<b>Preface</b>	<b>xi</b>
<b>1 Effective pricing: the key to realizing a product's profit potential</b>	<b>1</b>
Why pricing is often ineffective, 1      How pricing becomes effective, 4      Learning effective pricing: the plan of the book, 9      Concluding comment, 11      Notes, 12      Questions, 13	
<b>2 Costs: how should they affect your pricing decisions?</b>	<b>14</b>
Isolating the relevant costs, 15      Percent contribution margin and break-even sales analysis, 28      Covering nonincremental fixed and sunk costs, 37      Summary, 38      Notes, 39      Discussion questions, 40      Analytical questions, 41      Appendix 2A: Derivation of the break-even formula, 44      Appendix 2B: Break-even analysis of price changes, 47      Summary, 56      Analytical questions, 56	

<b>3 Price sensitivity: the key to effective pricing</b>	<b>58</b>
Factors affecting price sensitivity, 58    Managerial analysis of price sensitivity, 72    The economics of price sensitivity, 76    Summary, 80    Notes, 80    Questions, 82	
<b>4 Competition: anticipating and influencing competitors' pricing</b>	<b>84</b>
Evaluating the character of competitive behavior, 85 Anticipating competitors' behavior, 96    Influencing competitors' behavior, 99    Summary, 103    Notes, 104 Questions, 105	
<b>5 Making pricing decisions: formulating and implementing a pricing strategy consistent with the environment</b>	<b>106</b>
Economic value analysis, 106    Formulating a pricing strategy, 113    An intuitive procedure for pricing, 125 Summary, 133    Notes, 134    Questions, 136	
<b>6 Pricing over the product life cycle: adapting strategy to a changing environment</b>	<b>137</b>
Pricing the innovation for market development, 138 Pricing the new product for growth, 142    Pricing the established product in maturity, 147    Pricing a product in market decline, 149    Summary, 152    Notes, 153 Questions, 155	
<b>7 Segmented pricing: tactics for separating markets</b>	<b>156</b>
Segmenting by buyer identification, 157    Segmenting by purchase location, 158    Segmenting by time of purchase, 160    Segmenting by purchase quantity, 162 Segmenting by product design, 168    Segmenting by product bundling, 170    Segmenting by tie-ins and metering, 172    The importance of segmented pricing, 174 Summary, 175    Notes, 176    Questions, 177	

- 8 Pricing in the marketing mix: maintaining strategic consistency with the product, promotion, and distribution 180**
- Pricing and the product line, 180    Pricing and promotion, 187    Price as a promotional tool, 195    Pricing and distribution, 204    Summary, 210    Notes, 211    Questions, 214
- 9 Competitive advantages: establishing foundations for more profitable pricing 216**
- Competitive cost advantages, 217    Competitive product advantages, 235    Summary, 241    Notes, 242    Questions, 244
- 10 Psychological aspects of pricing: influencing price perception and evaluation 246**
- Perception of price differences, 247    Formulation of reference prices, 249    The mental “framing” of prices, 255    Pricing probabilistic goods, 258    Summary, 261    Questions, 263
- 11 Measuring price sensitivity: research techniques to supplement judgment 265**
- Types of measurement procedures, 266    Using measurement techniques appropriately, 288    Summary, 293    Notes, 294    Questions, 297
- 12 Pricing with uncertainty: techniques for analyzing complex pricing decisions 299**
- Pricing with uncertainty, 300    Competitive bidding with Bayesian analysis, 311    Using Bayesian analysis to aid judgment, 316    Concluding note, 318    Notes, 318    Questions, 319

**13 Pricing and the law: avoiding legal entanglements 321**

The legal sanctions, 321    Pricing and the law: a brief  
history, 323    The case law, 326    Summary, 337  
Notes, 338    Questions, 340

**Index 343**
