

# Contents

<b>1 Introduction to the Complexity of Cell Surface and Tissue Matrix Glycoconjugates .....</b>	<b>1</b>
Veer P. Bhavanandan and D. Channe Gowda	
<b>2 Introduction to Cells Comprising the Nervous System .....</b>	<b>33</b>
Douglas G. Peters and James R. Connor	
<b>3 Synthesis, Processing, and Function of N-glycans in N-glycoproteins .....</b>	<b>47</b>
Erhard Bieberich	
<b>4 Synthesis of O-Linked Glycoconjugates in the Nervous System .....</b>	<b>71</b>
Jin-Ichi Inokuchi, Shinji Go, and Yoshio Hirabayashi	
<b>5 Chemistry and Function of Glycosaminoglycans in the Nervous System.....</b>	<b>89</b>
Nancy B. Schwartz and Miriam S. Domowicz	
<b>6 Use of Glycan-Targeted Antibodies/Lectins to Study the Expression/Function of Glycosyltransferases in the Nervous System.....</b>	<b>117</b>
Yasuhiko Kizuka, Kenji Kanekiyo, Shinobu Kitazume, and Naoyuki Taniguchi	
<b>7 From Mass Spectrometry-Based Glycosylation Analysis to Glycomics and Glycoproteomics .....</b>	<b>129</b>
Kay-Hooi Khoo	
<b>8 Structural Analysis of Oligosaccharides and Glycoconjugates Using NMR .....</b>	<b>165</b>
Yoshiki Yamaguchi, Takumi Yamaguchi, and Koichi Kato	
<b>9 Glycolipid and Glycoprotein Expression During Neural Development .....</b>	<b>185</b>
Robert K. Yu and Yutaka Itokazu	

<b>10</b>	<b>Gangliosides and Cell Surface Ganglioside Glycohydrolases in the Nervous System</b> .....	223
	Massimo Aureli, Maura Samarani, Valentina Murdica, Laura Mauri, Nicoletta Loberto, Rosaria Bassi, Alessandro Prinetti, and Sandro Sonnino	
<b>11</b>	<b>Role of Myelin-Associated Glycoprotein (Siglec-4a) in the Nervous System</b> .....	245
	Pablo H.H. Lopez	
<b>12</b>	<b>Role of Galactosylceramide and Sulfatide in Oligodendrocytes and CNS Myelin: Formation of a Glycosynapse</b> .....	263
	Joan M. Boggs	
<b>13</b>	<b>Glycosignaling: A General Review</b> .....	293
	Glyn Dawson	
<b>14</b>	<b>Glycosphingolipids in the Regulation of the Nervous System</b> .....	307
	Koichi Furukawa, Yusuke Ohmi, Yuki Ohkawa, Orie Tajima, and Keiko Furukawa	
<b>15</b>	<b>Glycobiology of Ion Transport in the Nervous System</b> .....	321
	Martha C. Nowycky, Gusheng Wu, and Robert W. Ledeen	
<b>16</b>	<b>O-GlcNAcylation of Neuronal Proteins: Roles in Neuronal Functions and in Neurodegeneration</b> .....	343
	Olof Lagerlöf and Gerald W. Hart	
<b>17</b>	<b>N-Glycosylation in Regulation of the Nervous System</b> .....	367
	Hilary Scott and Vladislav M. Panin	
<b>18</b>	<b>Roles of Carbohydrates in the Interaction of Pathogens with Neural Cells</b> .....	395
	Cara-Lynne Schengrund	
<b>19</b>	<b>Glycoconjugate Changes in Aging and Age-Related Diseases</b> .....	415
	Susumu Ando	
<b>20</b>	<b>Gangliosides and Glycolipids in Neurodegenerative Disorders</b> .....	449
	J.S. Schneider	
<b>21</b>	<b>Glycosidases: Inborn Errors of Glycosphingolipid Catabolism</b> .....	463
	Hisashi Ashida and Yu-Teh Li	
<b>22</b>	<b>Ganglioside Storage Diseases: On the Road to Management</b> .....	485
	Thomas N. Seyfried, Hannah E. Rockwell, Karie A. Heinecke, Douglas R. Martin, and Miguel Sena-Esteves	
<b>23</b>	<b>Dynamic Aspects of Neural Tumor Gangliosides</b> .....	501
	Stephan Ladisch and Yihui Liu	

**24 Galectins and Neuroinflammation..... 517**  
Hung-Lin Chen, Fang Liao, Teng-Nan Lin, and Fu-Tong Liu

**25 Glycoconjugates and Neuroimmunological Diseases..... 543**  
Hugh J. Willison

**Index..... 567**
