Questions	45
Note	46
3 Organizations	47
3.1 The world of organizations	47
3.2 Organizational coordination	48

3.3	Types of organizations	53
3.4	Organizational markets	58
3.5	Organized markets	59
3.6	Summary: how organizations achieve coordination	61
	Questions	63
	Notes	64
4	Information	65
4.1	Coordination and information	65
4.2	Hidden information	70
4.3	Hidden action	76
4.4	The value of information	81
4.5	Summary: information problems for markets and organizations	84
	Questions	85
	Note	86
5	Game theory	87
5.1	Introduction	87
5.2	The coordination game	88
5.3	The entry game	92
5.4	Auctions	96
5.5	The prisoner's dilemma: single-stage and iterated	101
5.6	Evolutionary game theory	110
5.7	Summary: insights from game theory	115
	Questions	117
Part II	Economic Approaches	119
6	Behavioural theory of the firm	121
6.1	Introduction	121
6.2	The firm as a coalition of participants	121
6.3	Organizational goals	125
6.4	Organizational expectations	128
6.5	Organizational choice	129
6.6	From bounded rationality to behavioural economics	131
6.7	Summary: goals and decisionmaking within the firm	
	in behavioural theory	134
	Questions	136
7	Agency theory	138
7.1	Introduction	138

8.3	Dimensions of transactions	175
8.4	Peer groups	180
8.5	Simple hierarchies	182
8.6	Multistage hierarchies: U-form and M-form enterprises	184
8.7	Organizational markets	185
8.8	Markets and organizations: are these all there is?	188
8.9	Governance in a three-level schema	195
8.10	Summary: effect of transaction costs on choosing between markets and organizations and organizational forms	196
	Questions	198
9	Economic contributions to business/competitive strategy	201
9.1	Introduction	201
9.2	Industry analysis	204
9.3	Competitor analysis	208
9.4	Competitive strategy	211
9.5	Resource-based view of the firm	212
9.6	Dynamic capabilities	215
9.7	Move and counter move	219
9.8	Summary: how economic analysis can contribute to the formulation of competitive strategies	228
	Questions	229
10	Economic contributions to corporate strategy	230
10.1	Introduction	230
10.2	Unrelated diversification	233
10.3	Related diversification	239
10.4	Horizontal multinationalization	244
10.5	Vertical integration	248
10.6	Summary	253
	Questions	255

11	Evolutionary approaches to organizations	257
11.1	Introduction	257
11.2	Giraffes	257
11.3	Organizations and giraffes	260
11.4	Organizational ecology	263
11.5	An evolutionary theory of economic change	270
11.6	Comparison	275
11.7	The evolution of dynamic capabilities	278
11.8	Further developments	285
11.9	Summary: the evolutionary perspective	290
	Questions	292
	Notes	293
12	All in the family	294
12.1	Introduction	294
12.2	The basic conceptual framework	294
12.3	Family resemblances	295
12.4	Family differences	299
12.5	Summary: all in the family?	306
12.6	New developments: organizations as complex, adaptive systems	308
	Questions	317
	Note	317
	Part III Applications	319
13	Mergers and acquisitions	321
13.1	Introduction	321
13.2	The significance of M&A	323
13.3	Success and failure of M&A transactions	327
13.4	Strategy, acquisitions and hidden information	329
13.5	Auctions	331
13.6	The winner's curse and hubris	335
13.7	Adverse selection: remedies for hidden information	339
13.8	Moral hazard: remedies for hidden action	343
13.9	Transaction specificity and hold-up	347
13.10	Alignment of managers and shareholders	349
13.11	Summary: economic approaches to M&A	353
	Questions	354
	Notes	355
