1. History and Evolution of Pigmentary Disorders in Human	1
<i>Amiya Kumar Mukhopadhyay</i>	
• History and Evolution of Pigmentary Disorders in Modern Dermatology 5	
2. Evolution of Skin Color in Human: An Anthropological Overview	7
<i>Amiya Kumar Mukhopadhyay</i>	
• Evolutionary Timeline of Human Being 7 • Evolution of Various Colors: Various Opinions, Various Theories 8 • Effect of Climate and Change of Lifestyle 8	
• Pigment and Folate Metabolism 9 • Pigment and Vitamin D 10 • Fair Sex, Fair Color and Sexual Selection 10 • Skin, Gene and Color 11 • Influence of Culture on Pigmentation 11	
3. Melanocyte	13
<i>Ravinder Kumar, Davinder Parsad</i>	
• Development of Melanocytes 14 • Melanocyte Signaling Pathways 14 • Formation of Melanosomes 15 • Melanin-producing Enzymes 16 • Melanin Synthesis 16	
• Epidermal Melanin Unit 16 • Melanosome Transfer from Melanocyte to Keratinocyte 17	
• Melanocyte Functions 18 • Extracutaneous Melanocytes 18	
4. Systemic Disorders with Cutaneous Pigmentary Alterations	22
<i>Keshavmurthy A Adya, Arun C Inamadar</i>	
• Pigmentary Derangements in Endocrine Disorders 22 • Pigmentary Derangements in Metabolic Disorders 26 • Pigmentary Derangements in Nutritional Disorders 31	
• Pigmentary Derangements in Gastrointestinal Disorders 32 • Pigmentary Derangements in Hepatobiliary Disorders 32 • Pigmentary Derangements in Pancreatic Disorders 34	
• Pigmentary Derangements in Renal Disorders 34 • Pigmentary Derangements in Cardiac Disorders 35 • Pigmentary Derangements in Disorders of the Respiratory System 35	
5. Developmental, Nevroid, Genetically Determined and Neurocutaneous Pigmentary Disorders	40
<i>Nilendu Sarma</i>	
• Hypopigmented Disorders 41 • Hyperpigmented Disorders 46	
6. Metabolic Disorders of Pigmentation	53
<i>Imran Majid</i>	
• Hypopigmentation 53 • Hyperpigmentation 55	
7. Endocrinal Pigmentary Disorders	60
<i>Raghunatha Reddy R, Shashikumar BM</i>	
• Role of Melanocortins, Acth, and Melanocortin Receptors in Melanogenesis 60	
• Addison's Disease 61 • Acromegaly 62 • Hyperthyroidism 63	
• Pheochromocytoma 63 • Diabetes Mellitus 63 • Carcinoid Syndrome 63	
• Pigmentary Changes in Pregnancy 64	
8. Chemical Occupational and Drug-induced Pigmentary Disorders	66
<i>Sanjay Ghosh, Saurav Kundu</i>	
• Chemical Occupational and Drug-induced Hypopigmentation 66 • Chemical Occupational and Drug-induced Hyperpigmentation 72	

9. Infective and Post-inflammatory Pigmentary Disorders	83
<i>Sunil Dogra, Rahul Mahajan</i>	
• Infective 83 • Pityriasis Versicolor 83 • Tinea Nigra 85 • Leprosy 85 • Post-kala-azar Dermal Leishmaniasis 86 • Treponematoses: Syphilis and Pinta 87 • Onchocerciasis 88 • Post-inflammatory 88 • Post-inflammatory Hyperpigmentation 89 • Post-inflammatory Hypopigmentation 92	
10. Neoplasms with Pigmentary Changes or Discoloration	95
<i>Prasad Kumarasinghe, Daniel Hewitt</i>	
• Hyperchromic Neoplastic Conditions 95 • Hypochromic Neoplastic Conditions 96 • Mimics of Neoplastic Dyschromic Lesions 96 • Diagnosis and Management 96 • Malignant Melanoma 96 • Pigmented Basal Cell Carcinoma 101 • Mycosis Fungoides 101 • Some Common Benign Neoplastic Conditions with Pigmentary Changes 102	
11. Nutritional Pigmentary Disorders	107
<i>Vineet Relhan, Khushboo Goel Mahajan</i>	
• Vitamin Deficiencies Associated with Pigmentary Changes 107 • Trace Elements and Skin Pigmentation 109 • Pigmentary Changes Secondary to Protein Energy Malnutrition 110 • Vitiligo and Nutrients 110 • Pigmentation Disorders due to Nutrition Excess 111 • Work-up of a Patient with Nutritional Pigmentary Disorder 111	
12. Morphological Types of Pigmentation	113
