

CONTENTS

Meteorology and climate

- H. Flohn & S. Nicholson: Climatic fluctuations in the arid belt of the 'Old World' since the Last Glacial maximum; possible causes and future implications 3
- G. Siedler: Some implications of GATE results for Saharan dust transports across the Atlantic 23
- G. Tetzlaff & K. Wolter: Meteorological patterns and the transport of mineral dust from the North African continent 31

Indicators of climate on land

- P. Rognon: Pluvial and arid phases in the Sahara: The role of non-climatic factors 45
- D. Nahon: Soil accumulations and climatic variations in Western Sahara 63
- M. Mainguet & L. Cossus: Sand circulation in the Sahara: Geomorphological relations between the Sahara desert and its margins 69
- S.G. Fryberger: Dune forms and wind regime, Mauritania, West Africa: Implications for past climate 79
- L. Schütz & R. Jaenicke: Eolian dust from the Sahara desert 97
- K. Brunnacker: Young Pleistocene loess as an indicator for the climate in the Mediterranean area 99
- H. Hagedorn: Fluvial processes in the Sahara 115
- Y. Yair, P. Goldberg, R.B. Bryan & H. Lavee: Present and past geomorphic evidences in the development of a badlands landscape: Zin Valley, Northern Negev, Israel 125
- F.A. Street: The relative importance of climate and local hydrogeological factors in influencing lake-level fluctuations 137
- C. Sonntag, U. Thorweihe, J. Rudolph, E.P. Löhnert, Chr. Junghans, K.O. Münnich, E. Klitzsch, E.M. El Shazly &

F.M. Swailem: Isotopic identification of Saharian groundwaters, groundwater formation in the past	159

Indicators of climate in marine sediments

E. Seibold: Climate indicators in marine sediments off Northwest Africa – A critical review	175
H. Chamley: Marine clay sedimentation and climate in the Late Quaternary off North west Africa (Abstract)	189
U. Pflaumann: Variations of the surface water temperatures along the Eastern North Atlantic continental margin (Sediment surface samples, Holocene climatic optimum, and Last Glacial maximum)	191
J. Thiede: The Late Quaternary marine paleo-environments between Europe and Africa	213
M. Rossignol-Strick & D. Duzer: Late Quaternary West African climate inferred from palynology of Atlantic deep-sea cores	227
L. Diester-Haass: Upwelling and climate off Northwest Africa during the Late Quaternary	229
M. Sarnthein & B. Koopmann: Late Quaternary deep-sea record on Northwest African dust supply and wind circulation	239

Reference sections on land

H.G. Mensching: The Sahelian zone and the problems of desertification – climatic and anthropogenic causes of desert encroachment	257
H. Rohdenburg & U. Sabelberg: Northwestern Sahara margin: Terrestrial stratigraphy of the Upper Quaternary and some paleoclimatic implications	267
A. Weisrock: The littoral deposits of the Saharian Atlantic coast since 150 000 years B.P.	277
N. Petit-Maire, G. Delibrias & C. Gaven: Pleistocene lakes in the Shati area, Fezzan (27° 30'N)	289
P. Michel: The Southwestern Sahara margin: Sediments and climatic changes during the Recent Quaternary	297
W. Lauer & P. Frankenberg: Modelling of climate and plant cover in the Sahara for 5 500 B.P. and 18 000 B.P.	307
D. Klaus: Climatological aspects of the spatial and temporal variations of the Southern Sahara margin	315
F. Gasse: Late Quaternary changes in lake-levels and diatom assemblages on the Southeastern margin of the Sahara	333
H.-J. Pachur & G. Braun: The paleoclimate of the Central Sahara, Libya, and the Libyan Desert	351

N. Petit-Maire: Holocene biogeographical variations along the Northwestern African coast (28°-19°N). Palaeoclimatic implications	365
