<i>Preface</i>	xi
<i>Acknowledgments</i>	xv

<b>Introduction and Overview</b>	1
----------------------------------	---

PART ONE	
ASPECTS OF MATHEMATICAL THINKING: A THEORETICAL OVERVIEW	9

---

<b>1. A Framework for the Analysis of Mathematical Behavior</b>	11
Overview	11
Typical Problems, Typical Behavior: The Four Categories Illustrated	14
Resources	17
Heuristics	22
Control	27
Belief Systems	34
Summary	44
<b>2. Resources</b>	46
Routine Access to Relevant Knowledge	46
The Broad Spectrum of Resources	54
Flawed Resources and Consistent Error Patterns	61
Summary	67

<b>3. Heuristics</b>	69
Introduction and Overview	69
What a Problem Is and Who the Students Are	74
Toward More Precise and Usable Descriptions of Heuristic Strategies	76
The Complexity of Implementing a “Straightforward” Heuristic Solution	84
Heuristics and Resources Deeply Intertwined	91
Summary	95
<b>4. Control</b>	97
Introduction and Overview	97
On the Importance of Control: A Look at a Microcosm	100
Modeling a Control Strategy for Heuristic Problem Solving	106
Toward a Broader View of Control	114
Literature Related to Control	127
Summary	143
<b>5. Belief Systems</b>	145
Selections from the Relevant Literature	146
A Mathematician Works a Construction Problem	157
The Student as Pure Empiricist:	
A Model of Empirical Behavior	160
How the Model Corresponds to Performance	164
A Deeper Look at Empiricism: CS and AM Work Problem 1.1	165
Further Evidence Regarding Naive Empiricism:	
DW and SP Work Four Related Problems	174
Summary	184
PART TWO	
EXPERIMENTAL AND OBSERVATIONAL STUDIES,	
ISSUES OF METHODOLOGY, AND	
QUESTIONS OF WHERE WE GO NEXT	187
<hr/>	
Overview	187
<b>6. Explicit Heuristic Training as a Variable in Problem-Solving Performance</b>	189
A Brief Discussion of Relevant Literature	190
Experimental Design	193
Results	203
Two Methodological Questions	208
Discussion	209
Implications and Directions for Extension	212
Summary	214

<b>7. Measures of Problem-Solving Performance and Problem-Solving Instruction</b>	216
A Brief Discussion of Relevant Work	217
The Experimental and Control Treatments	219
Measure 1: A Plausible-Approach Analysis of Fully Solved Questions	223
Discussion of Testing Results	230
Measure 2: Students' Qualitative Assessments of Their Problem Solving	231
Measure 3: Heuristic Fluency and Transfer	233
A Brief Discussion of Control Issues	238
Summary	239
<b>8. Problem Perception, Knowledge Structure, and Problem-Solving Performance</b>	242
Background	243
Method	247
Results of the Sortings	252
Discussion	259
Summary	263
Appendix: Problems Used in the Card Sort	265
<b>9. Verbal Data, Protocol Analysis, and the Issue of Control</b>	270
Overview	270
Background, Part 1: Verbal Methods	272
Through a Glass Darkly: A Close Look at Verbal Data	275
Background, Part 2: Other Protocol Coding Schemes and Issues of Control	283
The Major Issues for Analysis: A Brief Discussion of Two Protocols	288
A Framework for the Macroscopic Analysis of Problem-Solving Protocols	292
Episodes and the Associated Questions	297
A Full Analysis of a Protocol	301
A Further Discussion of Control: More Data from Students, and the Analysis of an Expert Problem Solver's Protocol	306
Brief Discussion: Limitations and Needed Work	314
Summary	316
Appendix 9.1: A Single-Person Protocol of the Cells Problem	317
Appendix 9.2: Protocol 9.2	319
Appendix 9.3: Protocol 9.3	324
Appendix 9.4: Protocol 9.4	331
Appendix 9.5: Protocol 9.5	340

<b>10. The Roots of Belief</b>	345
A Discussion of Two Geometry Protocols	346
A Brief Analysis of Protocol 10.1	347
A Brief Analysis of Protocol 10.2	349
A Brief Discussion	354
The Strength of Empiricism: More Data	355
The Origins of Empiricism	357
Summary	373
Postscript	375
Appendix 10.1: Protocol 10.1	375
Appendix 10.2: Protocol 10.2	382
<b>References</b>	388
<i>Author Index</i>	399
<i>Subject Index</i>	403
