

Contents

Preface	5
Contents	6
Summary	9
Introduction	11
Chapter 1 Environmental characteristics of the Mount Kenya area	12
1.1 Climate	12
1.1.1 Temperature	13
1.1.2 Precipitation	14
1.2 Vegetation	14
1.3 Physiography and geology	15
Chapter 2 Materials and methods	19
2.1 Materials	19
2.2 Methods	19
2.2.1 Office and field methods	19
2.2.2 Laboratory methods	20
Chapter 3 Soil formation	23
3.1 Weathering processes	23
3.2 Chemical composition and weathering of the parent material	23
3.3 Leaching and migration processes	25
3.3.1 Silica	25
3.3.2 Iron	27
3.4 Formation and mobility of clay minerals	28
3.4.1 X-ray diffractograms	28
3.4.2 Clay formation	30
3.4.3 Clay transport	33
3.5 Organic matter	34

Chapter 4	Pedo – ecological belts and zones of the Mount Kenya area	40
4.1	Soils and environment of the highest mountain belt	40
4.2	Soils and environment of the upper slopes	42
4.3	Soils and environment of the lower slopes	47
4.4	Soils and environment of the semi-arid area west and northwest of Mount Kenya	51
Chapter 5	Soil maps and soil classification	55
5.1	Soil maps	55
5.1.1	Soil Map of the Mount Kenya Area, 1:125 000	55
5.1.2	Reconnaissance Soil Map of the Nanyuki – Naro Moru Area, 1:100 000	57
5.2	Soil classification	57
Chapter 6	The significance of the Mount Kenya area for agriculture and forestry	59
6.1	Historical and actual land use	59
6.1.1	Settlement	59
6.1.2	Actual land use – utilization forms	59
6.1.2.1	Forestry	59
6.1.2.2	Land use on the east and the south side of the mountain	60
6.1.2.3	Land use on the north side of the mountain	62
6.1.2.4	Land use on the western footslopes of the mountain	62
6.1.2.5	Land use in the semi-arid area west and northwest of the mountain	62
6.2	Possibilities of future land use	65
6.2.1	The situation on the footslopes of the mountain	65
6.2.2	The situation in the plain west-northwest of Mount Kenya	66
6.2.2.1	Soil moisture and soil temperature	66
6.2.2.2	Agro-climatology – ecological zones	69
6.2.2.3	Soil cultivation	69
Conclusion		71
References		72
Appendix 1	Soil profiles: Site description, profile description, analytical data	75
Appendix 2	Soil Maps: Soil Map of the Mount Kenya Area (1:125 000), Reconnaissance Soil Map of the Nanyuki – Naro Moru Area (1:100 000)
