

Table of contents

MOTIVATION. Gender, image and choice of science and engineering. An introduction (Felizitas Sagebiel).....	7
Socialization agents and the gendered choice of educational paths: Perpetuation or fragility of gender stereotypes? (Susana Vázquez-Cupeiro)	29
Part 1 – Images of SET, youth and gender	45
Why girls stay away from STEM: How the image of science clashes with teenagers’ identity (Ursula Kessels).....	47
Images of an ideal engineer and self-image – differences between male and female engineering and non-engineering students (Martina Endepohls-Ulpe and Judith Ebach).....	61
Uncertainty as a barrier in job decision making process of young women (Kathrin Gräßle).....	75
The gender perspective of young people’s images of science, engineering and technology (SET) in the Slovak Republic (Nataša Urbančíková and Gabriela Kol’vecková).....	83
Secondary school students’ reactions to descriptions of engineering and nursing in university catalogues (Minna Salminen-Karlsson).....	99
Young people and nanotechnologies (Ilse Marschalek, Petra Moser and Magdalena Strasser).....	115
Part 2 – Peers, school and media	129
Does science education at school make young Europeans like SET? (Anne-Sophie Godfroy)	131
Teach the teachers: Gender competence as an innovative element of teacher-training in mathematics (Anina Mischau, Bettina Langfeldt and Karin Griffiths).....	145
ICT resources in STEM activities and ICT and STEM career prospects for young students: Gender-related issues (Àgueda Gras-Velázquez, Alexa Joyce and Albert Gras-Marti)	159

Part 3 – Methodology and evaluation of good practice	171
Are young people lazy, blind, or misguided?	
A fresh look at unpleasant facts (Frank Stefan Becker).....	173
Mind the gap: Science and young people (Federica Manzoli, Flora Di Martino, Daniele Gouthier, Donato Ramani)	201
Munich’s gender-sensitive education – extend girls’ world to the fascinating field of engineering Motivating girls to go for jobs with interesting tasks, career prospects and steady incomes (Barbara Roth)	219
Mentoring and video clips – ways against stereotype threat (Sylvia Neuhäuser-Metternich and Sybille Krummacher).....	239
Inspiring girls and boys in science, engineering and technology on virtual networks – the e-mentoring programme TANDEMkids at RWTH Aachen University (Marcel Lämmerhirt and Carmen Leicht-Scholten).....	253
Mentoring programme TANDEMschool – encouraging young people to study SET subjects by a coherent MINT cooperation concept at RWTH Aachen University (Gehrt Hartjen and Carmen Leicht-Scholten)	271
How to change stereotypical images of science, engineering & technology? Results and conclusions from the european project MOTIVATION (Felizitas Sagebiel (Germany), Carme Alemany (Spain), Jennifer Dahmen (Germany), Bulle Davidsson (Sweden), Anne-Sophie Godfroy-Genin (France), Gabriela Kol’vecková (Slovakia), Cloé Pinault (France), Els Rommes (The Netherlands), Mariska Schönberger (The Netherlands), Anita Thaler (Austria), Natasa Urbanciková (Slovakia), Christine Wächter (Austria)).....	287
Authors’ short biographies.....	293
