ACKNOWLEDGEMENTS	3
CONTENTS	5
Chapter 1. INTRODUCTION	7
Chapter 2. THE SPATIAL DIFFUSION OF INNOVATION: A REVIEW OF QUANTITATIVE THEORY	10
The Hågerstrand Theory	10
Resistance Characteristics	11
Information Flows	12
Range of Applicability	14
Random and Biased Nets	16
Biased Nets	18
Distance Bias	18
The "Island" Model	19
Acquaintance Circle Bias	19
Reflexive or Reciprocity Bias	19
Forced Field or Popularity Bias	19
A Distance Biased Net Model	20
Hågerstrand's Model and the Distance Biased Net	21
Epidemiology	23
Concepts	23
Models	25
Resume	27
Chapter 3. EXISTING THEORY APPLIED TO DIFFUSION AMONG CENTRAL PLACES	30
Recurrent Patterns	30
"Short Circuits" with the Hågerstrand Approach	33
The Role of "Market Factors" in Guiding the Diffusion	37
Resume	38
Chapter 4. A REVISED CONCEPTUALIZATION	40
Generality of the Suggested Conceptualization	41
A Mathematical Model of the Revised Conceptualization	42
Resume	48
Chapter 5. UTILITY OF THE MODEL AND SUGGESTIONS FOR ITS REFINEMENT	50
Case 1. The Completely Random Model	50
Case 2. Interjection of Information Components Recognizing "Socio-	

Structural" Bias	54
Case 3. Consideration of Adoption Not Directly Motivated by Communica- tion	60
Resume	68
Chapter 6. CRITIQUE	70
The Model	70
Overview	73
APPENDIX I. INTERPERSONAL INTERACTIONS: THE QUESTIONNAIRE AND THE DATA IT FURNISHED	78
APPENDIX II. NOTES ON IMPLEMENTATION OF THE MODEL	86
SELECTED BIBLIOGRAPHY	92
Books and monographs	92
Published papers	92
Unpublished papers	93
