<i>List of Appendices</i>	xix
<i>Preface</i>	xxi
<i>Author Biography</i>	xxiii
1. Introduction	1
References	4
2. Evaluating the Effectiveness of Environmental Impact Assessment System in Developing Countries: The Need for an Integrated Holistic Approach	5
2.1. Introduction	5
2.2. Status of EIA Systems in Developing Countries	6
2.3. Concepts of Effective EIA Systems	8
2.4. Development of a Conceptual Framework to Evaluate EIA System	9
2.5. The Proposed Framework	14
2.6. Key Areas and Criteria for Evaluating the EIA System	15
2.7. Evaluation Criteria	17
2.8. Evolution of the EIA System in Bangladesh	18
2.9. Status of the EIA System in Bangladesh	20
2.10. Conclusion	21
Appendix	22
References	25
3. Institutional Framework of the Environmental Impact Assessment System	29
3.1. Introduction	29
3.2. Legal Arrangements for the EIA System	30
3.3. Administrative/Organizational Framework of EIA	34
3.4. EIA Process and Administrative Procedure	37
3.5. The Methodologies of Impact Identification and Assessment	39
3.6. Review of EIA Reports and Issuance of ECC	40
3.7. Penalties for Noncompliance of ECC	41

3.8. Strengths and Weaknesses of Institutional Arrangements of EIA in Bangladesh	41
3.9. Chapter Summary	51
References	52
4. The Quality of Environmental Impact Statements	53
4.1. Introduction	54
4.2. Review Package for Assessing the Quality of EISs	54
4.3. Description of Review Criteria	54
4.4. Selection of EISs	58
4.5. Assessment Procedures	58
4.6. Overall Quality of EISs in Bangladesh	60
4.7. Quality of EISs by Area	61
4.8. Factors influencing the quality of EISs	72
4.9. Conclusion	77
Appendices	77
References	82
5. Evaluating Social Impact Assessment	85
5.1. Introduction	85
5.2. Conceptualizing SIA: Origin, Evolution, and Definition	86
5.3. Institutionalizing SIA in Bangladesh	88
5.4. Performance of the Bangladesh SIA System	94
5.5. Discussion and Recommendations	103
5.6. Conclusion	106
Appendices	106
References	109
6. Evaluating Community Participation in Environmental Impact Assessment	113
6.1. Introduction and Background	114
6.2. Conceptualizing Community Participation: Origin, Definition, and Evolution	115
6.3. Community Participation in Bangladesh	118
6.4. Community Participation in EIA and SIA: Two Case Studies	121
6.5. Lessons Learnt from Bangladesh Experience	125
6.6. Conclusion	127
References	127
7. Implementation of Mitigation Measures: EIA Practice at Post-EIS Stage	129
7.1. Introduction	130
7.2. Case Study I: Khulna-Jessore Drainage Rehabilitation Project	131

7.3. Case Study II: Jamuna Multipurpose Bridge Project	143
7.4. Case Study III: Meghnaghat Power Plant Project	156
7.5. EIA Practice at Post-EIS Stage: Overall Environmental Management Performance of the Three Projects	168
7.6. Chapter Summary	169
References	169
8. Evaluating Environmental and Social Impact Assessment: Framework for Effective EIA System	171
8.1. Introduction	171
8.2. Institutional Arrangements for the EIA System in Bangladesh	172
8.3. The Quality of EISs	174
8.4. Consideration of Social Issues in Impact Assessment	176
8.5. Community Participation in EIA and SIA	177
8.6. EIA Practice at the Post-EIS Stage: Implementation of Mitigation Measures	177
8.7. Overall Status of EIA System in Bangladesh	181
8.8. Proposed Framework of an Effective EIA System	182
8.9. Conclusion to the Research Problem: An Effective EIA System in Bangladesh	184
8.10. Recommendations	184
8.11. Chapter Summary	186
References	186
Glossary of Terms	189
Index	193
