

General Introduction	1
PART I. Coding Data—by Design	13
CHAPTER 1. Coding Survey Data	21
CHAPTER 2. Coding Interview Data	40
CHAPTER 3. Coding Experimental Data	64
CHAPTER 4. Coding Data from Naturalistic and Participant Observations	104
CHAPTER 5. Coding Archival Data: Literature Reviews, Big Data, and New Media	138
PART II. Analysis and Interpretation of Quantitative Data	195
CHAPTER 6. Describing, Exploring, and Visualizing Your Data	205
CHAPTER 7. What Methods of Statistical Inference to Use When	240
CHAPTER 8. What Associational Statistics to Use When	283
CHAPTER 9. Advanced Associational Methods	325

CHAPTER 10. Model Building and Selection	347
PART III. Analysis and Interpretation of Qualitative and Combined/Mixed Data	365
CHAPTER 11. Inductive Analysis of Qualitative Data: Ethnographic Approaches and Grounded Theory	373
CHAPTER 12. Deductive Analyses of Qualitative Data: Comparative Case Studies and Qualitative Comparative Analysis	400
CHAPTER 13. Coding and Analyzing Data from Combined and Mixed Designs	427
CHAPTER 14. Conclusion: Common Themes and Diverse Choices	441
References	461
