<b>1</b>	<b>Introduction .....</b>	<b>2</b>
	<i>Michael J. Fritsch</i>	
<b>1.1</b>	<b>Why a Book about NPH?.....</b>	<b>2</b>
<b>2</b>	<b>Epidemiology of Idiopathic Normal Pressure Hydrocephalus.....</b>	<b>6</b>
	<i>Michael J. Fritsch</i>	
<b>2.1</b>	<b>Epidemiologic Studies.....</b>	<b>6</b>
2.1.1	Trenkwalder et al (1995) .....	6
2.1.2	Tisell et al (2005).....	6
2.1.3	Marmarou et al (2007).....	6
2.1.4	Hiraoka et al (2008) .....	6
2.1.5	Brean and Eide (2008) .....	6
2.1.6	Brean et al (2009) .....	7
2.1.7	Tanaka et al (2009) .....	7
2.1.8	Iseki et al (2009) .....	7
2.1.9	Klassen and Ahlskog (2011).....	7
<b>2.2</b>	<b>Discussion.....</b>	<b>7</b>
<b>2.3</b>	<b>Summary.....</b>	<b>8</b>
<b>3</b>	<b>History .....</b>	<b>10</b>
	<i>Michael J. Fritsch</i>	
<b>3.1</b>	<b>Early History.....</b>	<b>10</b>
<b>3.2</b>	<b>Hydrocephalus and its Treatment in the 19th and 20th Centuries .....</b>	<b>10</b>
<b>3.3</b>	<b>Development of Modern Shunt Concepts .....</b>	<b>11</b>
<b>3.4</b>	<b>Hakim and the Discovery of Normal Pressure Hydrocephalus .....</b>	<b>12</b>
<b>3.5</b>	<b>Modern Shunt Technology and Perspectives .....</b>	<b>13</b>
<b>4</b>	<b>Clinical Characteristics and Differential Diagnosis .....</b>	<b>16</b>
	<i>Uwe Kehler</i>	
<b>4.1</b>	<b>Natural History .....</b>	<b>16</b>
<b>4.2</b>	<b>Symptoms of iNPH.....</b>	<b>16</b>
4.2.1	Main Symptoms.....	16
4.2.2	Other Symptoms .....	17
<b>4.3</b>	<b>Differential Diagnosis .....</b>	<b>18</b>
4.3.1	Secondary NPH and Chronic Obstructive Hydrocephalus.....	18
4.3.2	Parkinson Disease .....	19
4.3.3	Alzheimer Disease.....	20
4.3.4	Binswanger Disease (Subcortical Vascular Dementia).....	20
4.3.5	Brain Atrophy.....	20
4.3.6	Cervical Myelopathy .....	21
4.3.7	Lumbar Spinal Canal Stenosis .....	21
<b>4.4</b>	<b>Summary.....</b>	<b>21</b>
<b>5</b>	<b>Pathophysiology .....</b>	<b>24</b>
	<i>Johannes Lemcke, Ullrich Meier</i>	
<b>5.1</b>	<b>What Causes iNPH? Theories Proposed by the Discoverers and the Bulk Flow Theory .....</b>	<b>24</b>
<b>5.2</b>	<b>Inner Contradictions .....</b>	<b>25</b>

<b>6</b>	<b>Noninvasive Diagnostic Work-up.....</b>			<b>28</b>	
<i>Uwe Kehler</i>					
6.1	<b>Evaluation of the Patient's Medical History.....</b>	28	6.2.2	Evaluating Incontinence.....	29
			6.2.3	Neuropsychological Testing.....	29
6.2	<b>Clinical Examination.....</b>	28	6.3	<b>Summary.....</b>	33
6.2.1	Evaluating Gait Disturbance.....	28			
<b>7</b>	<b>Imaging .....</b>			<b>36</b>	
<i>Johannes Lemcke</i>					
7.1	<b>Computed Tomography .....</b>	36	7.6	<b>Multifrequency Magnetic Resonance Elastography .....</b>	39
7.2	<b>Subjective Assessment of Ventricular Size and Shape.....</b>	36	7.7	<b>Direct Postoperative Imaging.....</b>	39
7.3	<b>Indices .....</b>	36	7.8	<b>Imaging for Routine Follow-Up.....</b>	39
7.3.1	Evans Index .....	36			
7.3.2	Other Indices .....	36	7.9	<b>Native Radiography/Valve Setting.....</b>	39
7.3.3	Third Ventricle Diameter .....	37			
			7.10	<b>Using Imaging for Troubleshooting....</b>	41
7.4	<b>MRI/Phase-Contrast MRI.....</b>	38	7.10.1	Overdrainage .....	41
			7.10.2	Underdrainage.....	42
7.5	<b>Diffusion Tensor Imaging .....</b>	38			
<b>8</b>	<b>Invasive Diagnostic Work-up .....</b>			<b>46</b>	
<i>Johannes Lemcke, Ullrich Meier</i>					
8.1	<b>Intracranial Pressure Monitoring.....</b>	46	8.3	<b>CSF Tap Test .....</b>	51
8.2	<b>Lumbar Infusion Test .....</b>	46	8.4	<b>External Lumbar Drainage .....</b>	52
8.2.1	Outflow Resistance .....	47			
8.2.2	Calculation Procedure.....	48	8.5	<b>CSF and Serum Biochemical Tests .....</b>	52
8.2.3	Dynamic Infusion Test Within the Investigation Chain .....	50	8.6	<b>Diagnostic Pathway .....</b>	53
<b>9</b>	<b>Shunt and Valve Technology.....</b>			<b>58</b>	
<i>Christoph Miethke</i>					
9.1	<b>Definition .....</b>	58	9.6	<b>Ventriculoatrial Shunts .....</b>	61
9.2	<b>Types .....</b>	58	9.7	<b>Classification of Valves .....</b>	61
9.3	<b>Physical Basics .....</b>	58	9.8	<b>Adjustable Differential Pressure Valves.....</b>	64
9.4	<b>Hydrostatic Pressure .....</b>	58	9.9	<b>Hydrostatic Devices .....</b>	67
9.5	<b>Physics of Ventriculoperitoneal Shunts.....</b>	59	9.9.1	Adjustable Hydrostatic Devices.....	77

