List of contributors vii

Foreword – Emanuel P. Rivers xi

Abbreviations list xiii

Section 1 – Surgery and Critical Care: Epidemiology and Public Health Approach

- 1 **Patient outcome following major surgery** 1
Elisa Kam and Rupert Pearse
- 2 **Statistical methods in hemodynamic
research** 8
Yannick Le Manach and Gary Colins
- 3 **New trends in perioperative medicine** 14
Gautam Kumar, David Walker, and
Michael Mythen
- 4 **The surgical home: a paradigm shift toward
perioperative practice** 24
Shermeen B. Vakharia, Zeev N. Kain, and Leslie
M. Garson

Section 2 – Cardiovascular Physiology Applied to the Perioperative and Critical Care Settings

- 5 **Overview of the circulation** 29
Michael R. Pinsky
- 6 **Cardiac function and myocardial
perfusion** 39
Jason H. Chua, Rudolph Nguyen, and
Aman Mahajan
- 7 **Blood pressure regulation** 47
Sheldon Magder
- 8 **Microcirculation and mitochondrial
dysfunction** 56
Daniel De Backer and Diego Orbeago Cortes

- 9 **Hemoglobin function and patient blood
management** 62
Aryeh Shander, Faraz Syed, and Mazyar
Javidroozi
- 10 **A rational approach to fluid and volume
management** 74
Daniel Chappell and Matthias Jacob
- 11 **Vasopressors and inotropes** 85
Robert H. Thiele and James M. Isbell
- 12 **Cardiovascular physiology applied to critical
care and anesthesia** 95
Nils Siegenthaler and Karim Bendjelid

Section 3 – Hemodynamic Monitoring in the Perioperative Environment

- 13 **Integrative approach for hemodynamic
monitoring** 107
Christoph K. Hofer, Steffen Rex, and Michael
T. Ganter
- 14 **Evaluation of a cardiac output monitor** 120
Lester A. H. Critchley
- 15 **Invasive hemodynamic monitoring
systems** 132
Paul E. Marik
- 16 **Semi-invasive and non-invasive hemodynamic
monitoring systems** 146
Cédric Carrié, Mathieu Sérié, and Matthieu Biais
- 17 **Mean systemic pressure monitoring** 157
Michael R. Pinsky
- 18 **Fluid responsiveness assessment** 163
Xavier Monnet and Jean-Louis Teboul

- 19 **Non-invasive and continuous arterial pressure monitoring** 171
Berthold Bein and Christoph Ilies
- 20 **Monitoring the microcirculation** 180
Daniel De Backer and Katia Donadello
- 21 **ScvO₂ monitoring** 186
Alice Carter and Rupert Pearse
- Section 4 – Goal Directed Hemodynamic Optimization**
- 22 **Goal directed therapy in the intensive care and emergency settings: what is the evidence?** 191
Joseph Meltzer
- 23 **Goal directed therapy in the perioperative setting: what is the evidence?** 197
Eric Edison and Andrew Rhodes
- 24 **Endpoints of goal directed therapy in the OR and in the ICU** 203
Nathan H. Waldron, Timothy E. Miller, and Tong J. Gan
- 25 **What is a fluid challenge and how to perform it?** 213
Maurizio Cecconi and Hollman D. Aya
- 26 **The relationship between anesthesia, hemodynamics and outcome** 224
Tom Abbott and Gareth L. Ackland
- 27 **Goal directed fluid and hemodynamic therapy in cardiac surgical patients** 231
Byron D. Fergerson and Gerard R. Manecke Jr.
- 28 **Goal directed therapy and hemodynamic optimization in the critical care setting: practical applications and benefits** 237
Trung Vu, Davinder Ramsingh, William Wilson, and Maxime Cannesson
- 29 **Goal directed therapy at the bedside: the nurse perspective** 246
Elizabeth J. Bridges and Debra R. Metter
- 30 **A nurse anesthetist perspective: does perioperative goal directed fluid management yield better patient outcomes compared to the traditional method?** 255
Ann B. Singleton
- 31 **How to implement GDT in an institution and at the national level** 262
Timothy E. Miller and Michael Mythen
- 32 **Decision support and closed-loop systems for hemodynamic optimization and fluid management** 267
Joseph Rinehart
-
- Index* 275
