1	Introduction	1
	Omar Carlo Gioacchino Gelo, Alfred Pritz, and Bernd Rieken	
Part I Foundations of Psychotherapy Research		
2	The Prehistory of Psychotherapy and Its Implications for Psychotherapy Science: Shamanism, Folk Medicine, Philosophy, and Religion	9
	Bernd Rieken	
3	Historical Paths in Psychotherapy Research	39
	Diana Braakmann	
4	The Philosophy of Psychotherapy Science: Mainstream and Alternative Views	67
	Bernd Rieken and Omar Carlo Gioacchino Gelo	
5	Psychotherapia Academica Universitatis: A Philosophical Argument for the Academic Discipline of Psychotherapy	93
	Kurt Greiner	
6	Interpretation as a Cognitive Instrument: Psychotherapy Science as an Attempt to Pool Paradigm-Based Systems of Interpretation	117
	Thomas Stephenson	
7	Institutional Parameters of Psychotherapy Education as a Prerequisite for Systematic Psychotherapy Research	149
	Alfred Pritz	
8	Theory Building, Enriching, and Fact Gathering: Alternative Purposes of Psychotherapy Research	159
	William B. Stiles	
Part II Psychotherapy Process Research		
9	Introduction to Psychotherapy Process Research	183
	Gillian E. Hardy and Sue Llewelyn	

10	Outlines of a General Theory of the Psychotherapy Process. The Clinical Exchange as Communicational Field: Theoretical Considerations and Methodological Implications	195
	Sergio Salvatore and Alessandro Gennaro	
11	The Relationship: How It Works	213
	Stephanie L. Budge and Bruce E. Wampold	
12	Quantitative Data Analysis in Psychotherapy Process Research: Structures and Procedures	229
	Dan Pokorny	
13	Quantitative Approaches to Treatment Process, Change Process, and Process-Outcome Research	247
	Omar Carlo Gioacchino Gelo and Stefano Manzo	
14	Current Issues on Group Psychotherapy Research: An Overview	279
	Gianluca Lo Coco, Salvatore Gullo, Claudia Prestano, and Gary M. Burlingame	
15	The Process of Change in Psychotherapy: Common and Unique Factors	293
	Andrew A. McAleavey and Louis G. Castonguay	
16	Therapeutic Alliance and Alliance Ruptures and Resolutions: Theoretical Definitions, Assessment Issues, and Research Findings	311
	Vittorio Lingiardi and Antonello Colli	
17	Positive Emotions in Psychotherapy: Conceptual Propositions and Research Challenges	331
	A. Stalikas, M. Fitzpatrick, P. Mistkidou, A. Boutri, and C. Seryianni	
18	Psychotherapeutic Process from the Psychotherapist's Perspective	351
	Thomas Schröder, David Orlinsky, Michael Helge Rønnestad, and Ulrike Willutzki	
19	From a Psychoanalytic Narrative Case Study to Quantitative Single-Case Research	367
	Horst Kächele, Cornelia Albani, and Dan Pokorny	
20	Qualitative Methods in Psychotherapy Process Research	381
	Kathrin Mörtl and Omar Carlo Gioacchino Gelo	
21	Applications of Qualitative and Mixed-Methods Counseling and Psychotherapy Research	429
	David L. Rennie and Jörg Frommer	

22 Interpretation-Driven Guidelines for Designing and Evaluating Grounded Theory Research: A Constructivist-Social Justice Approach	455
Heidi M. Levitt	
23 Consensual Qualitative Research (CQR): Methods for Conducting Psychotherapy Research	485
Clara E. Hill	
24 Conversation Analysis and Psychotherapy Process Research	501
Anna Madill	
25 A Pragmatic Approach to the Study of Therapeutic Interaction: Toward an Observational Science of Psychotherapy Process	517
Georgia Lepper	
Part III Psychotherapy Outcome Research	
26 Quantitative Psychotherapy Outcome Research: Methodological Issues	537
Christian Gold	
27 Qualitative Methods in Psychotherapy Outcome Research	559
Brian Rodgers and Robert Elliott	
28 Outcome Research on Disorder-Specific Treatments: The Case of Grief Therapy	579
Robert A. Neimeyer and Joseph M. Currier	
29 Outcome Research: Methods for Improving Outcome in Routine Care	593
Michael J. Lambert	
30 Psychotherapy Outcome Research and Neuroimaging	611
Roberto Viviani, Magdalena Nagl, and Anna Buchheim	
Index	635
