? 335

What Is Elderspeak? 335

What Is Elder Abuse? 338

How Can Ageism Affect Adolescents and Young Adults? 339

Summary and Theoretical Implications 340
