

## Table of Contents

A. Introduction . . . . .	15
I. The Importance of Infrastructure for the Process of a Country's Economic Development . . . . .	15
1. Infrastructure and its Main Elements . . . . .	15
2. The Role of the Transport Sector for the Development of a Modern Economy . . . . .	19
II. Important Economic and Geographic Features of Tanzania Relevant for the Transport System . . . . .	25
1. Physical Features . . . . .	25
2. Population . . . . .	28
3. The Economic Structure . . . . .	29
III. Descriptive Survey of the Present Transport System . . . . .	37
1. Railways . . . . .	37
2. Roads . . . . .	38
3. Air traffic . . . . .	45
4. Shipping . . . . .	46
5. Pipelines . . . . .	48
IV. Some General Problems Concerning the Existing Transport System and its Future Development . . . . .	48
B. The Transport Sector's Role and its Problems in the Process of Tanzania's Economic Development – Particularly Regarding Roads and Road Transport . . . . .	53
I. Historical Development of the Tanzania Transport System . . . . .	53
1. Plans and Actual Development . . . . .	53
a) Plans and Actual Development During Pre-colonial Times . . . . .	53
b) Plans and Actual Development During the German Colonial Period . . . . .	56
c) Plans and Actual Development During the British Mandate Until the End of World War II . . . . .	61
d) Plans and Actual Development between World War II and Independence . . . . .	68
e) Plans and Actual Development since Independence . . . . .	76
2. Stages of the Development of the Transport System . . . . .	84
3. Consequences of the Historical Development for the Economic Structure of the Country and Reciprocal Effects Between General Economic Development and Expansion of the Transport System . . . . .	88

a) Export Orientation and Deficient Integration of the Economy	88
b) Unbalanced Regional Development . . . . .	91
c) Effects of the Close Transport Ties with the Other East-African Countries . . . . .	97
II. Vehicle Fleet, Traffic Density and Vehicle and Commodity Flow on the Tanzanian Road Network . . . . .	101
1. Past Development and the Present Situation of the Vehicle Fleet	101
a) Development of the Vehicle Fleet . . . . .	101
b) Analysis of the Present Vehicle Fleet in Regard to Types of Vehicles and Licences and in Respect to its Regional Distribution	103
c) Relationship Between Economic Growth and Expansion of the Vehicle Fleet . . . . .	108
2. Traffic Density on the Existing Road Network . . . . .	112
a) Preliminary Remarks in Respect to the Type and Quality of Existing Traffic Counts . . . . .	112
b) Average Traffic Density on the Entire Main Road System . . . . .	114
c) Trend of the Growth of Average Traffic Density . . . . .	118
d) Seasonal Fluctuations of Traffic Density and Composition of Traffic in Respect to Different Types of Vehicles . . . . .	121
e) Regional Differences of Average Traffic Density on Different Road Categories and Relationships with General Indicators of Regional Economic Development . . . . .	125
3. Vehicle and Commodity Flow on the Existing Road Network . . . . .	128
a) Analysis of Traffic in Regard to Origin/Destination and Type of Transported Commodities at some Selected Points . . . . .	128
b) Average Capacity and Load Factor of Truck and Bus Traffic . . . . .	137
c) Commodity Flow of the More Important Agricultural and Other Products on the Main Road System . . . . .	140
4. Estimate of the Total Annual Transport Volume of Road Transport and the Other Modes of Transport . . . . .	149
III. The Road Transport Industry and its Connections with other Sectors of the Transport System . . . . .	153
1. Organization and Structure of the Road Transport Industry . . . . .	153
a) Size and Structure of the Road Transport Industry . . . . .	153
b) Participation of African Transporters . . . . .	156
c) Relations Between the Road Transport Industry and the Trading Sector . . . . .	158
d) Regional Imbalances in the Provision of Road Transport Capacity . . . . .	161
e) The Special Case of the Transport Operations to and from Zambia . . . . .	164
f) Evaluation of the Adequacy of the Road Transport Industry . . . . .	166
2. Public Supervision of the Road Transport Industry and Competition with other Modes of Transport . . . . .	170
a) Historical Development of Public Licensing of the Road Transport Industry . . . . .	170
b) Present System of Road Transport Licensing . . . . .	172
c) Co-ordination of the Various Transport Modes in East Africa . . . . .	177
3. Participation of Co-operative and Parastatal Organizations in the Road Transport Industry . . . . .	185

4. Road Transport Tariffs and Financial Situation of Road Transporters . . . . .	190
a) Tariffs and Financial Situation of Bus Transport . . . . .	190
b) Tariffs and Financial Situation of Goods Transport . . . . .	192
c) Comparison with Tariffs of other Modes of Transport . . . . .	196
5. The Share of Transport Costs in the Prices of Some Selected Commodities and Different Possibilities for a Tariff Policy in the Freight Transport Sector . . . . .	198
IV. Maintenance of the Existing Road System and Planning and Evaluation of new Road Projects . . . . .	207
1. Maintenance of the Existing Road Network . . . . .	207
a) Organization, Methods and Particular Problems of Road Maintenance . . . . .	207
b) Take-over of District Roads by the Central Government and other Measures to Improve Local Roads . . . . .	216
2. The Special Role of Self-help Programmes for Maintenance and Construction of Local Roads . . . . .	218
3. Planning of the Transport Sector and Implementation of Road Construction Projects . . . . .	224
4. Evaluation of Costs and Benefits of Road Projects . . . . .	227
a) Discussion of all Conceivable Elements of Costs and Benefits . . . . .	227
b) Costs of Road Projects in Tanzania . . . . .	230
c) The most Important Quantifiable Benefits of Road Projects . . . . .	232
V. Impact of Transport Investment and Transport Development on General Economic Activities . . . . .	240
1. Impact of the Railways . . . . .	240
2. Impact of Ports and Shipping . . . . .	249
3. Impact of Roads and Road Transport . . . . .	253
a) Effects of Individual Road Projects on General Economic Activities in the Respective Adjacent Areas . . . . .	253
b) General Evaluation of the Influence of Roads and Road Transport on the Stimulation of Economic Activities . . . . .	262
4. Overall Evaluation of the Influence of the Whole Transport System on the Present Economic Structure of Tanzania . . . . .	270
VI. Presently Envisaged Expansion of the Transport System and its Likely Contribution to the Overall Development of the Country . . . . .	276
1. Plans in the Road Sector . . . . .	279
2. Plans in Regard to the other Modes of Transport . . . . .	287
a) Railways . . . . .	287
b) Air Traffic and Airports . . . . .	290
c) Shipping Services and Ports . . . . .	291
3. Likely Effects of the Planned Expansion and Improvement of the Transport Sector on the Future Economic Structure and on Economic Development of the Country . . . . .	293
C. Consequences for Future Transport Planning and Conclusions . . . . .	300
I. Consequences and Problems for Future Transport Planning and Policy . . . . .	300

II. Evaluation of the Role of the Transport Sector in the Process of Economic Development of an Agriculturally Oriented Developing Country . . . . .	307
D. Appendix of Tables . . . . .	314
E. Bibliography . . . . .	345