<b>10</b>	<b>Shunt and Valve Settings .....</b>				<b>86</b>
	<i>Michael J. Fritsch, Uwe Kehler, Johannes Lemcke, Ullrich Meier</i>				
10.1	<b>Shunt Settings .....</b>	86	10.2.7	<b>The "Optimal" Shunt Setting .....</b>	89
	According to M.F.				
10.2	<b>Shunt Settings .....</b>	86	10.3	<b>Shunt Settings .....</b>	89
	According to U.K.			According to U.M. and J.L.	
10.2.1	Ventriculoatrial versus Ventriculoperitoneal Shunt .....	86	10.3.1	Why Use Gravitational Valves? .....	89
10.2.2	Frontal versus Parietal/Occipital Bore Hole .....	87	10.3.2	Does Valve Opening Pressure of Hydrostatic Valves Have an Influence on the Course of the Disease? .....	90
10.2.3	Selection of Valve Opening Pressure.....	88	10.3.3	Conclusion regarding Clinical Practice .....	91
10.2.4	Should the Valve and/or the Gravitational Device be Programmable? .....	88	10.4	<b>Efficiency of Gravitational Valves .....</b>	91
10.2.5	Shunt Configuration (with or without a Cerebrospinal Fluid Reservoir) .....	88	10.4.1	Conclusion .....	92
10.2.6	Selecting Catheter Material .....	89			
<b>11</b>	<b>Surgical Technique .....</b>				<b>94</b>
	<i>Michael J. Fritsch</i>				
11.1	<b>Settings in the Operating Room.....</b>	94	11.5.1	Ventricular Catheter .....	95
			11.5.2	Valve .....	96
11.2	<b>Positioning .....</b>	94	11.5.3	Peritoneal Catheter .....	98
11.3	<b>Shaving and Disinfection .....</b>	94	11.6	<b>Alternatives to the VP Shunt .....</b>	99
11.4	<b>Draping .....</b>	94			
11.5	<b>Surgical Procedure .....</b>	95			
<b>12</b>	<b>Endoscopic Third Ventriculostomy in Normal Pressure Hydrocephalus .....</b>				<b>102</b>
	<i>Uwe Kehler</i>				
12.1	<b>Rationale for ETV in Communicating Hydrocephalus and NPH .....</b>	102	12.2.3	Surgical Technique .....	104
			12.3	<b>Complications .....</b>	106
12.1.1	ETV in Shunt Failure .....	103	12.4	<b>Outcomes .....</b>	107
12.2	<b>Technique .....</b>	103	12.5	<b>Summary .....</b>	107
12.2.1	Preoperative Planning .....	103			
12.2.2	Positioning of the Patient.....	104			
<b>13</b>	<b>Scales and Scores .....</b>				<b>110</b>
	<i>Ullrich Meier</i>				
13.1	<b>Black Grading Scale .....</b>	110	13.5	<b>NPH Recovery Rate .....</b>	111
			13.5.1	Conclusion .....	112
13.2	<b>Index for Postoperative Improvement .....</b>	110	13.6	<b>Comorbidity Index .....</b>	112
13.3	<b>Stein–Langfitt Scale .....</b>	111			
13.4	<b>Kiefer Grading Scale .....</b>	111			

<b>14</b>	<b>Follow-up Management of Idiopathic Normal Pressure Hydrocephalus.....</b>	<b>116</b>
<i>Ullrich Meier</i>		
14.1	Organizing Follow-up Examinations....	116
	14.2.2 Six Months .....	116
14.2	Follow-up Intervals .....	116
14.2.1	14.2.3 Twelve Months.....	116
	14.3 Should Follow-ups End? .....	117
<b>15</b>	<b>Complications .....</b>	<b>120</b>
<i>Michael J. Fritsch, Uwe Kehler, Johannes Lemcke, Ullrich Meier</i>		
15.1	Intraoperative Complications .....	120
	15.2.7 How Can Shunt Infections Be Avoided in iNPH? .....	125
15.2	Infections .....	121
15.2.1	15.2.8 How Can Shunt-Related Infections Be Treated? .....	126
15.2.2	Shunt Colonization .....	122
15.2.3	Shunt-Related CSF Infection/Meningitis ..	123
15.2.4	15.3 Postoperative Complications .....	128
15.2.5	Shunt-Related Peritonitis/Abdominal Abscess .....	123
15.2.6	15.3.1 Underdrainage.....	128
	15.3.2 Overdrainage .....	128
	15.4 Shunt Malfunction: Shunt Revisions ...	131
	15.4.1 When to Revise a Shunt? .....	131
	15.4.2 How to Revise a Shunt? .....	132
<b>16</b>	<b>Prognosis .....</b>	<b>142</b>
<i>Ullrich Meier.</i>		
16.1	Predictors .....	142
	16.2 Improvement of Prognosis .....	142
<b>17</b>	<b>Summary and Future Perspectives .....</b>	<b>146</b>
<i>Michael J. Fritsch</i>		
17.1	Educating Medical Personnel .....	146
	17.4 Diagnostic Tools and Prediction of Shunt Responsiveness .....	147
17.2	Educating the Public .....	146
	17.5 Shunt Technology Improvement .....	147
17.3	Role of Biomarkers .....	147
	Index .....	149
