

**Part I Renal Anatomy and Basic Concepts and Methods  
in Renal Pathology**

**1 Renal Anatomy and Basic Concepts and Methods  
in Renal Pathology** ..... 3

Normal Anatomy ..... 3

Examination of Renal Tissue ..... 8

    Tamm-Horsfall Protein (THP) (Also Known as Uromodulin). .... 11

General Pathology of Renal Structures. .... 12

    Glomeruli ..... 12

    Tubules ..... 13

    Interstitialium. .... 14

Pathogenic Mechanisms in Renal Diseases ..... 15

    Glomerular ..... 15

    Tubular and Interstitial Injury ..... 16

    Vasculature. .... 16

References. .... 17

**Part II Glomerular Diseases with Nephrotic Syndrome Presentations**

**2 Membranous Nephropathy** ..... 21

Introduction/Clinical Setting ..... 21

Pathologic Findings ..... 22

    Light Microscopy ..... 22

    Immunofluorescence Microscopy ..... 23

    Electron Microscopy ..... 24

Etiology/Pathogenesis. .... 26

Clinicopathologic Correlations ..... 27

References. .... 28

**3 Membranoproliferative Glomerulonephritis  
and C3 Glomerulopathy** ..... 31

Introduction/Clinical Setting ..... 31

Pathologic Findings ..... 32

Light Microscopy . . . . .	32
Immunofluorescence Microscopy . . . . .	34
Electron Microscopy . . . . .	36
Etiology/Pathogenesis . . . . .	39
Clinicopathologic Correlations . . . . .	41
References . . . . .	42
<b>4 Minimal Change Disease and Focal Segmental Glomerulosclerosis . . . . .</b>	<b>45</b>
Introduction/Clinical Setting . . . . .	45
Pathologic Features . . . . .	45
Etiology/Pathogenesis . . . . .	50
Clinicopathologic Correlations . . . . .	52
Secondary and Other Variant Forms of Focal Segmental Glomerulosclerosis . . . . .	54
C1q Nephropathy . . . . .	54
Secondary Focal Segmental Glomerulosclerosis . . . . .	55
References . . . . .	55
<b>Part III Glomerular Disease with Nephritic Syndrome Presentations</b>	
<b>5 Postinfectious Glomerulonephritis . . . . .</b>	<b>61</b>
Introduction/Clinical Setting . . . . .	61
Pathologic Findings . . . . .	62
Light Microscopy . . . . .	62
Immunofluorescence Microscopy . . . . .	64
Electron Microscopy . . . . .	65
Etiology/Pathogenesis . . . . .	66
Clinicopathologic Correlations . . . . .	67
References . . . . .	67
<b>6 IgA Nephropathy and IgA Vasculitis (Henoch-Schönlein Purpura) . . . . .</b>	<b>69</b>
Introduction/Clinical Setting . . . . .	69
Pathologic Findings . . . . .	69
Light Microscopy . . . . .	69
Immunofluorescence Microscopy . . . . .	72
Electron Microscopy . . . . .	73
Etiology/Pathogenesis . . . . .	74
Clinicopathologic Correlations . . . . .	75
References . . . . .	76
<b>7 Thin Basement Membranes and Alport Syndrome . . . . .</b>	<b>79</b>
Alport Syndrome . . . . .	79
Introduction/Clinical Setting . . . . .	79
Pathologic Findings . . . . .	80
Etiology/Pathogenesis . . . . .	81

Thin Basement Membranes . . . . .	82
Introduction/Clinical Setting . . . . .	82
Pathologic Findings . . . . .	83
Etiology/Pathogenesis . . . . .	84
References . . . . .	84

## Part IV Systemic Diseases Affecting the Kidney

<b>8 Lupus Nephritis.</b> . . . . .	89
Introduction/Clinical Setting . . . . .	89
Pathologic Findings . . . . .	91
Light Microscopy, Immunofluorescence, and Electron Microscopy . . . . .	91
Additional Challenges . . . . .	100
Etiology/Pathogenesis . . . . .	101
Clinicopathologic Correlations . . . . .	102
References . . . . .	103
<b>9 Crescentic Glomerulonephritis and Vasculitis.</b> . . . . .	107
Introduction/Clinical Setting . . . . .	107
Anti-Glomerular Basement Membrane Disease . . . . .	109
Pathologic Findings . . . . .	109
Pauci-immune and ANCA Glomerulonephritis and Vasculitis . . . . .	112
Introduction/Clinical Setting . . . . .	112
Pathologic Findings . . . . .	112
Etiology/Pathogenesis . . . . .	116
Clinicopathologic Correlations . . . . .	116
Polyarteritis Nodosa . . . . .	117
Introduction/Clinical Setting . . . . .	117
Pathologic Findings . . . . .	117
Kawasaki Disease . . . . .	118
Large-Vessel Vasculitis . . . . .	119
Introduction/Clinical Setting . . . . .	119
Pathologic Findings . . . . .	119
References . . . . .	120

## Part V Vascular Diseases

<b>10 Nephrosclerosis and Hypertension</b> . . . . .	125
Arterionephrosclerosis . . . . .	125
Introduction/Clinical Setting . . . . .	125
Pathologic Findings . . . . .	126
Cholesterol Emboli . . . . .	129
Introduction/Clinical Setting . . . . .	129