<i>Biju Vasudevan, Manas Chatterjee, Rajesh Verma</i>	
• Types of Morphological Pigmentation 113	
13. Pigmented Variants of Skin Disorders	121
<i>Biju Vasudevan, Rajesh Verma, Ruby Venugopal</i>	
• Hyperpigmented Variants 121 • Hypopigmented Variants Hypopigmented Mycosis Fungoides 126 • Other Pigmentary Variants 127	
14. Vitiligo and Melanocyte Reservoir	129
<i>Rafael Falabella, Maria I Barona</i>	
• Historical Highlights on Skin Pigmentation 130 • Concept of a Melanocyte Reservoir 130 • Hair Follicle and the Melanocyte Reservoir 131 • Melanocyte Reservoir Unrelated to Hair Follicles 133 • Leukotrichia a Depleted Melanocyte Reservoir 133	
15. Clinical, Biochemical and Immunological Aspects of Vitiligo	135
<i>Manoj Kumar Tembhre, Alpana Sharma, Rehan Khan, Somesh Gupta</i>	
• Clinical Aspects of Vitiligo 135 • Pathogenesis of Vitiligo 136 • Biochemical Theory of Vitiligo 136 • Immunological Aspects of Vitiligo: Role of Autoimmunity 137	
16. Measuring Disease Severity in Vitiligo	141
<i>Vishal Gupta, M Ramam</i>	
• Measures of Extent of Skin Involvement and Intensity of Depigmentation 141 • Measures of Disease Activity/Progression of Disease/Disease Stability 145 • Measures of the Potential for Repigmentation 147 • Disfigurement 148 • Psychosocial Impact of Vitiligo 148 • Generic Quality of Life Instruments 149 • Dermatology Quality of Life Instruments 150 • Vitiligo Specific Quality of Life Instruments 152	
17. Epidemiology of Vitiligo	157
<i>Iffat Hassan, Parvaiz Rather</i>	
• Associations of Vitiligo 159	

18. Classification of Vitiligo	161
<i>Tarun Narang, Davinder Parsad</i>	
19. Segmental Vitiligo	167
<i>Binod K Khaitan, Sushruta Kathuria, Priyanka</i>	
• Epidemiology 167 • Pathogenesis 167 • Clinical Features 171	
• Differences between Segmental and Non-segmental Vitiligo 174	
• Diagnosis 175 • Differential Diagnosis 175 • Management 176	
20. Vitiligo in Children	181
<i>Sandipan Dhar, Raghubir Banerjee, Rajib Malakar</i>	
• Etiopathogenesis 181 • Classification 181 • Clinical Manifestations 182	
• Associated Conditions 182 • Prognosis and Outcome 183 • Management 183	
21. Concept of Stability of Vitiligo	186
<i>Koushik Lahiri, Subrata Malakar</i>	
• Period of Stability 186 • Area Based Variable Status of Stability 187 • Assessment of Stability 187 • How Stable is Stability? 189 • Understanding Stability from Within 190	
22. Phototherapy in Vitiligo	194
<i>Prescilia N Isedeh, Iltefat Hamzavi</i>	
• Psoralen Plus Ultraviolet A Therapy 194 • Narrowband Ultraviolet B 195	
• Targeted Phototherapy 196 • Adjuvant Therapy with Phototherapy 197	
• Phototherapy in Children 197	
23. Medical Management of Vitiligo	201
<i>Torello Lotti, Angelo Massimiliano D'Erme</i>	
• Classification of Vitiligo 201 • Clinical Management 201 • Therapeutical Management 202	
• Medical Treatment 202 • Management Algorithm 203	
24. Oral and Systemic Corticosteroids in Management of Vitiligo	205
<i>Binod K Khaitan, Sushruta Kathuria</i>	
• Structure and Classification of Systemic Corticosteroids 206	
• Mechanism of Action of Corticosteroids in Vitiligo 207	
• Efficacy of Corticosteroids in Vitiligo 209	
25. Topical Treatment of Vitiligo: New Insights, New Trends	213
<i>Ahmad Reza Hossani-Madani, Rebat M Halder</i>	
• Topical Treatment of Vitiligo 213	
26. Alternative Treatment for Vitiligo	223
<i>Torello Lotti, Angelo Massimiliano D'Erme</i>	
• Antioxidant 223 • L-Phenylalanine 224 • Khellin 224	
• Homeopathy and Ayurvedic Medicine 224 • Psychotherapy 225	
• Climatological and Balneological Therapies 225	
27. Surgical Management of Vitiligo	227
<i>T Salim</i>	
