

CONTENTS

Preface	v
Contents	vii
Part 1: Foundations	
1.1 An Outline of the Decision Analysis Approach	1
1.2 Further Implications of Coherence	6
1.3 Principles of Forecasting Methodology	10
1.4 The Problem of Induction	14
1.5 Forecasting within Decision Analysis	16
1.6 A Formalisation of Coherent Forecasting	18
Part 2: Methodology	
2.1 The Synthesis of Forecasting Models	20
2.2 A Minimum Variance Synthesis of Forecasts	21
2.3 A Subjective Probability Synthesis of Forecasts	29
2.4 Final Comment on Methodology	57
Part 3: Applications	
3.1 U.K. Output of Gas, Electricity and Water	59
3.2 Hawaiian Tourists	61
3.3 Sales of a Company in the Home Furnishings Industry	67
3.4 Canadian Consumer Expenditure	70
3.5 U.K. Economy	73
Review	78
Appendix 1: Computational Algorithms	80
Appendix 2: The Estimation of Prior Density Functions	92
References	110
