## Enterprise Architecture

### **Nils Labusch, Stephan Aier, Robert Winter**

*Beyond Enterprise Architecture Modeling – What are the Essentials to Support Enterprise Transformations?* ..... 13

### **Ralf Abraham, Hella Niemietz, Sybren de Kinderen, Stephan Aier**

*Can boundary objects mitigate communication defects in enterprise transformation? Findings from expert interviews* ..... 27

### **Thomas Benker**

*A Hybrid OLAP & OLTP Architecture Using Non-Relational Data Components* ..... 41

## Methods

### **Jeannette Stark, Martin Burwitz, Richard Braun, Werner**

**Esswein**  
*Cognitive Efficient Modelling Using Tablets* ..... 57

### **Rafael Accorsi, Thomas Stocker**

*SecSy: Synthesizing Process Event Logs* ..... 71

### **Heiko Kattenstroth, Ulrich Frank, David Heise**

*Towards a Modelling Method in Support of Evaluating Information Systems Integration* ..... 85

## Process Modelling

### **Michael Fellmann, Sebastian Bittmann, Arne Karhof, Carl Stolze, Oliver Thomas**

*Do We Need a Standard for EPC Modelling? The State of Syntactic, Semantic and Pragmatic Quality* ..... 103

**Michael Fellmann, Novica Zarvic, Annelene Sudau**  
*Ontology-Based Assistance for Semi-Formal Process Modeling* ..... 117

**Nico Clever, Justus Holler, Maria Shitkova, Jörg Becker**  
*Towards Auto-Suggested Process Modeling – Prototypical Development of an  
Auto-Suggest Component for Process Modeling Tools* ..... 133

## Business Process Modelling

**Dirk Van Der Linden, Henderik Proper**  
*On the cognitive understanding of types in modeling languages* ..... 149

**Nicolas Pflanzl, Gottfried Vossen**  
*Human-Oriented Challenges of Social BPM: An Overview* ..... 163

**Matthias Geiger, Guido Wirtz**  
*BPMN 2.0 Serialization - Standard Compliance Issues and Evaluation of  
Modeling Tools* ..... 177