• Principle of Surgical Treatments 227 • Indications for Surgery and Patient Selection 228 • Contraindications 228 • Preoperative Counseling 228	
• Methods of Surgery 229 • Approach to Surgical Management of Vitiligo 238	

- 28. Autologous Mini Punch Grafting in Vitiligo** 241
Koushik Lahiri
• Historical Perspective 241 • Punch Instrument 241 • Evolution of Mini Punch Grafting 242 • Test Grafting 243 • Procedure of Minigrafting 243 • Follow-up and Course of Events 245 • Complications 245 • Analysis of Special Features 245
- 29. Meshed Split Skin Graft for Extensive Vitiligo** 251
CR Srinivas, Reena Rai
• Technique 251 • Procedure 251
- 30. Therapeutic Guidelines in Vitiligo** 253
Shyamanta Barua
• Topical Therapy 253 • Systemic Therapy 255 • Phototherapy 256
• Surgery 259 • Miscellaneous Therapy 261 • Other Interventions 262
- 31. Pigmentary Changes in Pregnancy** 270
M Sendhil Kumaran, Amrinder Jit Kanwar
• Pathogenesis 270 • Melasma 272
- 32. Quality of Life in Pigmentary Disorders** 274
Sudhir Nayak UK, Smitha Prabhu, Shrutakirthi D Shenoi
• Quality of Life in Disorders of Hyperpigmentation 274 • Other Related QoL Indices 275
• Quality of Life in Disorders of Depigmentation 275 • Stigmatization in Vitiligo 276
• Psychological and Psychiatric Co-morbidity 276 • Stress Precipitating Vitiligo 276
• Psychosocial Assessment Scales 276 • Vitiligo Specific Scales 276 • Predictors of Increased Severity in Various Scales 276 • Quality of Life in Children and Adolescents with Vitiligo 277 • Effectiveness of Therapeutic Interventions in QoL in Vitiligo Patients 277
• Routine Psychological Assessment in Vitiligo 277 • Overcoming Quality of Life Issues in Vitiligo 277 • Limitations of QoL Studies 277
- 33. Epidemiology of Melasma** 280
Sanjay K Rathi, Paschal D'Souza
- 34. Etiopathogenesis of Melasma** 282
Hee Young Kang
• Sun Exposure and Melasma 282 • Role of Dermal Factors in the Development of Melasma 283 • Basement Membrane Perspective 284 • Transcriptomics of Melasma 285
- 35. Histopathological Evaluation of Melasma and Other Facial Hyperchromias** 287
Asha Kubba, Meenakshi Batrani
• Definition of Terms 287 • Hyperchromia and Hyperpigmentation 287
• Facial Hyperchromia 288 • Melasma 288 • Differential Diagnosis of Melasma 290 • Practical Approach in Diagnosing Facial Hyperchromia 296
- 36. Update Scoring Methods and Non-invasive Measurement Methods in Melasma (Reliability Assessment and Validation of the Melasma Area and Severity Index and a New Modified MASI Scoring Method)** 299
Jean-Paul Ortonne
• Melasma Area and Severity Index 299 • Measuring the Impact of Melasma 300
• Reflectance Confocal Microscopy for Pigmentary Disorders 302 • Visualization

of Melanin and Melanocytes by Reflectance Confocal Microscopy 303	• <i>In Vivo</i>	
Reflectance Confocal Microscopy Detects Pigmentary Changes in Melasma at a Cellular Level Resolution 304	• Histological Classification of Melasma with Reflectance Confocal Microscopy: A Pilot Study in Chinese Patients 309	
37. Cutaneous Biophysical Characteristics of Melasma		314
<i>Jean-Paul Ortonne</i>		
• Defective Barrier Function in Melasma Skin 314	• Material and Methods 314	
• Melanin Index and Erythema Index 314	• Basal Stratum Corneum Properties 315	
• Sebum Content 315	• Sebum Content Thickness and Expression of Ppar-A and Alox15b 315	• Discussion 315
38. Defective Importance of Pendulous Melanocytes in Melasma		318
<i>Jean-Paul Ortonne</i>		
• Does Altered Basement Membrane of Melasma Lesions Affects Treatment Outcome in the Skin? 318	• Pendulous Melanocytes: A Characteristic Feature of Melasma and How it Occurred 320	
