

Contents

Part I Ultrasound Backscatter Coefficient

1	State of the Art Methods for Estimating Backscatter Coefficients.	3
	Goutam Ghoshal, Jonathan Mamou and Michael L. Oelze	
2	Quantitative Ultrasound History and Successes	21
	Goutam Ghoshal, Michael L. Oelze and William D. O'Brien Jr.	
3	Statistics of Scatterer Property Estimates	43
	Michael L. Oelze	
4	Attenuation Compensation and Estimation	71
	Timothy A. Bigelow and Yassin Labyed	
5	Quantitative Ultrasound and Cell Death	95
	Omar Falou, Ali Sadeghi-Naini, Azza Al-Mahrouki, Michael C. Kolios and Gregory J. Czarnota	
6	Modeling of Ultrasound Backscattering by Aggregating Red Blood Cells	117
	Emilie Franceschini and Guy Cloutier	
7	Backscatter Quantification for the Detection of Metastatic Regions in Human Lymph Nodes	147
	Jonathan Mamou, Alain Coron, Emi Saegusa-Beecroft, Masaki Hata, Eugene Yanagihara, Junji Machi, Pascal Laugier and Ernest J. Feleppa	

8	Quantitative Ultrasound for Tissue-type Imaging of the Prostate: Implications for Planning and Guiding Biopsies and Delivering Focal Treatments	171
	Ernest J. Feleppa and Christopher R. Porter	
9	Therapy Monitoring and Assessment Using Quantitative Ultrasound	193
	Michael L. Oelze, Jeremy P. Kemmerer, Goutam Ghoshal and Roxana M. Vlad	

Part II Envelope Statistics

10	Review of Envelope Statistics Models for Quantitative Ultrasound Imaging and Tissue Characterization	219
	François Destrempes and Guy Cloutier	
11	The Quantitative Ultrasound Diagnosis of Liver Fibrosis Using Statistical Analysis of the Echo Envelope	275
	Tadashi Yamaguchi	

Part III Scanning Acoustic Microscopy

12	Recent Applications of Acoustic Microscopy for Quantitative Measurement of Acoustic Properties of Soft Tissues	291
	Yoshifumi Saijo	
13	Acoustic Microscopy of Cells	315
	Michael C. Kolios, Eric M. Strohm and Gregory J. Czarnota	

Part IV Ultrasound Computer Tomography

14	Methods for Forward and Inverse Scattering in Ultrasound Tomography	345
	Roberto J. Lavarello and Andrew J. Hesford	
15	Clinical Results with Ultrasound Computed Tomography of the Breast	395
	Michael André, James Wiskin and David Borup
