

CONTENTS

PREFACE TO THE SERIES	iii
PREFACE TO VOLUME 15	v
CONTRIBUTORS	xi
CONTENTS OF OTHER VOLUMES	xiii

Chapter 1

CATEGORIES OF ZINC METALLOENZYMES	1
-----------------------------------	---

Alphonse Galdes and Bert L. Vallee

1. Introduction	1
2. Catalytic Role of Zinc: Carbonic Anhydrase	8
3. Structural Role of Zinc: Aspartate Transcarbamylase	20
4. Regulatory and Catalytic Roles of Zinc: Leucine Aminopeptidase	29
5. Noncatalytic and Catalytic Roles of Zinc: Alcohol Dehydrogenase	35
6. General Conclusions	46
References	47

Chapter 2

MODELS FOR Zn(II) BINDING SITES IN ENZYMES	55
--	----

Robert S. Brown, Joan Huguet, and Neville J. Curtis

1. Introduction	55
2. Carbonic Anhydrase	57
3. Peptidases: Carboxypeptidase and Thermolysin	66
4. Alcohol Dehydrogenase	76
5. Alkaline Phosphatase	82
6. Superoxide Dismutase	87
7. Conclusion	89
References	90

Chapter 3

AN INSIGHT ON THE ACTIVE SITE OF ZINC ENZYMES THROUGH METAL SUBSTITUTION	101
--	-----

Ivano Bertini and Claudio Luchinat

1. Introduction	102
2. Zinc(II) in Metalloenzymes	103
3. Zinc Substitution and General Remarks on the Metal Derivatives	111
4. Cobalt(II) Derivatives	113
5. Copper(II) Derivatives	125
6. Manganese(II) Derivatives	127
7. Cadmium(II) Derivatives	132
8. Other Metal Derivatives	138
9. Concluding Remarks	140
References	145

Chapter 4

THE ROLE OF ZINC IN DNA AND RNA POLYMERASES	157
---	-----

Felicia Ying-Hsiueh Wu and Cheng-Wen Wu

1. Introduction	157
2. Universal Presence of Zinc in DNA and RNA Polymerases	158
3. DNA Polymerase	161
4. RNA Polymerase	163
5. Possible Role of Intrinsic Zinc	181
6. Conclusions and Perspective	185
Abbreviations	186
References	187

Chapter 5

THE ROLE OF ZINC IN SNAKE TOXINS	193
----------------------------------	-----

Anthony T. Tu

1. Introduction	193
2. Metals in Snake Venoms	195
3. Effect of Chelating Agents	199
4. Zinc in Purified Hemorrhagic Toxins and Proteolytic Enzymes	200
References	209

Chapter 6

SPECTROSCOPIC PROPERTIES OF METALLOTHIONEIN 213

Milan Vařák and Jeremias H. R. Kägi

1. Introduction	214
2. Covalent Structure	215
3. Metal Composition, Removal, and Reconstitution: Preparation of Transition Metal Derivatives	217
4. Spectroscopic Features of Native and Reconstituted Metallothionein	219
5. Conformation of the Polypeptide Chain in Metallothionein	237
6. Coordination Geometry of Metal-Binding Sites in Metallothionein	241
7. Metal-Thiolate Clusters in Metallothionein	249
8. Stability of Metal-Protein Complexes in Metallothionein	261
9. Conclusion	268
References	269

Chapter 7

INTERACTION OF ZINC WITH ERYTHROCYTES 275

Joseph M. Rifkind

1. Introduction	276
2. Interaction of Zinc with Erythrocyte Membranes	277
3. Interaction of Zinc with Hemoglobin	294
4. Conclusion	309
Abbreviations	310
References	310

Chapter 8

ZINC ABSORPTION AND EXCRETION IN RELATION TO NUTRITION 319

Manfred Kirchgessner and Edgar Weigand

1. Introduction	320
2. Absorption	320
3. Excretion	342
4. Significance for Zinc Nutrition	351
References	354

Chapter 9

NUTRITIONAL INFLUENCE OF ZINC ON THE ACTIVITY OF ENZYMES AND HORMONES	363
---	-----

Manfred Kirchgessner and Hans-Peter Roth

1. Introduction	363
2. Effects of Zinc on Metalloenzyme Activity	364
3. Effects of Zinc on Hormones	383
References	405

Chapter 10

ZINC DEFICIENCY SYNDROME DURING PARENTERAL NUTRITION IN HUMANS	415
--	-----

Karin Ladefoged and Stig Jarnum

1. Introduction	416
2. Metabolic Aspects of Zinc in Human Nutrition	416
3. Zinc Deficiency During Parenteral Nutrition	418
4. Case Reports	422
References	435

AUTHOR INDEX	439
