LIST OF TABLES IN APPENDIX	xiv
LIST OF FIGURES IN TEXT	xv
LIST OF FIGURES IN APPENDIX	xvi
FOREWORD	xvii
ACKNOWLEDGEMENTS	xix
CHAPTER I	
INTRODUCTION AND RATIONALE	1
CHAPTER II	
SCOPE AND GENERAL METHOD	4
1. The Population of A-level Candidates	4
2. A-level Performance: the Criterion Variable	5
3. Predictor Variables	5
(a) Schools	6
(b) Home Background	10
(c) Mental Ability at Entry to Secondary School	10
(d) Sex of Pupil	12
(e) Performance at O-level	12
(f) Number of A-levels at One Sitting	12
(g) Examining Board	12
(h) Year of Examination	13

CHAPTER III	
SOME CHARACTERISTICS OF THE A-LEVEL CANDIDATES BROUGHT UNDER REVIEW	14
A. Characteristics of the Total Population of 'Academic' Candidates in 1973 in England and Wales	14
1. Proportions of Sexes	14
2. Population Values for A-level Scores	15
3. Sex Differences in Performance in the Total Popu- lation	16
4. School-type Differences	18
B. Characteristics of Candidates from Sample Schools	20
1. Total Numbers and Proportions of the Sexes	20
2. Mean A-level Score by Subject and School-type in Sample Schools	21
3. Distributions of Variables	22
(a) <i>Socio-economic Status</i>	22
(b) <i>Mental Ability</i>	22
(c) <i>Criterion Score</i>	22
CHAPTER IV	
SOME SINGLE VARIABLE CORRELATES	27
1. A-level Performance in Certain Mental Ability Groupings	27
2. A-level Performance in Different Socio-economic Groupings	33
3. Sex Differences in Performance in Sample Schools	34
CHAPTER V	
MULTIVARIATE ANALYSES	39
A. Some Preliminary Considerations	39
1. Pre-operations on Variables	39
2. Comparability of Examination Standards	40
3. Order of inclusion of predictor variables	43

B. Multiple Regression Analyses	43
1. Biology	43
2. Chemistry	46
3. Physics	48
4. Mathematics	50
5. Geography	52
6. English	54
7. History	56
8. French	58
C. Discussion	60
CHAPTER VI	
EFFECTS OF VARYING THE COMPOSITION OF THE SAMPLE	64
1. Analyses of Data Excluding Schools Taking London Board Examinations	64
2. Analyses of Data from Schools Taking Joint Matriculation Board Examinations	65
3. Analyses of Data from Sample Excluding Certain Schools	74
4. Conclusions Drawn from the Results of Varying the Composition of the Sample	74
CHAPTER VII	
FURTHER ANALYSES	79
1. Prediction from O-level to A-level	79
2. Performance of Candidates Taking Two A-levels Compared with those Taking Three or More A-levels	84
CHAPTER VIII	
SUMMARY	88
APPENDIX	
NOTES ON STATISTICAL METHODS	91
A. Method of Estimating Scholastic Ability at 11	91

B. Multivariate Methods	95
1. Canonical Analysis	95
2. Dummy Variables	96
3. Multiple Regression Analyses	101
