

LIVER TRANSPLANTATION

NOVEMBER 2013

Vol. 19 No. 11 Supplement 2

- Justification for Routine Intensive Care After Liver Transplantation** S1
Michael Ramsay
- Early Allograft Dysfunction: Causes, Recognition, and Management** S6
Marc Deschenes
- How Important Is Acute Cellular Rejection?** S9
Michael R. Charlton
- Hepatic Artery Thrombosis: Conservative Management or Retransplantation?** S14
Nigel D. Heaton
- Systematic Investigation of Elevated Transaminases During the Third Posttransplant Month** S17
Michael P. Curry
- Systematic Investigation of Elevated Cholestatic Enzymes During the Third Posttransplant Month** S23
Andrew L. Mason and Aldo J. Montano-Loza
- Will Retransplantation Be the Norm for Pediatric Recipients With Ambitions for Grandparenthood?** S31
Deirdre A. Kelly
- Adolescence: Challenges and Responses** S35
Sue V. McDiarmid

Long-Term Quality of Life for Transplant Recipients <i>Patrizia Burra and Giacomo Germani</i>	S40
Tolerance Profiles and Immunosuppression <i>Alberto Sanchez-Fueyo</i>	S44
Is Disease Recurrence Still Relevant to Graft Survival? <i>James F. Trotter</i>	S49
Extrahepatic Implications of Metabolic Syndrome <i>Kymerly D. Watt</i>	S56
De Novo Malignant Disease After Liver Transplantation? Risk and Surveillance Strategies <i>Geoffrey W. McCaughan and Claire M. Vajdic</i>	S62
