

Contents

List of Abbreviations.....	V
1 Introduction	1
1.1 Cartilage reconstruction in otorhinolaryngology	1
1.2 Cartilage reconstruction in orthopedics.....	1
1.3 Cartilage tissue engineering	3
1.4 ECM scaffolds of xenogenic origin.....	4
1.5 Collagen for tissue engineering applications	5
1.5.1 Risks of collagen scaffold production from mammalian (porcine) cartilage ...	6
1.5.2 Decellularization and sterilization of mammalian cartilage.....	6
1.5.3 Marine collagen for tissue engineering applications	8
1.6 Aim of the study	9
2 Materials and Methods.....	11
2.1 Porcine and human cartilage for decellularization	11
2.2 Decellularization and sterilization of cartilage.....	11
2.3 Marine collagen scaffolds.....	13
2.4 Electron microscopy and micro-computed tomography (μ CT) analysis.....	13
2.5 Assessment of pore size in marine collagen scaffolds	13
2.6 Collagen content.....	13
2.7 Content of sulphated glycosaminoglycans.....	14
2.8 Assessment of Gal α 1,3-Gal β 1–4GlcNAc-R (α -Gal epitope).....	14
2.9 Microbiological evaluation	14
2.10 Chondrocyte isolation and culture	14
2.11 Seeding and 3D culture of chondrocytes on collagenous biomatrices.....	15
2.12 In vitro cytotoxicity assessment	15
2.13 Histological and immunohistochemical analyses.....	16
2.14 Quantitative evaluation of DNA content.....	16
2.15 Real-time PCR	16
2.16 Mechanical testing	16
2.17 Animal model.....	17
2.18 Experimental groups.....	17

2.19	Histopathological evaluation of biocompatibility	18
2.20	Statistical evaluation	18
3	Results and Discussion	19
3.1	Porcine collagen matrices fulfill major requirements for cartilage tissue engineering applications	19
3.2	In vitro assessment of marine collagen scaffolds.....	27
3.3	Animal model for nasal septum reconstruction.....	32
3.4	Marine collagen scaffolds are biocompatible and prevent nasal septum perforations	32
4	Summary	36
5	References	37
6	Acknowledgements.....	50
7	Scientific Curriculum Vitae	51
8	Publication Index	54
8.1	Peer reviewed publications	54
8.2	Patent applications.....	54
8.3	National and international meetings	55
8.4	Book chapters.....	56
8.5	Abstracts.....	56
9	Appendix	59
