Acknowledgements	VII
Information structure and syntax in old Germanic and Romance languages <i>Kristin Bech & Kristine Gunn Eide</i>	1
PART I. Information-structural categories and corpus annotation	
The theoretical foundations of givenness annotation <i>Dag Haug, Hanne Eckhoff & Eirik Welo</i>	17
Testing the theory: Information structure in Old English <i>Ann Taylor & Susan Pintzuk</i>	53
PART II. Changes on the interface between syntax and information structure	
Quantifying information structure change in English <i>Erwin R. Komen, Rosanne Hebing, Ans van Kemenade & Bettelou Los</i>	81
Tracing overlap in function in historical corpora: A case study of English object fronting and passivization <i>Gea Dreschler</i>	111
Referential properties of the full and reduced forms of the definite article in German: A diachronic survey <i>Marco Coniglio & Eva Schlachter</i>	141
The cognitive status of null subject referents in Old Norse and their Modern Norwegian counterparts <i>Kari Kinn</i>	173
PART III. Comparisons on the interface between syntax and information structure	
Word order variation in late Middle English: The effect of information structure and audience design <i>Tamás Eitler & Marit Westergaard</i>	203

Preverbal word order in Old English and Old French <i>Kristin Bech & Christine Meklenborg Salvesen</i>	233
Formal properties of event-reporting sentences in Old High German and Old French <i>Svetlana Petrova & Esther Rinke</i>	271
Subjects and objects in Germanic and Romance <i>Jan Terje Faarlund & Kristin Hagemann</i>	295
Object position and Heavy NP Shift in Old Saxon and beyond <i>George Walkden</i>	313
On the interaction between syntax, prosody and information structure: An interface approach to word order developments in Germanic <i>Roland Hinterhölzl</i>	341
Contrastivity and information structure in the old Ibero-Romance languages <i>Kristine Eide & Ioanna Sitaridou</i>	377
Index of languages	413
Databases and annotation schemes	415
Word index	417
