

Supplement to  
The American Journal of  
**CLINICAL NUTRITION**

VOLUME 98 NUMBER 6(S) DECEMBER 2013

**Supplement—Fifth International Scientific Symposium on Tea and Human Health**

- 1607S Introduction to the proceedings of the Fifth International Scientific Symposium on Tea and Human Health. *JB Blumberg*
- 1611S Tea and flavonoids: where we are, where to go next. *JT Dwyer and J Peterson*
- 1619S Human studies on the absorption, distribution, metabolism, and excretion of tea polyphenols. *MN Clifford, JJJ van der Hooft, and A Crozier*
- 1631S Interactions of black tea polyphenols with human gut microbiota: implications for gut and cardiovascular health. *J van Duynhoven, EE Vaughan, F van Dorsten, V Gomez-Roldan, R de Vos, J Vervoort, JJJ van der Hooft, L Roger, R Draijer, and DM Jacobs*
- 1642S Cellular targets for the beneficial actions of tea polyphenols. *M Lorenz*
- 1651S Tea consumption and cardiovascular disease risk. *L Arab, F Khan, and H Lam*
- 1660S Tea, flavonoids, and cardiovascular health: endothelial protection. *D Grassi, G Desideri, P Di Giosia, M De Feo, E Fellini, P Cheli, L Ferri, and C Ferri*
- 1667S Does tea prevent cancer? Evidence from laboratory and human intervention studies. *JD Lambert*
- 1676S Cancer prevention by green tea: evidence from epidemiologic studies. *J-M Yuan*
- 1682S Catechin- and caffeine-rich teas for control of body weight in humans. *R Hursel and MS Westerterp-Plantenga*
- 1694S Tea and bone health: steps forward in translational nutrition. *C-L Shen, M-C Chyu, and J-S Wang*
- 1700S Acute effects of tea consumption on attention and mood. *SJ Einöther and VE Martens*
