

# Contents

<b>Part One</b>	<b>Simple Structures</b>	
Chapter 1	Causal-Loop Diagramming	3
Chapter 2	Positive Feedback Structure	13
Chapter 3	Negative Feedback Structure	35
Chapter 4	S-Shaped Growth Structure	67
Chapter 5	Review of Simple Structures: Industrial Land-Use Model	93
<b>Part Two</b>	<b>Exercises in Simple Structures</b>	
Exercise 1	Causal-Loop Diagramming <i>Solution 141</i>	137
Exercise 2	Graphical Integration <i>Solution 155</i>	149
Exercise 3	Flow Diagramming <i>Solution 165</i>	161
Exercise 4	Positive Feedback <i>Solution 171</i>	167
Exercise 5	Negative Feedback: Application to Population Decay <i>Solution 179</i>	175
Exercise 6	Negative Feedback: Application to Inventory Control <i>Solution 189</i>	183
Exercise 7	First-Order Linear Systems (with Dennis L. Meadows) <i>Solution 203</i>	193
Exercise 8	Simple Structures <i>Solution 211</i>	209

<b>Part Three</b>	<b>Exercises in Analysis and Conceptualization</b>	
Exercise 9	Delays: Exercise and Supplementary Notes <i>by Dennis L. Meadows</i> Solution 249	219
Exercise 10	Commodity Production Cycle Model <i>by Dennis L. Meadows</i> Solution 267	257
Exercise 11	Analysis of Market Growth Model <i>by Narendra K. Patni</i> Solution 299	281
Exercise 12	Residential Community Model <i>by Michael R. Goodman</i> Solution 313	309
Exercise 13	Future Electronics Model <i>by Edwin N. Jarmain</i> Solution 353	349
Exercise 14	Yellow-Fever Model <i>by Kjell Kalgraf</i> Solution 369	365
Exercise 15	Kaibab Plateau Model <i>by Michael R. Goodman</i> Solution 381	377
