

# Contents

<u>Preface</u>	iv
<u>Part A</u>	1
1. Introductory Problems	3
2. Acid-Base Equilibria	9
3. Homogeneous Equilibria	12
4. Heterogeneous Equilibria	15
5. Oxidation-Reduction Reactions	17
6. Electrolysis	20
7. Internal Energy and Enthalpy	22
8. Free Energy and Entropy	25
9. Conductance of Electrolyte Solutions	28
10. Kinetics	32
11. Gases and Phase Equilibria	38
<u>Answers</u>	44
<u>Part B</u>	59
Applied Problems	61
Worked Solutions	98
List of Problems	167
