

Contents

Recommender Systems

Consensual Recommender Systems	
M. Komkhao, J. Lu and W.A. Halang	1
An Agent-based Movie Recommender System Combining the Results Computed based on Heterogeneous Semantic Datasets	
A. Lommatzsch, B. Kille and S. Albayrak	15
Community and Individual Influence on High-quality Expertise and Media Recommendation Delivery	
G. Eichler, K.-H. Lücke and E. Shorter	30
Clustering Stock Data for Multi-objective Portfolio Optimization	
N. Cong Long, N. Wisitpongphan, Ph. Meesad and H. Unger	44

Social Network and Media

Towards Technology Acceptance and Adoption of Social Media in Disaster Response	
J. Schwarter and U. Lechner	55
Goods Move: A Concept for Social Networking of End-customers for Optimizing Spontaneous and/or Planned Synergetic "Procurement Sharing" Activities for Households	
O. Mitrea and K. Kyamakya	72
Generating Topically Induced Document Links	
M. Kubek and H. Unger	85
Combining Symbolic and Spatial Exploratory Search – the Homerun Explorer	
J. Roth	94

Peer-to-Peer Networks

Random Walker Algorithm and Induced Clustertree P. Bauermann	109
Traffic Profiles and Management for Support of Community Networks G. Hasslinger, A. Schwahn and F. Hartleb	124
An Extended, Decentralized Version of the VIVALDI-Mechanism to Create Synthetic Network Coordinates based on Peer Data Ph. Neuser, H. Unger and M. Kubek	140

Wireless Networks

SODF: A Framework for Dynamic Interaction with Smart Objects L. Lehmann, J. Devendraraj and S. Göndör	152
Joint Source Channel Coding for H.264/AVC Video Transmission over Wireless Network R. Boudjadja, M. Azni and M. N. Zennir	167
Influence of Network Topology on WSN Performances C. Ramassamy, H. Fouchal and Ph. Huneil	181
The WBAN Platform Architecture B. Alghamdi and H. Fouchal	195

Security

Towards RFID Security using PKI M. Kajba	207
Biometric Authentication: Safety and Security of Health Care Information Systems L. Fošnarič	216
SecureString 2.0 – A Cryptosystem for Computing on Encrypted Character Strings in Clouds G. Fahrnberger	226

Logistics

System Dynamics Modelling in Supply Chain Management	
M. Intihar	241
Autonomous System Node Configuration in Supply Chains	
V. Pejić	253
Quality-of-service-driven Autonomous Supply Chain Management	
B. Milić	263
Autonomous Cross-docking Systems	
T. Vizinger	273
OD Matrix Estimation of a Complex Junction based on Particle Swarm Optimization	
A. Haj Mosa, M. Ali, J. Ch. Chedjou and K. Kyamakya	282
