

CONTENTS

1. Guest-Host Chemistry and Conformational Analysis	
Ian O. Sutherland	1
2. NMR Studies in Liquid Crystals: Determination of Solute Molecular Geometry	
P. Diehl and J. Jokisaari.....	41
3. C-13 Nuclear Spin Relaxation Study as an Aid to Analysis of Chain Dynamics and Conformation of Macromolecules	
Ryozo Kitamaru.....	75
4. Stereochemical Studies in the Solid State	
Takehiko Terao and Fumio Imashiro	125
5. Two-Dimensional NMR Techniques to Determine Molecular Skeleton and Partial Structures of Organic Substances	
Kuniaki Nagayama	155
6. Conformation Analysis of Peptides By Two-Dimensional NMR Spectroscopy	
Horst Kessler and Wolfgang Bermel.....	179
Author Index	206
Subject Index	216
