# Table of contents

Zusammenfassung: multiliteracies und e-learning2.0 ..... 13

Abstract ..... 17

1 Introduction and motivation ..... 21

1.1 Web 2.0 ..... 22
1.2 Multiliteracies framework ..... 23
1.3 CLIL ..... 24
1.4 Overview and structure of the thesis ..... 25

**I Theoretical Background** ..... 31

2 Pedagogy and Technology Enhanced Learning (TEL) ..... 33

2.1 Behaviorism and Cognitivism ..... 33
2.2 Constructivism ..... 34
2.3 E-learning ..... 37
2.4 Computer Supported Collaborative Learning ..... 43
2.5 E-learning2.0 ..... 49
2.6 Educational technology ..... 53
2.7 Summary and discussion ..... 56

**II Empirical Research** ..... 61

3 Search, collaboration and sharing in the Web ..... 63

3.1 TENCompetence: the project and the prototype ..... 65
3.2 LearnWeb2.0 (v.1): system design ..... 70
3.2.1 Conceptual overview ..... 70
3.2.2 LearnWeb2.0 architecture and implementation ..... 71
3.2.3 Comparison with existing solutions ..... 77

4 Design-based research and evaluation methodology ..... 81

4.1 Iterative evaluation-driven design-based research ..... 81
4.2 Evaluation and data collection ..... 83
4.2.1 Course setup ..... 83

digitalisiert durch DEUTSCHE NATIONAL BIBLIOTHEK

4.2.2 Data elicitation ..... 85
4.2.3 Data management and analysis ..... 89

5 First evaluation cycle: system design and usability ..... 93

5.1 First case study: CLIL (Content and Language Integrated Learning) ..... 94
5.1.1 Literacy and new literacies ..... 95
5.1.2 The Curricular Model for CLIL ..... 100
5.1.3 CLIL learning scenario ..... 103
5.1.4 CLIL course: evaluation and discussion ..... 106
5.1.5 LearnWeb2.0 integrative framework for CLIL ..... 110
5.2 Second case study: ESP (English for Specific Purposes) ..... 114
5.2.1 *Media literacy* ..... 115
5.2.2 Multimodal text-based studies of English ..... 117
5.2.3 ESP learning scenario ..... 118
5.2.4 ESP course: evaluation and discussion ..... 121
5.2.5 Integration of LearnWeb2.0 with Multimodal Web Search (MWS) ..... 124
5.2.6 Discussion ..... 127
5.3 LearnWeb2.0 (v.2): system development for CLIL ..... 130

6 Second evaluation cycle: users requirements and customisation ..... 137

6.1 First case study: learning about literature on the Web in a German school ..... 138
6.1.1 Learning scenario ..... 139
6.1.2 Results evaluation ..... 141
6.1.3 Comparison and conclusions ..... 148
6.2 Second case study: teaching resources for Young English Language Learners (YELL) ..... 149
6.2.1 YELL scenario ..... 150
6.2.2 The pilot study ..... 151
6.2.3 Feedback and evaluation ..... 154
6.3 LearnWeb2.0 (v.3): new customised features ..... 156
6.3.1 General access ..... 157
6.3.2 Search functionalities ..... 158
6.3.3 Collaboration functionalities ..... 160
6.4 Conclusions and directions for further developments ..... 166

III New Research Framework and Conclusions ..... 171

7 New research framework and refined research questions ..... 173

7.1 Multiliteracies pedagogy ..... 174
7.2 The Learning by Design framework ..... 176

8 The LearnWeb2.0 design framework – a multi-tier model ..... 181

8.1 ESP case study revisited from a multiliteracies perspective ..... 181
8.2 From Learning by Design to the LearnWeb2.0 Design framework ..... 185
8.3 Reflection on the LearnWeb2.0 contribution to multiliteracies education ..... 199

9 Conclusions and future work ..... 201

9.1 Summary of contributions ..... 202
9.2 Further work: supporting collaboration in other scenarios ..... 206
9.2.1 CLIL through collaborative audio-visual translation (CLIL-VIDEO) ..... 206
9.2.2 Functional searching and annotation system ..... 208
9.2.3 LearnWeb2.0 in collaborative research: the ACT project ..... 209
9.2.4 OER (Open Educational Resources) and educational Linked Data ..... 210
9.2.5 Technological issues and further developments ..... 211

Acronyms ..... 219

Table of Figures ..... 221

Tables ..... 223

Bibliography ..... 225
