Preface	vii
Notation	xiii
Part I: Introduction and Models of Manufacturing Systems	1
1 Concept of Near-Optimal Control	3
1.1 Introduction	3
1.2 A Brief Review of the Related Literature	4
1.3 Plan of the Book	7
2 Models of Manufacturing Systems	11
2.1 Introduction	11
2.2 A Parallel-Machine, Single Product Model	12
2.3 A Parallel-Machine, Multiproduct Model	15
2.4 A Single Product Dynamic Flowshop	16
2.5 A Dynamic Jobshop	17
Part II: Optimal Control of Manufacturing Systems: Existence and Characterization	21
3 Optimal Control of Parallel-Machine Systems	23
3.1 Introduction	23
3.2 Problem Formulation	25
3.3 Estimates for Discounted Cost Value Functions	28

3.4	Verification Theorem	39
3.5	Existence and Characterization of Optimal Policy	44
3.6	Turnpike Set Analysis	48
3.7	Multiproduct Systems	53
3.8	Notes	64
4	Optimal Control of Dynamic Flowshops	67
4.1	Introduction	67
4.2	Problem Formulation	68
4.3	Estimates for Discounted Cost Value Functions	71
4.4	Verification Theorem and HJBDD Equations	77
4.5	Two-Machine Flowshop with Finite Internal Buffer	84
4.6	Notes	94
5	Optimal Controls of Dynamic Jobshops	97
5.1	Introduction	97
5.2	A Graph-Theoretic Framework and Problem Formulation	99
5.3	Estimates for Discounted Cost Value Functions	110
5.4	Verification Theorem	116
5.5	Notes	123
6	Risk-Sensitive Control	125
6.1	Introduction	125
6.2	Problem Formulation	126
6.3	HJB Equations	128
6.4	Verification Theorem	140
6.5	Notes	142
Part III: Near-Optimal Controls		143
7	Near-Optimal Control of Parallel-Machine Systems	145
7.1	Introduction	145
7.2	Problem Formulation	146
7.3	The Limiting Control Problem	149
7.4	Convergence of the Minimum Average Expected Cost	151
7.5	Asymptotic Optimal Controls	157
7.6	Parallel-Machine Systems without Attrition	164
7.7	Notes	170
8	Near-Optimal Control of Dynamic Flowshops	171
8.1	Introduction	171
8.2	Problem Formulation	172
8.3	The Limiting Control Problem	176
8.4	Convergence of the Minimum Average Expected Cost	178
8.5	Construction of a Near-Optimal Control	195
8.6	Notes	198

9	Near-Optimal Controls of Dynamic Jobshops	199
9.1	Introduction	199
9.2	The Optimization Problem	199
9.3	The Limiting Control Problem	204
9.4	Convergence of the Minimum Average Expected Cost	206
9.5	Construction of a Near-Optimal Control	223
9.6	Notes	226
10	Near-Optimal Risk-Sensitive Control	227
10.1	Introduction	227
10.2	Problem Formulation	228
10.3	The Limiting Problem	229
10.4	Notes	237
	Part IV: Conclusions	239
11	Further Extensions and Open Research Problems	241
11.1	Introduction	241
11.2	Multilevel Systems	242
11.3	Asymptotic Optimal Feedback Controls	242
11.4	Robust Controls	243
11.5	General Systems	244
11.6	Final Thoughts	244
	Part V: Appendices	247
A	Finite State Markov Chains	249
B	Convergence and Error Estimates of Markov Chains	253
C	Convex Sets and Functions	283
D	Viscosity Solutions of HJB Equations	287
E	Discounted Cost Problems	295
F	Miscellany	301
	References	305
	Author Index	317
	Subject Index	319
