

Contents

Part I Fundamental Principles of Monitoring

1 Overview of Clinical Monitoring	3
James F. Szocik	
2 Monitoring in Acute Care Environments: Unique Aspects of Intensive Care Units, Operating Rooms, Recovery Rooms, and Telemetry Floors	13
Brian S. Rothman	
3 Introduction to Signals	23
Justin P. Henneman and Jesse M. Ehrenfeld	
4 Signal Analysis: Acquisition, Storage, and Analysis of Physiological Signals	29
Christine Kim Lee	
5 Information Displays and Ergonomics	35
B. Samaiya Mushtaq, Judith W. Dexheimer, and Shilo Anders	
6 Decision Support and Closed-Loop Systems	41
Guy A. Dumont	

Part II Hemodynamic Monitoring

7 Introduction to Hemodynamic Monitoring	49
Azriel Perel	
8 Pulmonary Artery Catheterization	53
Olufunmilayo Ogundele, Eliezer Bose, and Michael R. Pinsky	
9 Noninvasive Cardiac Output Monitoring	65
Robert H. Thiele, Karsten Bartels, and Tong J. Gan	
10 Transpulmonary Thermodilution	73
Olfa Hamzaoui, Xavier Monnet, and Jean-Louis Teboul	
11 Echocardiography in the Acute Care Setting	79
David W. Boldt and Aman Mahajan	

12	Noninvasive Arterial Pressure Monitoring	87
	Jos J. Settels	
13	Heart Rate Variability	109
	Benoît Tavernier and Mathieu Jeanne	
14	Preload-Dependent Monitoring	117
	Olufunmilayo Ogundele and Michael R. Pinsky	
15	Monitoring the Microcirculation in Critically Ill Patients	127
	Eduardo Romay Medina, Dan M.J. Milstein, and Can Ince	
16	Hemodynamic Monitoring During Cardiopulmonary Bypass	137
	Jason D. Kennedy, Robert J. Deegan, and Julian S. Bick	
17	Closed-Loop Fluid Management and Hemodynamic Optimization	147
	Joseph B. Rinehart	

Part III Respiratory Monitoring

18	Introduction to Respiratory Monitoring	161
	Boris Jung, Yannaël Coisel, and Samir Jaber	
19	Photoplethysmography: Analysis of the Pulse Oximeter Waveform	165
	Aymen A. Alian and Kirk H. Shelley	
20	Time and Volumetric Capnography	179
	Michael B. Jaffe	
21	Monitoring Diaphragmatic Function	193
	Boris Jung, Yannaël Coisel, and Samir Jaber	
22	The Anesthesia Machine as a Monitor	197
	James H. Philip	
23	Ventilator Settings in Acute Care Environments	203
	Yannaël Coisel, Boris Jung, and Samir Jaber	
24	Monitoring Respiratory Rate	207
	Michael Ramsay	
25	Closed-Loop Mechanical Ventilation	217
	Marc Wysocki	

Part IV Neuromonitoring

26	Introduction to Neuromonitoring	229
	Tod Sloan and Antoun Koht	
27	Transcranial Doppler	233
	Roy C. Neeley	

28	Brain Oxygenation	241
	Davinder Ramsingh	
29	Intracranial Pressure and SvjO₂	247
	Nelson Nicolas Algarra and Michael J. Souter	
30	Monitoring the EEG for Assessing Depth of Anesthesia	255
	Guy A. Dumont	
31	Monitoring Analgesia	261
	Anjali Dogra and Hadi S. Moten	
32	Neuromonitoring During Spine Surgery	267
	Sean A. Flesch, William H. Levis Jr., and Nabil J. Azar	
33	Closed-Loop Anesthesia Based on Neuromonitoring	275
	Ngai Liu, El Medhi Hafiani, and Morgan Le Guen	
34	Target-Controlled Infusions	281
	Loren A. Hemachandra	

Part V Metabolic Monitoring

35	Glucometrics and Measuring Blood Glucose in Critically Ill Patients	291
	Gregory E. Evans, Donald Crabtree, and Liza M. Weavind	
36	Noninvasive Hemoglobin Monitoring	299
	Valerie Begnoche and Michael O'Reilly	
37	Monitoring of O₂ Uptake and CO₂ Elimination During Anesthesia and Surgery	305
	Peter H. Breen and Abraham Rosenbaum	
38	Gastric Tonometry	317
	William T. Costello	
39	Temperature Monitoring	321
	Adam B. King and Jesse M. Ehrenfeld	

Part VI Other Forms of Monitoring in the Acute Care Environment

40	Point-of-Care Coagulation Monitoring	329
	Michael T. Ganter and Christoph K. Hofer	
41	Pediatric Monitoring	343
	Thomas M. Romanelli	
42	Fetal Monitoring	355
	Matthew V. Buck and Michael G. Richardson	
43	Ultrasound	367
	Rajnish K. Gupta and Clifford Bowens Jr.	

Part VII Information Technologies in the Acute Care Setting

- 44 Overview of Electronic Health Records** 379
Jonathan P. Wanderer and Jesse M. Ehrenfeld
- 45 Benefits and Drawbacks of Health Information Technology** . . . 385
Jonathan P. Wanderer and Jesse M. Ehrenfeld
- 46 Special Case: Perioperative Information Management Systems** 391
Allan F. Simpao and Jesse M. Ehrenfeld

Part VIII New and Emerging Technologies

- 47 Intelligent Patient Monitoring and Clinical Decision Making** 401
J. Mark Ansermino
- 48 Robotization** 409
Thomas M. Hemmerling, Nora Terrasini, and Shantale Cyr
- Index** 421
