

Table of Contents

Editors' note	xi
Preface	xiii
Introduction	xv
List of contributors	xxi

A. ABIOTIC ASPECTS

I. ORIGINS

I.1. Formation and geological evolution A. Lavenu	3
References of chapter I	14

II. GEOMORPHOLOGY AND SEDIMENTATION

II.1. Morphology and bathymetry D. Wirrmann	16
II.2. General aspects of present-day sedimentation L.A. Rodrigo and D. Wirrmann	23
II.3. Temporal sedimentation patterns in the nearshore littoral of Lago Huiñaimarca M.W. Binford, M. Brenner and D.R. Engstrom	29
References of chapter II	38

III. PALEOHYDROLOGY

III.1. A 20,000 years paleohydrological record from Lake Titicaca D. Wirmann, J.-P. Ybert and P. Mourguiart	40
III.2. Ancient lake environments as deduced from pollen analysis J.-P. Ybert	49
References of chapter III	61

IV. CLIMATOLOGY AND HYDROLOGY

IV.1. Climatology and hydrology of the Lake Titicaca basin M.A. Roche, J. Bourges, J. Cortes and R. Mattos	63
References of chapter III	84

V. PHYSICO-CHEMISTRY

V.1. Physico-chemical properties of the water A. Ittis, J.-P. Carmouze and J. Lemoalle	89
V.2. Hydrochemical regulation of the lake and water chemistry of its inflow rivers J.-P. Carmouze, C. Arze and J. Quintanilla	98
V.3. Dissolved matter and suspended sediment loads in some inflow rivers and in the Río Desaguadero J.L. Guyot, J.-G. Wasson, J. Quintanilla and H. Calle	113
V.4. The thermal stratification regime in Lake Titicaca P.J. Richerson	120
V.5. The energy balance J.-P. Carmouze	131
V.6. Nutrients and nutrient limitation of phytoplankton W.A. Wurtsbaugh, W.F. Vincent, C.L. Vincent, H.J. Carney, P.J. Richerson and R. Alfaro Tapia	147
References of chapter V	157

B. BIOLOGICAL COMMUNITIES

VI.1. PHYTOPLANKTON

VI.1a. The diatoms	163
S. Servant-Vildary	
VI.1b. Algae: General floristic study	176
A. Iltis	
VI.1c. Phytoplankton: Quantitative aspects and populations	182
A. Iltis	
VI.1d. Patterns of planktonic primary production and algal biomass	196
P.J. Richerson, P.J. Neale, R. Alfaro Tapia, H.J. Carney, X. Lazzaro, W. Vincent and W. Wurtsbaugh	
References of chapter VI.1	218

VI.2. MACROPHYTES

VI.2a. The higher plants	223
A. Raynal-Roques	
VI.2b. Charophytes	232
M. Guerlesquin	
VI.2c. Higher plants: Distribution and biomass	241
A. Iltis and P. Mourguiart	
References of chapter VI.2	253

VI.3. ZOOPLANKTON

VI.3a. The Cladocera	254
J. Rey	
VI.3b. Zooplankton distribution in the Bolivian part of the lake	268
J. Pinto	
VI.3c. Temporal and spatial variation of zooplankton in Lago Grande	276
A.L. Pawley and P.J. Richerson	
VI.3d. Note on the feeding behaviour of zooplankton	285
C. Dejoux and A. Iltis	
References of chapter VI.3	286

VI.4. BENTHIC FAUNA

VI.4a. The Bryozoa and Coelenterata	289
C. Dejoux	

VI.4b. The Porifera: Description of a new taxon <i>Balliviaspongia wirrmanni</i> n.g. n.sp. N. Boury-Esnault and C. Volkmer-Ribeiro	295
VI.4c. The benthic oligochaetes M. Lafont and J. Juget	302
VI.4d. The Tricladida and Hirudinea C. Dejoux	307
VI.4e. The Mollusca C. Dejoux	311
VI.4f. The Ostracoda P. Mourguiart	337
VI.4g. The Amphipoda C. Dejoux	346
VI.4h. The Hydracarina C. Dejoux	357
VI.4i. The insects C. Dejoux	365
VI.4j. The benthic populations: Distribution and seasonal variations C. Dejoux	383
References of chapter VI.4	401
VI.5. FISH FAUNA	
VI.5a. Native species. The <i>Orestias</i> L. Lauzanne	405
VI.5b1. Introduced species: 1. <i>Salmo gairdneri</i> (rainbow trout) G. Loubens	420
VI.5b2. Introduced species: 2. <i>Basilichthys bonariensis</i> (the "Pejerrey") G. Loubens and F. Osorio	427
References of chapter VI.5	445
VI.6. ASSOCIATED ANIMAL COMMUNITIES	
VI.6a. The Amphibia J. Vellard	449
VI.6b. The Ophidians J. Vellard	458
VI.6c. The avifauna C. Dejoux	460
References of chapter VI.6	468

C. EXPLOITATION OF THE LAKE RESOURCES SOCIO-ECONOMIC ASPECTS AND CONTAMINATION

VII.1. ETHNOLOGY AND SOCIO-ECONOMY

VII.1a. Past and present human populations	473
T. Bouysse-Cassagne	
VII.1b. Former lake fisheries and fish fauna of the lake	495
J. Vellard	
VII.1c. Social and economic aspects of the fisheries	500
B.S. Orlove, D.P. Levieil and H.P. Treviño	
VII.1d. The socio-economic importance of macrophytes	505
D.P. Levieil and B.S. Orlove	
VII.1e. Influence of the lake on littoral agriculture	511
J. Vacher, E. Brasier de Thuy and M. Liberman	

References of chapter VII.1	519
-----------------------------	-----

VII.2. HYDROLOGICAL POTENTIAL

VII.2.a. The water resources	523
J. Bourges, J. Cortes and E. Salas	

References of chapter VII.2	537
-----------------------------	-----

VII.3. ICHTYOLOGICAL POTENTIAL

VII.3a. The fishery potential	539
H. Treviño, J. Torres Calderon and M. Roncal Gutierrez	

References of chapter VII.3	550
-----------------------------	-----

VII.4. CONTAMINATION

VII.4a. Eutrophication and pollution problems	551
T.G. Northcote	

References of chapter VII.4	560
-----------------------------	-----

Geographical and Subject Index	563
--------------------------------	-----

Taxonomic Index	567
