

ANNALS OF THE NEW YORK ACADEMY OF SCIENCES

VOLUME 352

December 31, 1980

**LONG-SPAN BRIDGES \***

O. H. Ammann Centennial Conference

*Editors and Conference Chairmen*

EDWARD COHEN AND BLAIR BIRDSALL

---

O. H. Ammann .....	Frontispiece
Introduction. By EDWARD COHEN .....	vii
<b>Part I. State-of-the-Art in Suspension Bridges</b>	
<i>Session Moderator: Blair Birdsall</i>	
Long-Span Suspension Bridges: A British Approach. By WILLIAM C. BROWN .....	1
Long-Span Suspension Bridges: The American Approach. By EDWARD COHEN, ALLEN M. CUSTEN, AND FRANK L. STAHL .....	27
Main Cables and Appurtenances. By A. I. ZUCKERMAN .....	41
Latest Developments on Prefabricated Parallel Wire Strand in Japan. By ICHIRO KONISHI .....	55
<b>Part II. State-of-the-Art in Cable-stayed Bridges</b>	
<i>Session Moderator: Anton Tedesko</i>	
Cable-stayed Bridges: A Current Review. By WALTER PODOLNY, JR. ....	71
Cable-stayed Steel Bridges. By GERARD F. FOX .....	87
State-of-the-Art in Cable-stayed Bridges with Concrete Deck Structure. By T. Y. LIN AND CHARLES REDFIELD .....	103
Long-Span Concrete Segmental Bridges. <i>Discussant: JEAN M. MULLER</i> ....	123
<b>Part III. Performance of Long-Span Bridge Structures</b>	
<i>Session Moderator: Honorable Anthony R. Ameruso</i>	
Performance of Long-Span Bridge Structures: The East River Bridges at New York. By BLAIR BIRDSALL .....	133
Replacement of the Upper Deck of the George Washington Bridge. By R. M. MONTI, EUGENE FASULLO, AND DANIEL M. HAHN .....	143
Performance, The Ultimate Judge. By GEORGE SCHOEPFER .....	157
The Golden Gate Bridge: Backbone of a Transit System. By FRANK L. STAHL .....	161
<b>Part IV. Fatigue, Brittle Fracture, and Stress Corrosion</b>	
<i>Session Moderator: Stanley Gordon</i>	
The Significance of Defects in Welded Long-Span Bridge Structures. By GEOFFREY R. EGAN .....	177

\* This series of papers is the result of a conference entitled Long-Span Bridges, O. H. Ammann Centennial Conference, held November 13 and 14, 1979 in New York City and sponsored by The New York Academy of Sciences.

Fatigue Cracking in Longer Span Bridges. By JOHN W. FISHER AND DENNIS R. MERTZ .....	193
Fracture Control in Welded Steel Bridges. By RICHARD ROBERTS .....	219

**Part V. Wind Forces**

*Session Moderator: Charles Scheffey*

Aerodynamic Response of Long-Span Bridges to Wind. By FU-KUEI CHANG ..	229
Catastrophic and Annoying Responses of Long-Span Bridges to Wind Action. By ROBERT H. SCANLAN AND JOSEPH W. VELLOZZI .....	247
Aerodynamic Lessons Learned from Individual Bridge Members. By CARL C. ULSTRUP .....	265

The New York Academy of Sciences believes that it has a responsibility to provide an open forum for discussion of scientific questions. The positions taken by the authors of the papers that make up this *Annal* are their own and not those of The Academy. The Academy has no intent to influence legislation by providing such forums.