39. Classification and Clinical Features of Melasma		323
<i>Kiran Godse, Shweta Agarwal</i>		
• Clinical Features 323	• Classification 323	
40. Medical Management of Melasma		326
<i>Rashmi Sarkar, Shivani Bansal</i>		
• Hydroquinone 327	• Retinoids 327	• Topical Steroids 327
• Triple Combination Therapy 327	• Other Retinoids 328	• Kojic Acid 328
• Azelaic Acid 328	• Glycolic Acid 328	• Arbutin 329
• Other Agents 329		
41. Photoprotection for Melasma		333
<i>Narendra Gokhale</i>		
• Electromagnetic Radiation 333	• Photoprotection 334	• Sunscreens 334
• Protective Clothing 338		
42. Chemical Peeling for Melasma		340
<i>Annyce Treherne, Valerie D Callender</i>		
• Chemical Peels 340	• Technique 342	• Post-peel Instructions 343
43. Cosmetics, Cosmeceuticals and Camouflage for the Treatment of Melasma		345
<i>Vic A Narurkar</i>		
• Non-hydroquinone Prescription Agents 345	• Cosmeceutical Agents 345	
• Energy Based Devices 346	• Chemical Peeling 347	• Combination Treatments 347
• Camouflage Treatments 347		
44. Recent Trends and Future Treatment Paradigms of Melasma Based on Current Understanding of Pathophysiology		349
<i>Saumya Panda</i>		
• The Old Classification Scheme is not Valid 349	• Is there a True Dermal Melasma? 350	
• Role of Epidermal Melanin in Melasma 350	• Hyperactive Melanocytes 351	
• Pendulous Melanocytes and Spectrum of Radiation Responsible in Melasma 351		
• Defective Barrier Function in Melasma Skin 352	• Dermal-epidermal Interaction and Paracrine Regulation 353	• Role of Vascular Endothelium 354
• Endocrine Correlates of Melasma 354	• Depigmenting Agents with Novel Mechanisms of Action 355	

45. Exogenous Ochronosis	361
<i>Vijay Zawar, SK Tan</i>	
• Historical Aspects 362 • Epidemiological Aspects 362 • Predisposing Factors 362 • Clinical Features and Staging 362 • Diagnosis 363 • Treatment of Exogenous Ochronosis 364	
46. Periocular Pigmentation	366
<i>Manas Chatterjee</i>	
• Epidemiology 366 • History 367 • Etiology and Diagnostic Considerations 367 • Treatment 373	
47. Physical Therapies for Periorbital Hyperpigmentation, Chemical Peels and Lasers	377
<i>Bhavesh Shantilal Devani</i>	
• Prevalence 377	
48. Progressive Macular Hypomelanosis	383
<i>Prasad Kumarasinghe, Steven Thng</i>	
• History 383 • Epidemiology 383 • Clinical Features 384 • Differential Diagnoses and Pitfalls in Diagnosis 385 • Relevant Investigations 385 • Diagnosis 385 • Microscopy and Electron Microscopy 385 • Etiology 386 • Management 387 • Future Directions 388	
49. Non-melasma Facial Melanoses	390
<i>Gautam Kumar Singh</i>	
• Well-defined Facial Melanoses 390 • Acquired Melanoses which also Involve Face 394 • Miscellaneous 396 • Management of Non-melasma Facial Melanosis 397	
50. Pigmentary Abnormalities of Nail	403
<i>Archana Singal, Namrata Chhabra</i>	
• Melanonychia 403 • Leukonychia (White Nail) 407 • Splinter Hemorrhages 410 • Yellow Nail 410 • Greenish-black Discoloration 410 • Abnormality in Color of Lunula 410	
51. Macular Amyloidosis	412
<i>Latika Arya</i>	
• Epidemiology 412 • Pathogenesis 412 • Etiological Factors 413 • Pathology 414 • Dermoscopy 414 • Clinical Features 415 • Treatment 416	
52. Lichen Planus Pigmentosus	421
<i>M Sendhil Kumaran, Amrinder Jit Kanwar</i>	
• Epidemiology 421 • Pathogenesis 421 • Risk Factors 422 • Clinical Features 422 • Investigations 423 • Treatment 424 • Conclusion 425 • Course of Disease 425	
53. Maturation Hyperpigmentation	427
<i>Sidharth Sonthalia, Rashmi Sarkar</i>	
• Historical Aspects 427 • Indian Scenario 428 • Histopathology 429 • Differential Diagnosis 429 • Conclusion 429 • Future Approach 429
