

# Table of contents

Preface	ix
<i>Water and hydraulic engineering</i>	
Water purification system design for man-made lake based on the source water quality <i>A.J. You, Q.N. Jin &amp; Z.C. Han</i>	3
A study on the application of a cooling water physical model <i>Z.Q. Li &amp; W.T. Lei</i>	9
Study on priority control line optimization method on Hu Nanzhen Reservoir operation curve <i>S.-W. Wang, H.-L. Wang &amp; J.-H. Wen</i>	15
Using the linearized calibration method for parameter calibration of Xin'anjiang model <i>L.P. Zhao &amp; W.M. Bao</i>	23
Bearing behavior research on steel lined reinforced concrete penstocks based on the CDP model <i>H. Wu &amp; H. Ran</i>	33
Study on <i>Zizania latifolia</i> wetland in agricultural non-point source pollution control of hill region paddy field <i>H.B. Xu &amp; K.P. Xu</i>	41
Study on flow's wave velocity of the Beijing-Shijiazhuang section on the Mid-route of South-to-North Water Transfer Project <i>J. Tian &amp; Y. Zhu</i>	47
Study on hydrodynamic characteristics of Shuangjian Shoal protection engineering <i>J. She, Y. Xia, D. Du, Y. Wen &amp; H. Xu</i>	53
Analysis of sludge drying technology <i>W. Wei, H. Xiang, H. Zou &amp; X. Du</i>	61
The application of thermophilic bacteria in the sludge bio-drying experiment <i>H. Zou, Y. Zhang, H. Tang &amp; Y. Xie</i>	67
Pollutant source analysis and identification of prior control areas of Laixi River Basin in Lu County based on SWAT <i>B.Q. Wu, X.D. Li, H.B. Zhang, X. Liu, X.X. Wang, L. Zhou &amp; M. Ke</i>	73
Runoff prediction using distributed Xinanjiang model <i>L. Zhu, Y. Wang, X. Huang &amp; F. Zhang</i>	79
The analysis and comparison of soil dielectric constant-water content models <i>Z. Zeng, H. Lu, Y. Zhao &amp; H. Liu</i>	85
A smart irrigation decision support system based on cloud <i>F. Zhu, P. Zhong, C. Mao, Q. Zheng &amp; X. Lv</i>	91

Using crop water productivity to agricultural irrigation water in Zhangye <i>L. C. Wang &amp; S.J. Yan</i>	97
Research on characteristics of SBBR treating Monosodium Glutamate Wastewater <i>Z.G. He, S. Y. Jia, M. Zheng, Z.X. Peng &amp; Q. Xie</i>	105
Numerical investigation of the lift force on bubble <i>L. Xu, Y. Xue, Y. Gong &amp; G. Chen</i>	115
Effects of close double-parallel bridges on flooding <i>X.-F. Zhang, W.-G. Luo, X. Liu &amp; W.-X. Cai</i>	121
Effect of the evolution of river-lake relation on the water environmental capacity of the outlet reach of Xiangjiang River <i>X. Wang, C.H. Sun &amp; Y.Y. Wang</i>	127
 <i>Environmental and civil engineering</i>	
Improving public satisfaction on urban bus service: Lessons learned from different cities of China <i>X.W. Hu, Z.J. Xie, H.L. Zhang, Z.B. Liu &amp; Y. Qu</i>	137
Study on the content of six metal elements in different forest soil in Kowloon Reservoir Area <i>H.-L. Mao, Z.-T. Sheng, Z.-H. Lin, B.-F. Wu, W.-D. Su &amp; G. Liu</i>	143
Vegetation type recognition based on decision tree <i>Z. Lin, Z. Sheng, H. Mao, Y. Jin, W. Su &amp; G. Liu</i>	149
Calculation and analysis of the monitoring results of deep foundation pit of Qifeng Park Station of Dongguan rapid rail <i>S. Lu</i>	155
Evolutional model of airflow in urban street canyon <i>S. Jin &amp; Y. Gong</i>	161
Ductility performance analyses of the semi-integral jointless bridge <i>X. Zhan, X. Shao &amp; G. Liu</i>	167
Study on ecological utilization of water in green residential community <i>Z.-X. Yuan</i>	173
Supporting design and supervision of Huitongtianxia Building's deep excavation <i>D. Peng &amp; H.-J. Li</i>	179
The effect of ridge topography on earthquake ground motion <i>Z. Zhou &amp; J. Liu</i>	187
Analysis on dynamic earth pressure of structure sidewalls of subway station based on finite element method <i>G. Zhang, W. Liao, J. Zhang &amp; Z. Zhang</i>	193
Improving social cohesion and security in residential communities in Beijing by utilising the space between tall residential buildings <i>T. Sun</i>	199
AHP-Fuzzy model for urban seismic geo-hazards risk <i>J. Ding &amp; Y. Li</i>	205
The prediction model of <i>Cotinus Cogygria</i> Leaves Discoloration day in Beijing and its application in 2012–2013 <i>D. Ding, X. Li, Z. Yin &amp; Z. Xie</i>	211