Pathologic Findings . . . . .	129
Scleroderma (Progressive Systemic Sclerosis) . . . . .	130
Introduction/Clinical Setting . . . . .	130
Pathologic Findings . . . . .	130
References . . . . .	132
<b>11 Thrombotic Microangiopathies . . . . .</b>	<b>135</b>
Introduction/Clinical Setting . . . . .	135
Pathologic Findings . . . . .	135
Light Microscopy . . . . .	135
Immunofluorescence Microscopy . . . . .	137
Electron Microscopy . . . . .	137
Etiology/Pathogenesis . . . . .	138
Clinicopathologic Correlations . . . . .	140
References . . . . .	141
<b>12 Diabetic Nephropathy . . . . .</b>	<b>143</b>
Introduction/Clinical Setting . . . . .	143
Pathologic Findings . . . . .	143
Light Microscopy . . . . .	143
Immunofluorescence Microscopy . . . . .	147
Electron Microscopy . . . . .	148
Pathologic Classification . . . . .	149
Etiology/Pathogenesis . . . . .	150
Clinicopathologic Correlations . . . . .	151
References . . . . .	151

## **Part VI Tubulointerstitial Diseases**

<b>13 Acute Interstitial Nephritis . . . . .</b>	<b>155</b>
Introduction/Clinical Setting . . . . .	155
General Pathologic Findings . . . . .	155
Etiology/Pathogenesis . . . . .	157
Clinicopathologic Correlations . . . . .	158
References . . . . .	159
<b>14 Chronic Interstitial Nephritis . . . . .</b>	<b>161</b>
Introduction/Clinical Setting . . . . .	161
Pathologic Findings . . . . .	161
Gross Findings . . . . .	161
Light Microscopy . . . . .	162
Etiology/Pathogenesis . . . . .	163
References . . . . .	165
<b>15 Acute Tubular Necrosis . . . . .</b>	<b>167</b>
Introduction/Clinical Setting . . . . .	167
Ischemic Acute Tubular Necrosis . . . . .	167
Pathologic Findings . . . . .	167
Pathogenesis . . . . .	170
Toxic Acute Tubular Necrosis . . . . .	171

Pathologic Findings . . . . .	171
Pathogenesis . . . . .	171
References . . . . .	171

**Part VII Plasma Cell Dyscrasias and Associated Renal Diseases**

<b>16 Bence Jones Cast Nephropathy . . . . .</b>	<b>175</b>
Introduction/Clinical Setting . . . . .	175
Clinical Presentation . . . . .	175
Pathologic Findings . . . . .	176
Light Microscopy . . . . .	176
Immunohistochemistry and Electron Microscopy . . . . .	177
Pathogenesis . . . . .	177
References . . . . .	178
<b>17 Monoclonal Immunoglobulin Deposition Disease . . . . .</b>	<b>179</b>
Introduction/Clinical Setting . . . . .	179
Light-Chain-Deposition Disease/Heavy-Chain-Deposition Disease . . . . .	179
Pathologic Findings . . . . .	180
Light Microscopy . . . . .	180
Immunofluorescence Microscopy . . . . .	181
Electron Microscopy . . . . .	181
Etiology/Pathogenesis . . . . .	182
References . . . . .	182
<b>18 Amyloidosis . . . . .</b>	<b>185</b>
Introduction/Clinical Setting . . . . .	185
Pathologic Findings . . . . .	185
Light Microscopy . . . . .	185
Immunofluorescence Microscopy . . . . .	187
Electron Microscopy . . . . .	187
Etiology/Pathogenesis . . . . .	187
References . . . . .	189
<b>19 Other Diseases with Organized Deposits . . . . .</b>	<b>191</b>
Introduction . . . . .	191
Fibrillary Glomerulonephritis . . . . .	191
Clinical Setting . . . . .	191
Pathologic Findings . . . . .	191
Immunotactoid Glomerulopathy . . . . .	193
Clinical Correlations . . . . .	193
References . . . . .	194

**Part VIII Renal Transplant Pathology**

<b>20 Allograft Rejection . . . . .</b>	<b>197</b>
Acute Cellular Rejection (ACR) . . . . .	199
Clinical . . . . .	199
Pathologic Findings . . . . .	199

Pathogenesis . . . . .	202
Acute Antibody-Mediated Rejection (Acute AMR) or Acute Humoral Rejection . . . . .	203
Clinical . . . . .	203
Pathologic Findings . . . . .	203
Pathogenesis . . . . .	205
Clinicopathologic Correlations . . . . .	206
Hyperacute Rejection . . . . .	206
Late Graft Loss . . . . .	206
Introduction/Clinical Setting . . . . .	206
Chronic Antibody-Mediated Rejection (Chronic AMR) or Chronic Humoral Rejection . . . . .	207
Clinical . . . . .	207
Pathologic Findings . . . . .	208
Pathogenesis . . . . .	211
Differential Diagnosis . . . . .	212
References . . . . .	212
<b>21 Calcineurin Inhibitor Toxicity, Polyomavirus, and Recurrent Disease . . . . .</b>	<b>217</b>
Calcineurin Inhibitor Toxicity (CIT) . . . . .	217
Introduction/Clinical Setting . . . . .	217
Pathologic Findings . . . . .	217
Differential Diagnosis . . . . .	219
Polyomavirus . . . . .	220
Introduction/Clinical Setting . . . . .	220
Pathologic Findings . . . . .	220
Immunohistochemistry . . . . .	220
Electron Microscopy . . . . .	221
Pathogenesis . . . . .	222
Recurrent Renal Disease . . . . .	222
References . . . . .	223
