

# CONTENTS

|  |     |
|--|-----|
| Preface .....  | ix  |
| 1. The Study of the Structure and Chain Dynamics of Polysulfones by Carbon-13 NMR .....  | 1   |
| F. A. Bovey and R. E. Cais   |     |
| 2. Polysaccharide Branching and Carbon-13 NMR .....  | 27  |
| F. R. Seymour  |     |
| 3. A Reinvestigation of the Structure of Poly(dichlorophenylene oxides) Using Carbon-13-NMR Spectroscopy (I) .....                             | 53  |
| John F. Harrod and Patrick van Gheluwe   |     |
| 4. Carbon-13 NMR in Organic Solids: The Potential for Polymer Characterization .....   | 67  |
| A. N. Garroway, W. B. Moniz, and H. A. Resing  |     |
| 5. Carbon-13 NMR Studies of Model Anionic Polymerization Systems   | 89  |
| S. Bywater and D. J. Worsfold  |     |
| 6. Carbon-13 NMR High-Resolution Characterization of Elastomer Systems .....   | 97  |
| Charles J. Carman  |     |
| 7. Characterization of Carbohydrate Polymers by Carbon-13 NMR Spectroscopy .....   | 123 |
| Arthur S. Perlin and Gordon K. Hamer   |     |
| 8. Relaxation Studies in the System Poly(ethyl methacrylate)-Chloroform by Carbon-13 and Proton NMR .....                                      | 143 |
| Lenas J. Hedlund, Robert M. Riddle, and Wilmer G. Miller   |     |
| 9. The Use of Carbon-13 NMR to Study Binding of Hormones to Model Receptor Membranes: The Opioid Peptide Enkephalin .....                      | 159 |
| Harold C. Jarrell, P. Tancrede, Roxanne Deslauriers, W. Herbert McGregor, and Ian C. P. Smith  |     |
| 10. Carbon-13 Spin Relaxation Parameters of Semicrystalline Polymers   | 181 |
| D. E. Axelson and L. Mandelkern  |     |
| 11. Use of Carbon-13 NMR Analysis in the Characterization of Alternating Copolymers Prepared by Chemical Modifications of 1,4-Polydienes ..... | 215 |
| R. Lacas, G. Maurice, and J. Prud'homme  |     |
| 12. Carbon-13 NMR Studies on the Cationic Polymerization of Cyclic Ethers .....  | 237 |
| G. Pruckmayr and T. K. Wu  |     |

|   |     |
|---|-----|
| 13. A Comparison of Models and Model Parameters for the Interpretation of Carbon-13 Relaxation in Common Polymers ..... | 271 |
| Alan Anthony Jones, Gary L. Robinson, and Fredric E. Gerr   |     |
| 14. Carbon-13 NMR and Polymer Stereochemical Configuration .....  | 291 |
| James C. Randall  |     |
| Index .....   | 319 |