Analysis of characteristics of high temperature weather in Guilin area <i>X. Bai</i>	219
Comprehensive evaluation of city ecological environment based on fuzzy mathematics <i>X.-N. Ma &amp; J.-Y. Zhao</i>	225
<i>Energy engineering</i>	
Applying top coal caving method to extract thick coal seam <i>H. Yu &amp; Q. Liu</i>	235
Non-zero fixed pitch angle effect on performance of Darrieus rotor <i>Z. Zhao, J. Chen, T. Li, B. Xu &amp; T. Wang</i>	239
The research of tectonic transport and its control on hydrocarbon in Lingqing Depression (East) <i>Q. Chu, W. Liang, H. Li, X. Chen &amp; Z. Wu</i>	245
<i>Chemical engineering</i>	
Numerical simulation on sensitivity of gel treatment performance to physical and chemical properties <i>C. Zhao &amp; X. Zhang</i>	253
The experimental evaluation of a new crosslinked acid fracturing fluid system <i>R. He, Z.-Z. Yang, X.-G. Li, F. Chen &amp; D.-L. Teng</i>	259
Effect of fish collagen addition on physico chemical properties of restructured fish <i>H. Wen, L. Zhao, M.L. Yuan &amp; Y. Wei</i>	265
Effect of operating parameters on the performance of a new spray granulation tower <i>L. Feng, Y. Mao, J. Wang, J. Wang &amp; G. Zhang</i>	271
Computer technology imitate traditional dyeing patterns <i>S. Li &amp; J. Wang</i>	277
Experimental study on the property of deep profile control agents suitable for hyperthermia and minerized oil reservoir <i>Z. Wei, C. Dai, H. Li, Q. You &amp; K. Wang</i>	283
Thermal techniques for the recovery of heavy oil in Sudan: Current and future trends <i>X. Zhang, X. Wu, G. Zhao, R. Wang, X. Yuan &amp; Q. Zhou</i>	289
Hydroxypropyl- $\beta$ -cyclodextrin as retarding reagent in polyacrylonitrile dyeing <i>H.Q. Cai &amp; C.M. Wang</i>	295
Numerical simulation on flow and mixing of gas-solid two-phase in FCC riser feedstock injection zone by using EMMS drag model <i>S. Chen, W. Wang, Z. Yan, Y. Fan &amp; C. Lu</i>	301
Pressure distribution of a rectangular moving bed with cross-flow <i>W.Y. Long, J. Xu, Y.P. Fan, C.X. Lu &amp; G. Cui</i>	309
Particles entrainment of a modified gas-solid fluidized bed <i>G. Cui, Z. Meng, W. Ma, M. Liu &amp; C. Lu</i>	315
Effects of fin shape and parameter on the flow and heat transfer performance of finned tube heat exchangers <i>J.X. Yin, J.Z. Ma, Z.M. He &amp; G.J. Wu</i>	321
Local density distribution in a new FCC feed injection scheme <i>Z.H. Yan, S. Chen, X.G. Qin, Y.P. Fan &amp; C.X. Lu</i>	327

The oxidation stability of KF/CaO catalyzed biodiesel <i>W. Wang, C.J. Shi, S. Y. Hu, L. B. Wen &amp; Y. Wang</i>	333
Solids volume fraction in different pre-lifting schemes <i>L. Zhu, Q. Shen, G. Cui, Y. Fan &amp; C. Lu</i>	341
Analysis of influence factors of the result of numerical simulation in cathodic protection <i>B. Chen &amp; J. Li</i>	347
The feasible applied experimental study on air foam drive under the high-pressure condition in heterogeneous light reservoirs <i>Y. Liu &amp; J. Mi</i>	351
 <i>Biochemical and food engineering</i>	
Medium optimization of L(+)-lactic acid production by Genome shuffled <i>Lactobacillus</i> <i>rhamonsus</i> Lc-F34 from agriculture wastes using statistical tools <i>Y. Wang, H. Yu, C. Piao, J. Liu, D. Cai, M. Zheng &amp; J. Liu</i>	359
Lipid composition and oxidation in dry-cured sausage during processing <i>L. Li</i>	367
Structural identification of flavan-3-ols and flavonoids from Litchi ( <i>Litchi chinensis</i> Sonn.) pericarp <i>X. Guan, Y. Huang, J. Liu, F. Lu, Y. Chen, X. Yan, Z. Yang, L. Wan &amp; D. Li</i>	373
The anti-obesity effect of instant Pu-erh green tea in mice with hydrogenated oil diet-induced obesity <i>M. Lian, S.D. Lv, Y.L. He, J.S. Zhou, Y.F. Jiang &amp; Q.X. Meng</i>	379
Swimming exercise and diet restriction alter the serum cholesterol of rats submitted to a high-fat diet <i>M. Yu &amp; Y. Liu</i>	385
ACE inhibitory rate of rice bran peptides separated by gel filtration chromatography <i>A. Zhai, X. Li, Z. Li &amp; D. Li</i>	391
Isolation and identification of aroma-producing yeasts in the fermented grains of Maotai-flavor liquor <i>X. Wang, B. Pang, S. Ban, X. Zhang, S. Qiu, M. Chen, A. Lu &amp; F. Liang</i>	399
Food poisoning: China still has a long way to go <i>J.-M. Cheng, L. Yang, R. Yan &amp; R. Liu</i>	405
A comparative study of wheat gluten by two pretreatments <i>S.-X. Liu &amp; X.-L. Qiao</i>	411
Comparative of in vitro antioxidant and cholesterol—lowering activities of fermented goat & cow milk <i>W.Q. Zhang, W.P. Ge, J. Yang, X.C. Xue, S.Z. Wu, Y. Chen &amp; L.H. Qin</i>	417
Effect of chitosan/nano-SiO <sub>2</sub> on superoxide anion production rate and relative enzymes of peach fruits <i>S.-S. Li, M.-L. Wang &amp; Y.-M. Wu</i>	425
Studies on dynamic changes of the physicochemical properties in rice slurry during Fermented Rice Steamed Cake (Fagao) production <i>D. Chen, Y. Shen, P. Wu, X. Li, X. Xu &amp; S. Pan</i>	431
Author index	439
